Employment With A Human Face Balancing Efficiency Equity And Voice

Carlos-María Alcover, Gabriela Topa, Emma Parry, Franco Fraccaroli, Marco Depolo

Employment With A Human Face Balancing Efficiency Equity And Voice:

Employment with a Human Face John W. Budd,2004 The objectives of the employment relationship The balancing imperative human rights in conflict Balancing outcomes the environment and human agents Balancing outcomes revisited the ethics of the employment relationship The balancing alternatives workplace governance The new deal industrial relations system The geometry of comparative industrial relations Alternatives to job control unionism Balancing the global workplace

Employment with a Human Face John W. Budd, 2018-07-05 John W Budd contends that the turbulence of the current workplace and the importance of work for individuals and society make it vitally important that employment be given a human face Contradicting the traditional view of the employment relationship as a purely economic transaction with business wanting efficiency and workers wanting income Budd argues that equity and voice are equally important objectives The traditional narrow focus on efficiency must be balanced with employees entitlement to fair treatment equity and the opportunity to have meaningful input into decisions voice he says Only through a greater respect for these human concerns can broadly shared prosperity respect for human dignity and equal appreciation for the competing human rights of property and labor be achieved Budd proposes a fresh set of objectives for modern democracies efficiency equity and voice and supports this new triad with an intellectual framework for analyzing employment institutions and practices In the process he draws on scholarship from industrial relations law political science moral philosophy theology psychology sociology and economics and advances debates over free markets globalization human rights and ethics He applies his framework to important employment related topics such as workplace governance the New Deal industrial relations system comparative industrial relations labor union strategies and globalization These analyses create a foundation for reforming employment practices social norms and public policies In the book s final chapter Budd advocates the creation of the field of human resources and industrial relations and explores the wider implications of this renewed conceptualization of industrial relations The Oxford Handbook of Participation in Organizations Adrian Wilkinson, Paul J. Gollan, Mick Marchington, David Lewin, 2010-02-18 Employee participation encompasses the range of mechanisms used to involve the workforce in decisions at all levels of the organization whether direct or indirect conducted with employees or through their representatives In its various guises the topic of employee participation has been a recurring theme in industrial relations and human resource management One of the problems in trying to develop any analysis of participation is that there is potentially limited overlap between these different disciplinary traditions and scholars from diverse traditions may know relatively little of the research that has been done elsewhere Accordingly in this book a number of the more significant disciplinary areas are analysed in greater depth in order to ensure that readers gain a better appreciation of what participation means from these guite different contextual perspectives Not only is there a range of different traditions contributing to the research and literature on the subject there is also an extremely diverse sets of practices that congregate

under the banner of participation The handbook discusses various arguments and schools of thought about employee participation analyzes the range of forms that participation can take in practice and examines the way in which it meets objectives that are set for it either by employers trade unions individual workers or indeed the state In doing so the Handbook brings together leading scholars from around the world who present and discuss fundamental theories and approaches to participation in organization as well as their connection to broader political forces These selections address the changing contexts of employee participation different cultural institutional models old new economy models shifting social and political patterns and the correspondence between industrial and political democracy and participation

blend of leading academics expertly review the analytical and empirical state of play across all aspects of industrial relations enquiry In doing so a rich agenda for further scholarly endeavour emerges Paul Marginson University of Warwick Over the last two decades a number of factors have converged to produce a major rethink about the field of Industrial Relations Globalization the decline of trade unions the spread of high performance work systems and the emergence of a more feminized flexible work force have opened new avenues of inquiry The SAGE Handbook of Industrial Relations charts these changes and analyzes them It provides a systematic comprehensive survey of the field The book is organized into four interrelated sections Theorizing Industrial Relations The changing institutions that shape employment practice The processes used by governments employers and unions Income inequality employee wellbeing business performance and national comparative advantages. The result is a work of unprecedented scope and unparalleled ambition. It offers a compete guide to the central debates new developments and emerging themes in the field It will quickly be recognized as the indispensable reference for Teachers Students and Researchers It is relevant to economists lawyers sociologists business and management researchers and Industrial Relations specialists The SAGE Handbook of Human Resource Management Adrian Wilkinson, Nicolas Bacon, Scott Snell, David Lepak, 2019-04-08 The new edition of this SAGE Handbook builds on the success of the first by providing a fully updated and expanded overview of the field of human resource management Bringing together contributions from leading international scholars and with brand new chapters on key emerging topics such as talent management engagement e HRM and big data the Handbook focuses on familiarising the reader with the fundamentals of applied human resource management while contextualizing practice within wider theoretical considerations Internationally minded chapters combine a critical overview with discussion of key debates and research as well as comprehensively dealing with important emerging interests The second edition of this Handbook remains an indispensable resource for advanced students and researchers in the field PART 01 Context of Human Resource Management PART 02 Fundamentals of Human Resource Management PART 03 Contemporary Issues Reassessing the Employment Relationship Edmund Heery, Peter Turnbull, 2010-11-10 Reassessing the Employment Relationship is an edited volume written by leading academics at Cardiff Business School Reflecting on the employment relationship as one of the central institutions of advanced capitalist economies it provides an extensive survey of the changing world of work The book offers a multi disciplinary analysis of the contemporary workplace and focuses on the key influences that are shaping the employment relationship globalization financialization regulation and the search for ethical standards in human resource management There is insightful and authoritative treatment of some of the main developments in the employment relationship such as the rise of knowledge and customer service work increasing income inequality new forms of management control over work the spread of non union industrial relations and the rise to prominence of work life integration Reassessing the Employment Relationship provides a critical yet accessible look at the changing employment relationship and is an indispensible aid to

