## **Empire Of Meaning The Humanization Of The Social Sciences:**

**Empire of Meaning** François Dosse, 1999 An outgrowth of Dosse's History of Structuralism Empire of Meaning is an extended encounter with some of the most influential French intellectuals Through interviews and readings Dosse reveals what has become of the intellectuals of the generation of 68 as they have tried to work out the implications of their revolt against structuralism and the problem of cold war existence Paul Ricoeur Bruno Latour Isabelle Stengers Roger Chartier Marcel Gauchet Dany Robert Dufour and Michel Serres are among the many figures whose words and work unfold in these pages

**The Social Science Encyclopedia** Adam Kuper, 2004-10-14 The Social Science Encyclopedia first published in 1985 to acclaim from social scientists librarians and students was thoroughly revised in 1996 when reviewers began to describe it as a classic This third edition has been radically recast Over half the entries are new or have been entirely rewritten and most of the balance have been substantially revised Written by an international team of contributors the Encyclopedia offers a global perspective on key issues within the social sciences Some 500 entries cover a variety of enduring and newly vital areas of study and research methods Experts review theoretical debates from neo evolutionism and rational choice theory to poststructuralism and address the great questions that cut across the social sciences What is the influence of genes on behaviour What is the nature of consciousness and cognition What are the causes of poverty and wealth What are the roots of conflict wars revolutions and genocidal violence This authoritative reference work is aimed at anyone with a serious interest in contemporary academic thinking about the individual in society

**Doing Discourse Research** Reiner Keller, 2012-12-18 This book provides an introduction to the basic principles of discourse research offering practical research strategies for doing discourse analyses in the social sciences The book includes guidance on developing a research question selecting data and analyzing it and presenting the results The author has extensive practical experience in the field of discourse research and shows throughout how the methods suggested are compatible with numerous research questions and problems in sociology cultural political and social studies and related disciplines

**The Routledge International Handbook of Economic Sociology** Milan Zafirovski, 2023-05-12 This handbook presents a systematic and comprehensive overview of economic sociology an exemplary interdisciplinary field which draws on theoretical frameworks and empirical findings from both economics and sociology to present a unique lens on the interdependence of the economy and society The handbook is arranged in four parts which together present the current state of the art of economic sociology as well as pointing toward future directions for research The first part outlines the theoretical foundations of economic sociology and its relations to other fields particularly with regard to other alternative approaches to economics and looks at conceptions and definitions of economic sociology vary The second part provides an overview of the historical development of economic sociology from classical political economy to the present day The third part explores the main problematics of economic sociology analyzing the economy in relation to particular social institutions the state ideology culture and art religion gender

race ethnicity and more The fourth part focuses on the principal branches including sociology of the market industrial organization and work uncertainty distribution and inequality money and finance and the environment The stellar international cast of contributors is drawn from both economics and sociology therefore presenting a holistic view of the field and contributing to a rejuvenation of economic sociology within economics It is an indispensable reference work for researchers and students across a broad range of sociological and economic disciplines

**Re-Imagining Economic Sociology** Patrik Aspers, Nigel Dodd, 2015-11-19 The purpose of this book is to explore new developments in the field of economic sociology It contains cutting edge theoretical discussions by some of the world's leading economic sociologists with chapters on topics such as the economic convention relational sociology economic identity economy and law economic networks and institutions The book is distinctive in a number of ways First it focuses on theoretical contributions by pulling together and extending what the contributors believe to be the most important theoretical innovations within their own particular areas of the field Second there are contributions by leading economic sociologists from both the US and Europe which gives the book both wider scope and appeal while also creating the opportunity for some interesting dialogue between distinct theoretical traditions The book will be of interest to researchers Ph D students and advanced students on both side of the Atlantic and indispensable in advanced economic sociology courses

**Moral Collectives** Stefan Joller, Marija Stanisavljević, 2023-11-29 Whether terrorist attacks refugee or financial crises the challenges of globalized modernity expose those areas that Durkheim described as anomic and whose processing still illustrates the central position of moral communication There is some evidence to suggest that progressive functional differentiation does not erode morality but actually promotes a remoralization of society through increasing communicative networking Wherever grievances come to light and it is not foreseeable how they could be satisfactorily resolved in the modus operandi morality provides a promising instrument which in the form of moral collectives is able to permeate everyday life and shape society In this sense the anthology is dedicated to a theoretical as well as empirical analysis of morality which takes shape as a genuinely social quantity via moral collectives This book is a translation of an original German edition The translation was done with the help of artificial intelligence machine translation by the service DeepL.com A subsequent human revision was done primarily in terms of content so that the book will read stylistically differently from a conventional translation

