Empire And Independence International History Of The American Revolution:

Empire and Independence Richard W. Van Alstyne,1967 *Empire and Independence* Richard Van Alstyne,1965

Empire and independence Richard Warner Van Alstyne,1965 *Empire and Independence; the International History of the American Revolution [by] Richard W. Van Alstyne* Richard Warner Van Alstyne,1965 **American Revolution** Spencer C. Tucker,2018-09-14 With more than 1 300 cross referenced entries covering every aspect of the American Revolution this definitive scholarly reference covers the causes course and consequences of the war and the political social and military origins of the nation This authoritative and complete encyclopedia covers not only the eight years of the American Revolutionary War 1775 1783 but also the decades leading up to the war beginning with the French and Indian War and the aftermath of the conflict with an emphasis on the early American Republic Volumes one through four contain a series of overview essays on the causes course and consequences of the American Revolution followed by impeccably researched A Z entries that address the full spectrum of political social and military matters that arose from the conflict Each entry is cross referenced to other entries and also lists books for further reading In addition there is a detailed bibliography timeline and glossary A fifth volume is devoted to primary sources each of which is accompanied by an insightful introduction that places the document in its proper historical context The primary sources help readers to understand the myriad motivations behind the American Revolution the diplomatic military and political maneuvering that took place during the conflict and landmark documents that shaped the founding and early development of the United States **The Struggle for Sea Power: A Naval History of the American Revolution** Sam Willis,2016-02-15 A fascinating naval perspective on one of the greatest of all historical conundrums How did thirteen isolated colonies which in 1775 began a war with Britain without a navy or an army win their independence from the greatest naval and military power on earth The American Revolution involved a naval war of immense scope and variety including no fewer than twenty two navies fighting on five oceans to say nothing of rivers and lakes In no other war were so many large scale fleet battles fought one of which was the most strategically significant naval battle in all of British French and American history Simultaneous naval campaigns were fought in the English Channel the North and Mid Atlantic the Mediterranean off South Africa in the Indian Ocean the Caribbean the Pacific the North Sea and of course off the eastern seaboard of America Not until the Second World War would any nation actively fight in so many different theaters In *The Struggle for Sea Power* Sam Willis traces every key military event in the path to American independence from a naval perspective and he also brings this important viewpoint to bear on economic political and social developments that were fundamental to the success of the Revolution In doing so Willis offers valuable new insights into American British French Spanish Dutch and Russian history This unique account of the American Revolution gives us a new understanding of the influence of sea power upon history of the American path to independence and of the rise and fall of the British Empire *Britain and the American Revolution* H. T. Dickinson,2014-07-30 This is the first modern study to focus on

the British dimension of the American Revolution through its whole span from its origins to the declaration of independence in 1776 and its aftermath It is written by nine leading British and American scholars who explore many key issues including the problems governing the American colonies Britain's diplomatic isolation in Europe over the war the impact of the American crisis on Ireland and the consequences for Britain of the loss of America *Europe in the Eighteenth Century 1713-1789* M.S. Anderson, 2014-07-22 For 1st and 2nd year undergraduate courses in Modern European History in departments of history Also higher level courses on enlightenment This book provides a wide ranging account and discussion of the history of Europe from 1713 1789 As well as political events problems and institutions it looks at the economic life of the continent social structures and problems and intellectual and religious life It also covers all aspects of Europe's relations with the rest of the world during a key period in European history **Historical Dictionary of Revolutionary America** Terry M. Mays, 2005-06-09 Not just about the grievances that led to war nor the actual war itself but more particularly the subsequent period of trial and error in which the thirteen states and those that followed were welded into the United States of America In addition to the over 1100 dictionary entries on significant people and political economic and social events of the era appendixes documenting the signers of the Declaration of Independence the Articles of Confederation and the Constitution as well as listing all the Presidents of Congress under the Articles of Confederation are included [The New Cambridge History of American Foreign Relations: Volume 1, Dimensions of the Early American Empire, 1754-1865](#) William Earl Weeks, 2013-02-28 Since their first publication the four volumes of the Cambridge History of American Foreign Relations have served as the definitive source for the topic from the colonial period to the Cold War This entirely new first volume narrates the British North American colonists pre-existing desire for expansion security and prosperity and argues that these desires are both the essence of American foreign relations and the root cause for the creation of the United States They required the colonists to unite politically as individual colonies could not dominate North America by themselves Although ingrained localist sentiments persisted a strong durable Union was required for mutual success thus American nationalism was founded on the idea of allegiance to the Union Continued tension between the desire for expansion and the fragility of the Union eventually resulted in the Union's collapse and the Civil War **Foreign Affairs and the Founding Fathers** Norman A. Graebner, Richard Dean Burns, Joseph M. Siracusa, 2011-11-01 This concise diplomatic history of the Confederation era is the first new work on the topic in a generation In its pages three distinguished diplomatic historians offer a realist interpretation of the way in which the Founding Fathers conducted foreign affairs refreshing our collective memory about their priorities and their values When three of the nation's leading historians come together to fashion a fresh study of American history the resulting work cannot help but be a monumental addition to the field Foreign Affairs and the Founding Fathers From Confederation to Constitution 1776 1787 is such a work These eminent scholars provide a thoughtful realist interpretation of the Founders view of America's place in the world delivering a timely reassessment of their

aspirations thoughts and actions during the seminal decades of the American nation This book takes readers backstage where they can eavesdrop on the Founders to better understand their motives and intentions and see how they responded to threats and problems associated with America's place in the world Arguing that the Founding Fathers essentially thought and acted in terms of power ranking matters of national interest and security over ideology and moral concerns the book sheds new light on the foreign policy opportunities and challenges of the day as the Founders weighed and determined them In so doing it offers important guideposts for our own time

