Houston Wood,2015-06-02 Invitation to Peace Studies is the first textbook in the field to emphasize 21st century topics and the latest empirical research as well as the first to prominently apply a gender perspective to the topics of peace war and violence The book covers traditional peace studies concerns with interstate wars while offering an equal emphasis on intrastate wars group and gender based violence and on the many nonviolent movements which have shaped recent world history Clear and accessible language invites students to become more frequent and effective peace promoters in their own everyday lives Dozens of case studies and textboxes foreground contemporary topics such as climate change cyber warfare digital activism drones and robots the occupy movement peace ecology positive psychology religion and violence and

terrorism Necessity and Proportionality in International Peace and Security Law Claus Kreß, Robert Lawless, 2021 There are legal limits on the circumstances under which states may use military force to address a perceived or actual threat The concepts of necessity and proportionality are central to these limitations imposed by the law Necessity and Proportionality in International Peace and Security Law explores the many ways in which necessity and proportionality arise in the law on the modern battlefield which is rapidly changing complex and ambiguous **Building Sustainable Peace** Arnim

Langer, Graham K. Brown, 2016-06-16 Countries emerging from civil war or protracted violence often face the daunting challenge of rebuilding their economy while simultaneously creating the political and social conditions for a stable peace The implicit assumption in the international community that rapid political democratisation along with economic liberalisation holds the key to sustainable peace is belied by the experiences of countries such as Iraq and Afghanistan Often the challenges of post conflict reconstruction revolve around the timing and sequencing of different reform that may have contradictory implications Drawing on a range of thematic studies and empirical cases this book examines how post conflict reconstruction policies can be better sequenced in order to promote sustainable peace The book provides evidence that many reforms that are often thought to be imperative in post conflict societies may be better considered as long term objectives and that the immediate imperative for such societies should be people centred policies *The Childhood Emotional Pattern and Human Hostility* Leon Joseph Saul, 1980 **Peace Psychology in the Balkans** Simić, Zala Volčič, Catherine R.

Philpot, 2012-03-07 The volume covers the development of peace psychology in the Balkans The Balkans is a region marked by post communist and post conflict transitional turmoil and this book provides a comprehensive introduction to research in peace psychology in this part of the world written by scholars primarily working in the Balkan area It brings together innovative scholarship that examines interdisciplinary aspects of peace psychology researched and written by scholars from Kosovo Serbia Bosnia Bulgaria Romania Macedonia Croatia and Slovenia as well as presenting research that responds to contemporary global issues by tracking the ways in which peace psychology is developing and implementing in the Balkans

research in the area of peace psychology Many of these methods are drawn from the field from activities used by active peace practitioners A critical component of this volume is its core argument that peace research should be conducted by peaceful means and should model peaceful processes Organized thematically the volume begins with a review of the established best practices in peace psychology research methodology including methods for qualitative research for quantitative research and participative action networks In doing so it also points to some of the limitations of working for peace within the tradition of a single discipline and to the need to expand psychology methodology to methodologies Therefore the second half of the volume proceeds to explore the realm of innovative relatively unorthodox research methods such as participatory and workshop methods the creative arts and sports for research purposes The use of new advances in information technology to conduct peaceful research are also discussed The concluding chapters synthesize key issues from the previous chapters and links peace psychology with ideas and implementation of research designs and practices Finally it discusses the nature of academic knowledge and more specifically academic knowledge in peace psychology and where that fits into the mission to build a more peaceful world Overall this book aims to provide peace psychologists with an array of possibilities and best practices for approaching their research Many researchers find the experience of doing research a somewhat lonely if not isolating experience Methodologies in Peace Psychology Peace Research by Peaceful Means aims to alleviate this feeling as the use of these more innovative methods leads to a closer engagement with the community and a much more social experience of research This volume is a useful tool for both new and experienced researchers because it provides leads for idealistic young researchers who want their work to make a difference in addition to encouraging more reflection and analysis for experienced peace psychologists
