Empire Of Death:

Empire's Mistress, Starring Isabel Rosario Cooper Vernadette Vicuña Gonzalez, 2021-02-05 In *Empire's Mistress* Vernadette Vicuña Gonzalez follows the life of Filipina vaudeville and film actress Isabel Rosario Cooper who was the mistress of General Douglas MacArthur. If mentioned at all, their relationship exists only as a salacious footnote in MacArthur's biography: a failed love affair between a venerated war hero and a young woman of Filipino and American heritage. Following Cooper from the Philippines to Washington D.C. to Hollywood where she died penniless, Gonzalez frames her not as a tragic heroine but as someone caught within the violent histories of U.S. imperialism. In this way, Gonzalez uses Cooper's life as a means to explore the contours of empire as experienced on the scale of personal relationships. Along the way, Gonzalez fills in the archival gaps of Cooper's life with speculative fictional interludes that both unsettle the authority of official archives and dislodge the established one-dimensional characterizations of her. By presenting Cooper as a complex historical subject who lived at the crossroads of American colonialism in the Philippines, Gonzalez demonstrates how intimacy and love are woven into the infrastructure of empire.

Numbers and Mathematical Concepts in Islam, Battle of Tours John C. Scott, 2013-05-22

TOURS THE MOST SIGNIFICANT BATTLE IN HISTORY This is not a history book. It is not unlikely that this book will get me killed and I would not dismiss the danger to its publishers. If you have the courage to print and distribute it, there is no doubt that it will be one of the all-time best sellers in the world today. Tours, the largest city in the Centre region of France, is the location of what was arguably the most significant battle in human history. Here in 732, Charles the Hammer Martel stopped an invading army of sixty thousand Muslims. Charles Martel slaughtered every one of them and left their unholy bones to rot as a testament to God and all who passed. Since the birth of the so-called prophet Mohammed in 471 AD, the crazed followers of Allah rampaged throughout the Middle East and invaded southern Europe in an attempt to lay waste to all Christian lands, murdering, pillaging, and proselytizing. The spread of Islam throughout the Middle East was most certainly by and under the sword. The Egyptians were obviously not Arabs or Muslims until the armies of Islam swept into their territories. Equally in every country that fell under the murdering hands of the Muslims, the people of those countries were subjugated and slaughtered, forced to convert or die. Indeed, no one can argue that Islam is not a diseased cult spread by force, staining human history with blood. The story I wrote is about Charles Martel and how he came to be there on that fateful day at Tours as the sole defender of the faith and all that stood against the Muslim onslaught that had penetrated so deeply into Europe. I argue that had not Martel been able to stop them, it is highly likely that today all of us, the entire Christian world, would have likely been destroyed and forced to convert or die. The spires of the minarets would today have been in the thousands throughout Europe and even into the new world. It is highly probable that Islam would have retained a dominant position throughout the world just as they do today in all lands that have fallen under their obscene rule. With their seeming worship and devotion of and to ignorance, human civilization would have been stuck in the past. We would have had no

modernization no invention and no advancement mankind today would still be living in the dark ages under the cruel eyes of the Mutawas thought police and vicious power hungry Ayatollahs It would be centuries later during the Ottoman Empire that Islam again threatened Europe It is important to note that Martel s victory at Tours and his later campaigns prevented invasion of Europe by the Muslim caliphate Martel preserved and protected Christianity and Western civilization as we know it Gibbons called him the paramount prince of his age A strong argument can be made that Gibbons was entirely correct The book describes the Battle of Tours as if it were happening today it recreates the movements of the armies the difficulties of provisioning such large numbers in those times and looks into the minds of the leaders and soldiers as they fought and died in that historic conflict The book shows us the motivations of the mad Muslims who so desperately wanted to destroy western Christianity and delves into their reasoning then and now Tours is important because it was the first time a western Christian Army had defeated the marauding Muslims and it set the stage for the retaliation that was to follow in the form of the Crusades Both the crusades and the attacks into Europe by the Muslims that preceded them laid the foundations for the humiliation anger and hatred that motivates the attacks on the west by the Jihadists of today The skein of history in those times is thin The book does not rely on diaries and written accounts as one can in more recent battles [Empire's Proxy](#) Meg Wesling,2011-04-11 Part of the American Literatures Initiative Series In the late nineteenth century American teachers descended on the Philippines which had been newly purchased by the U S at the end of the Spanish American War Motivated by President McKinley s project of benevolent assimilation they established a school system that centered on English language and American literature to advance the superiority of the Anglo Saxon tradition which was held up as justification for the U S s civilizing mission and offered as a promise of moral uplift and political advancement Meanwhile on American soil the field of American literature was just being developed and fundamentally though invisibly defined by this new extraterritorial expansion Drawing on a wealth of material including historical records governmental documents from the War Department and the Bureau of Insular Affairs curriculum guides memoirs of American teachers in the Philippines and 19th century literature Meg Wesling not only links empire with education but also demonstrates that the rearticulation of American literary studies through the imperial occupation in the Philippines served to actually define and strengthen the field Empire s Proxy boldly argues that the practical and ideological work of colonial dominance figured into the emergence of the field of American literature and that the consolidation of a canon of American literature was intertwined with the administrative and intellectual tasks of colonial management **Myths and Memories of the Black Death** Ben Dodds,2021-12-11 This book explores modern representations of the Black Death a medieval pandemic The concept of cultural memory is used to examine the ways in which journalists writers of fiction scholars and others referred to described and explained the Black Death from around 1800 onwards The distant medieval past was often used to make sense of aspects of the present from the cholera pandemics of the nineteenth century to the climate crisis of the early twenty first century A

series of overlapping myths related to the Black Death emerged based only in part on historical evidence Cultural memory circulates in a variety of media from the scholarly article to the video game and online video clip and the connections and differences between mediated representations of the Black Death are considered The Black Death is one of the most well known aspects of the medieval world and this study of its associated memories and myths reveals the depth and complexity of interactions between the distant and recent past *Paul and Death* Linda Joelsson,2016-11-03 The concept of death particularly violent death is prevalent throughout the writings of Paul the Apostle His letters in the New Testament address this topic from a variety of perspectives some of which can appear to be almost contradictory However this need not be problematic Paul and Death uses the method of psychological exegesis to show that the different attitudes toward death in Paul s letters make for a much more coherent discourse if they are seen as an aid to individual and collective psychological coping Taking the differences between each of Paul s letters as its starting point this study suggests that a variety of coping strategies in relation to death may be beneficial depending on the situation the person and the stage of the coping process Drawing on psychologically oriented hermeneutic theory and theories about psychological coping in particular the author argues that each case of psychological coping must be understood in its historical situation and as strategies emanating from a specific person s subjective appraisal Combining theology and biblical studies with modern psychology this book will be of particular interest to academics and students that are studying the relationship between Religion and notions of Death
