*Empire's Twilight* David M. Robinson, 2020-10-26 The rise of the Mongol empire transformed world history Its collapse in the mid fourteenth century had equally profound consequences Four themes dominate this study of the late Mongol empire in Northeast Asia during this chaotic era the need for a regional perspective encompassing all states and ethnic groups in the area the process and consequences of pan Asian integration under the Mongols the tendency for individual and family interests to trump those of dynasty country or linguistic affiliation and finally the need to see Koryo Korea as part of the wider Mongol empire Northeast Asia was an important part of the Mongol empire and developments there are fundamental to understanding both the nature of the Mongol empire and the new post empire world emerging in the 1350s and 1360s In Northeast Asia Jurchen Mongol Chinese Korean and Japanese interests intersected and the collapse of the Great Yuan reshaped Northeast Asia dramatically To understand this transition or series of transitions the author argues one cannot

*Britain in China* Robert Bickers,2017-03-01 This is a study of Britain's presence in China both at its peak and during its inter war dissolution in the face of assertive Chinese nationalism and declining British diplomatic support Using archival materials from China and records in Britain and the United States the author paints a portrait of the traders missionaries businessmen diplomats and settlers who constituted Britain in China challenging our understanding of British imperialism there Bickers argues that the British presence in China was dominated by urban settlers whose primary allegiance lay not with any grand imperial design but with their own communities and precarious livelihoods This brought them into conflict not only with the Chinese population but with the British imperial government The book also analyzes the formation and maintenance of settler identities and then investigates how the British state and its allies brought an end to the reign of freelance settler imperialism on the China coast At the same time other British sectors missionary and business renegotiated their own relationship with their Chinese markets and the Chinese state and distanced themselves from the settler British

*Improvised City* Cole Roskam,2019-03-15 For nearly one hundred years Shanghai was an international treaty port in which the extraterritorial rights of foreign governments shaped both architecture and infrastructure and it merits examination as one of the most complex and influential urban environments of the late nineteenth and early twentieth centuries *Improvised City* illuminates the interplay between the city's commercial nature and the architectural forms and practices designed to manage it in Shanghai's three municipalities the International Settlement the French Concession and the Chinese city This book probes the relationship between architecture and extraterritoriality in ways that challenge standard narratives of Shanghai's built environment which are dominated by stylistic analyses of major landmarks Instead by considering a wider range of town halls post offices municipal offices war memorials water works and consulates Cole Roskam traces the cultural economic political and spatial negotiations that shaped Shanghai's growth *Improvised City* repositions Shanghai within architectural and urban transformations that reshaped the world over the late nineteenth and early twentieth centuries It responds to growing academic interest in the history of modern and contemporary Chinese architecture and urbanism the ongoing shifting relationship between sovereignty and space and the variegated forms of urban exceptionality such as special economic zones tax free trading spheres and commercial enclaves that continue to shape cities