The Birth of a Great Power System, 1740-1815 Hamish Scott, 2014-07-22 The Birth of a Great Power System 1740 1815 examines a key development in modern European history the origins and emergence of a competitive state system H M Scott demonstrates how the well known and dramatic events of these decades the emergence of Russia and Prussia the three partitions of Poland the continuing retreat of the Ottoman Empire the unprecedented territorial expansion of Revolutionary and Napoleonic France halted by the final defeat of Napoleon were part of a wider process that created the modern great power system dominated by Europe's five leading states Enhanced by maps and a chronology of principal events this comprehensive and accessible textbook is fully up to date in its coverage of recent scholarship Unlike many other treatments of this period Scott extends his beyond the French Revolution of 1789 in order to demonstrate how events both before and after this great upheaval merged to produce the central political development in modern European history This book addresses the crucial phase in the emergence of the modern international system which with the subsequent addition of the USA Japan and Russia has prevailed until the present day

The New Cambridge History of American Foreign Relations William Earl Weeks, Walter LaFeber, Akira Iriye, Warren I. Cohen, 2013-02-28 This new first volume proposes that the British North American colonists' desire for expansion security and prosperity is the essence of American foreign relations

A History of American Foreign Policy: Global power, 1900 to the present Alexander DeConde, 1978

The Law of U.S. Foreign Relations Sean D. Murphy, Edward T. Swaine, 2023 The Law of U S Foreign Relations is a comprehensive and incisive discussion of the rules that govern the conduct of U S relations with foreign countries and international organizations and the rules governing how international law applies within the U S legal system Among other topics this volume examines the constitutional and historical foundations of congressional executive and judicial authority in foreign affairs This includes the constitutional tensions prevalent in legislative efforts to control executive diplomacy as well as the ebb and flow of judicial engagement in transnational disputes with the judiciary often serving as umpire but at times invoking doctrines of abstention The process of U S adherence to treaties and other international agreements is closely scrutinized as the authors examine how such law as well as customary international law and the law making acts of international organizations can become a source of U S law Individual chapters focus on the special challenges posed by the exercise of war powers by the federal government including during recent incidents of international armed conflict the complex role of the several states in foreign affairs and the

imperative to protect individual rights in the transnational sphere Among the contemporary issues discussed are the immunity of foreign heads of State treatment of detainees at Guantanamo movement of the U S Embassy in Israel to Jerusalem state level foreign compacts to address climate change bans affecting refugees and asylum seekers and recent interpretations of key statutes such as the Alien Tort Statute the Torture Victim Protection Act and the Foreign Sovereign Immunities Act

Years of Peril and Ambition George C. Herring, 2017 V 1 Years of peril and ambition U S foreign relations 1776 1921 v 2 The American century and beyond U S foreign relations 1893 2014

Understanding U.S. Military Conflicts through Primary Sources James R. Arnold, Roberta Wiener, 2015-11-12 An easily accessible resource that showcases the links between using documented primary sources and gaining a more nuanced understanding of military history Primary source analysis is a valuable tool that teaches students how historians utilize documents and interpret evidence from the past This four volume reference traces key decisions in U S military history from the Revolutionary War through the 21st century conflicts in Afghanistan and Iraq by examining documents relating to military strategy and national policy judgments by U S military and political leaders A comprehensive introductory essay provides readers with the context necessary to understand the relationship between diplomatic documents military correspondence and other documentation related to events that shaped warfare diplomacy and military strategy Once the stage is set the work covers 14 conflicts that are significant to U S history Treatment of each of the conflicts begins with a historical overview followed by a chronology and approximately 30 primary source documents presented in chronological order Each document is accompanied by a description and annotations and by an analysis that highlights its importance to the event or topic under discussion Designed for secondary school and college students the work will be exceptionally valuable to teachers who will appreciate the ready made lessons that fit directly into core curriculum standards

The Nationalist Ferment Marie-Jeanne Rossignol, 2004 This book was published in June 1994 by a French publisher and became the winner of the Organization of American Historians foreign language book prize The Nationalist Ferment contributes significantly to the renewal of early U S diplomatic history Since the 1980s a number of diplomatic historians have turned aside from traditional diplomatic issues and sources They have instead focused on gender ethnic relationships culture and the connections between foreign and domestic policy Rossignol argues that in the years 1789 1812 the new nation needed to assert its independence and autonomous character in the face of an unconvinced world After overcoming initial divisions caused by foreign policy Americans met this challenge by defining common foreign policy objectives and attitudes which both legitimized the United States abroad and reinforced national unity at home This book establishes the constant connections between domestic and international issues during the early national period

Legacies of the American Revolution Larry R. Gerlach, James A. Dolph, Michael L. Nicholls, 1978

Colonial America Jerome Reich, 2016-07-01 This brief up to date examination of American colonial history draws connections between the colonial period and American life today by including formerly neglected areas of social and cultural history and the role of

minorities African Americans Native Americans women and laboring classes It summarizes and synthesizes recent studies and integrates them with earlier research Key topics European Backgrounds The Native Americans The Spanish Empire in America The Portuguese French and Dutch Empires in America The Background of English Colonization The Tobacco Colonies Virginia and Maryland The New England Colonies The Completion of Colonization Seventeenth Century Revolts and Eighteenth Century Stabilization Colonial Government African Americans in the English Colonies Immigration Colonial Agriculture Colonial Commerce Colonial Industry Money and Social Status The Colonial Town The Colonial Family Religion in Colonial America Education in Colonial America Language and Literature Colonial Arts and Sciences Everyday Life in Colonial America The Second Hundred Years War The Road to Revolution The Revolutionary War Governments for a New Nation Market For anyone interested in Colonial History American Revolution or Early American Social History