**Ricoeur, Hermeneutics, and Globalization** Bengt Kristensson Ugglå, 2011-11-03 Ricoeur Hermeneutics and Globalization explores the philosophical resources provided by Paul Ricoeur's hermeneutics in dealing with the challenges of a world framed by globalization Bengt Kristensson Ugglå's reflections start from an understanding of globalization as an age of hermeneutics linking the seldom related problematic of globalization with hermeneutics through Ricoeur's concept of interpretation The book proceeds to embrace lifelong learning as the emerging new life script of the globalized knowledge economy the post national memory wars generated by the celebration of national anniversaries and the need for orientation in a post modern world order The

author argues that Ricoeur's hermeneutics provide intellectual resources of extraordinary importance in coping with some of the most important challenges in the contemporary world      **The Adventure of Relevance** Martin Savransky, 2016-06-16

At a time where the relevance of the social sciences is under threat this innovative book offers a speculative experimentation on the philosophy and methodology of the social sciences to rethink what relevance is and to cultivate a new ethos of knowledge making for an eventful world Engaging a diverse range of thinkers including Alfred North Whitehead Gilles Deleuze and Isabelle Stengers as well as the American pragmatists John Dewey and William James Martin Savransky challenges longstanding assumptions in the social sciences and argues that relevance is an event that is part and parcel of the immanent and situated processes by which things come to matter He develops new conceptual tools for cultivating an empiricist ethos of inquiry that is attuned to the question of how things come to matter an ethics that turns social inquiry into a veritable adventure The result is an original and rigorous book that infuses knowledge practices in the social sciences with new sensibilities creative possibilities and novel habits of thinking knowing and feeling      **Agri-Food Commodity Chains**

**and Globalising Networks** Richard Le Heron, 2016-03-16 Within the international agri food community at least four theoretical targets are attracting increasing attention They are 1 the established notions of networks and commodity chains that are being revisited by way of critical engagement informed by the insights of in depth empirical work 2 the metrics of calculation and institutional embedding that underpin the rise and functionality of governance technologies 3 the place of regional networking in creating conditions that make possible agri food producer participation in local provisioning and supply and 4 the geo historical dimensions of interconnection and interdependency in the agri food sphere This volume brings together an interdisciplinary team of anthropologists economists business and management academics and geographers to examine a wide range of case studies illustrating various agri food commodity chains and networks around the world and to discuss how they link globally      **Political Emotions** Janet Staiger, Ann Cvetkovich, Ann

Reynolds, 2010-07-02 Political Emotions explores the contributions that the study of discourses rhetoric and framing of emotion make to understanding the public sphere civil society and the political realm Tackling critiques on the opposition of the public and private spheres chapters in this volume examine why some sentiments are valued in public communication while others are judged irrelevant and consider how sentiments mobilize political trajectories Emerging from the work of the Public Feelings research group at the University of Texas Austin and cohering in a New Agendas in Communication symposium this volume brings together the work of young scholars from various areas of study including sociology gender studies anthropology art and new media The essays in this collection formulate new ways of thinking about the relations among the emotional the cultural and the political Contributors recraft familiar ways of doing critical work and bring forward new analyses of emotions in politics Their work expands understanding of the role of emotion in the political realm and will be influential in political communication political science sociology and visual and cultural studies      **History of**

**Structuralism: The rising sign, 1945-1966** François Dosse, 1997 Content Description Includes bibliographical references and index

**Narrative in Health Care** John D Engel, Joseph Zarconi, Lura Pethtel, Sally Missimi, 2017-11-22 Narrative medicine has developed an identity already Clinicians of many disciplines are being summoned to a practice that recognizes patients by receiving their accounts of self Starting from different positions the four authors have converged in a strong and shared commitment to narrative health care They conceptualize narrative health care practices within frameworks derived from the social sciences and psychology and to a lesser degree phenomenology and autobiographical theory They relate the development of narrative medicine to relationship centered care patient centered care and complex responsive process of relating theory positing that narrative medicine can help clinicians to develop the skills required to practice relationship centered care The book details with exercises resource texts and abundant scholarly apparatus how these skills can be developed and strengthened This work will change health care Because of its scholarly rigor its multi voiced sources and its highly practical features lists activities key ideas and key references primary texts written by health care professionals and patients this work will be a guide in the field for those who practice medicine or nursing or social work The book establishes that there is a field to be practised a need to practise it and a means to develop the wherewithal to do so *Post-Rationalism* Tom Evers, 2013-05-09 Post Rationalism takes the experimental journal of psychoanalysis and philosophy Cahiers pour l'Analyse as its main source Established by students of Louis Althusser in 1966 the journal has rarely figured in the literature although it contained the first published work of authors now famous in contemporary critical thought including Alain Badiou Jean Claude Milner Luce Irigaray Andr Green and Jacques Alain Miller The Cahiers served as a testing ground for the combination of diverse intellectual sources indicative of the period including the influential reinvention of Freud and Marx undertaken by Lacan and Althusser and the earlier post rationalist philosophy of science pioneered by Gaston Bachelard Georges Canguilhem and Alexandre Koyr This book is a wide ranging analysis of the intellectual foundations of structuralism re connecting the work of young post Lacanian and post Althusserian theorists with their predecessors in French philosophy of science Tom Evers provides an important corrective to standard histories of the period focussing on the ways in which French epistemological writing of the 1930s and 1940s especially that of Bachelard and Canguilhem laid the ground for the emergence of structuralism in the 1950s and 1960s thus questioning the standard historical narrative that posits structuralism as emerging chiefly in reaction to phenomenology and existentialism Millennial Reflections on International Studies Michael Brecher, Frank P. Harvey, 2009-12-22 Collection of essays that debate the question of progress in the discipline *Materiality* Daniel Miller, 2005-07-18 A collection of essays rethinking the current uses of material culture study in anthropology including engagements with art science and technology **International Cultural Policies and Power** J. Singh, 2010-01-20 Political scientists by and large ignore cultural industries and technologies whereas they are prominent in other disciplines This book provides insights from local societal national and international levels in

understanding cultural industries technologies and policies and integrates these perspectives into the study of political science

**Handbook of Contemporary European Social Theory** Gerard Delanty, 2006-09-27 This innovative publication maps out the broad and interdisciplinary field of contemporary European social theory It covers sociological theory the wider theoretical traditions in the social sciences including cultural and political theory anthropological theory social philosophy and social thought in the broadest sense of the term This volume surveys the classical heritage the major national traditions and the fate of social theory in a post national and post disciplinary era It also identifies what is distinctive about European social theory in terms of themes and traditions It is divided into five parts disciplinary traditions national traditions major schools key themes and the reception of European social theory in American and Asia Thirty five contributors from nineteen countries across Europe Russia the Americas and Asian Pacific have been commissioned to utilize the most up to date research available to provide a critical international analysis of their area of expertise Overall this is an indispensable book for students teachers and researchers in sociology cultural studies politics philosophy and human geography and will set the tone for future research in the social sciences

**The Sociology of Knowledge Approach to Discourse** Reiner Keller, 2024-07-24 In this updated version of a contemporary classic of discourse research Reiner Keller develops the theoretical and methodological foundations of the Sociology of Knowledge Approach to Discourse SKAD Translated from the original German into English for the first time this book brings together two previously unconnected domains of knowledge analysis in social science the rich traditions of sociology of knowledge and symbolic interactionism on one hand and the works of discourse studies especially in relation to Michel Foucault on the other It presents a critical discussion of key developments in sociology of knowledge symbolic interactionist and related interpretive approaches explains the communicational turn of recent work in the field and examines how traditions within sociology of knowledge shifted focus or converged over time Following this the book discusses the development of discourse theory and discourse analysis since the 1960s including critical discourse analysis hegemony analysis or cultural studies approaches Embarking from a profound reconstruction of Michel Foucault's work the book then sets its own distinctive course by integrating major elements of Foucault's perspective with the sociology of knowledge Along this path Reiner Keller establishes the heuristics and methodology for a sociology of knowledge approach to discourse providing a comprehensive research programme for the study of social relations of knowledge and politics of knowledge Since its first publication in 2005 SKAD has informed a multitude of studies worldwide and across several academic disciplines Today it can be considered as one of the major perspectives in discourse research in social science and beyond

**Matters of Revolution** Dominik Bartmanski, 2022-03-30 Symbols matter and especially those present in public spaces but how do they exert influence and maintain a hold over us Why do such materialities count even in the intensely digitalized culture This book

considers the importance of urban symbols to political revolutions examining manifold reasons for which social movements necessitate the affirmation or destruction of various material icons and public monuments What explains variability of life cycles of certain classes of symbols Why do some of them seem more potent than others Why do people exhibit nostalgic attachments to some symbols of the controversial past and vehemently oppose others What nourishes and threatens the social life of icons Through comparative analyses of major iconic processes following the epochal revolution of 1989 in Berlin and Warsaw the book argues that revolutionary action needs objects and sites which concretize the transformative redrawing of the symbolic boundaries between the sacred and profane good and evil before and after and progressive and reactionary the symbolic shifts that every revolution implies in theory and formalizes in practice Public symbols ensconced within actual urban spaces provide indispensable visibility to human values and social changes As affective topographies that externalize collective feelings their very presence and durability is meaningful and so are the revolutionary rituals of preservation and destruction directed at those spaces Far from being mere gestures or token signifiers they have their own gravity with profound cultural ramifications This volume will appeal to sociologists anthropologists geographers and social theorists with interests in urban studies public heritage material culture political revolution and social movements