students studying Industrial Relations Human Resource Management Organizational Studies and Business Ethics PAUL BLYTON is Professor of Industrial Relations and Industrial Sociology at Cardiff University UK EDMUND HEERY is Professor of Employment Relations at Cardiff University UK PETER TURNBULL is Professor of Human Resource Management and Labour Relations at Cardiff University UK A Purposive Approach to Labour Law Guy Davidov, 2016 This volume explores the societal goals behind labour laws through an analysis of normative justifications and critiques and examines what actions are needed to better advance these goals by way of purposive interpretation and legal reform **Unions Do?** Thomas S. Barrows, 2017-09-08 One of the best known and most quoted books ever written on labor unions is What Do Unions Do by Richard Freeman and James Medoff Published in 1984 the book proved to be a landmark because it provided the most comprehensive and statistically sophisticated empirical portrait of the economic and socio political effects of unions and a provocative conclusion that unions are on balance beneficial for the economy and society. The present volume represents a twentieth anniversary retrospective and evaluation of What Do Unions Do The objectives are threefold to evaluate and critique the theory evidence and conclusions of Freeman and Medoff to provide a comprehensive update of the theoretical and empirical literature on unions since the publication of their book and to offer a balanced assessment and critique of the effects of unions on the economy and society Toward this end internationally recognized representatives of labor and management cover the gamut of subjects related to unions Topics covered include the economic theory of unions the history of economic thought on unions the effect of unions on wages benefits capital investment productivity income inequality dispute resolution and job satisfaction the performance of unions in an international perspective the reasons for the decline of unions and the future of unions The volume concludes with a chapter by Richard Freeman in which he assesses the arguments and evidence presented in the other chapters and presents his evaluation of how What Do Unions Do stands up in the light of twenty years of additional experience and research This highly readable volume is a state of the art survey by internationally recognized experts on the effects and future of labor unions It will be the benchmark for years to come

Influencing Organizational Effectiveness Linda Holbeche, 2016-12-08 In this book Linda Holbeche offers an historical narrative on the changing landscape of work since the 1980s and considers how definitions of organizational effectiveness have changed over time She considers the characteristics and effects of the neo liberal work culture of new capitalism and how HRM practices have contributed to shaping this work culture Influencing Organizational Effectiveness challenges mainstream thinking around business strategy change and organizational effectiveness and about the roles of HRM and management While the overall tone of the book is critical Holbeche argues that HRM can play an active role in giving voice to employees and advancing organizational effectiveness Grounded in research this book includes reflective questions case studies and helpful guidelines to support HRM and organizational development professionals and master s level students It illustrates what better might look like and how HRM can contribute to a new definition of effectiveness which is aligned to

the needs of modern organizations **Employment Relations in the Shadow of Recession** Brigid van Wanrooy, Helen Bewley, Alex Bryson, 2013-11-25 How have employment relations evolved over the last decade And how did workplaces and employees fare in the face of the longest recession in living memory Employment Relations in the Shadow of Recession examines the state of British employment relations in 2011 how this has changed since 2004 and the role the recession played in shaping employees experiences of work It draws on findings from the 2011 Workplace Employment Relations Study comparing these with the results of the previous study conducted in 2004 These surveys each collecting responses from around 2 500 workplace managers 1 000 employee representatives and over 20 000 employees provide the most comprehensive portrait available of workplace employment relations in Britain The book provides an in depth analysis of the changes made to employment practices through the recession and of the impact that the economic downturn had on the shape and character of the employment relationship The Thought of Work John W. Budd, 2011-10-15 What is work Is it simply a burden to be tolerated or something more meaningful to one s sense of identity and self worth And why does it matter In a uniquely thought provoking book John W Budd presents ten historical and contemporary views of work from across the social sciences and humanities By uncovering the diverse ways in which we conceptualize work such as a way to serve or care for others a source of freedom a source of income a method of psychological fulfillment or a social relation shaped by class gender race and power The Thought of Work reveals the wide ranging nature of work and establishes its fundamental importance for the human experience When we work we experience our biological psychological economic and social selves Work locates us in the world helps us and others make sense of who we are and determines our access to material and social resources By integrating these distinct views Budd replaces the usual fragmentary approaches to understanding the nature and meaning of work with a comprehensive approach that promotes a deep understanding of how work is understood experienced and analyzed Concepts of work affect who and what is valued perceptions of freedom and social integration identity construction evaluations of worker well being the legitimacy and design of human resource management practices support for labor unions and labor standards and relationships between religious faith and work ethics By drawing explicit attention to diverse implicit meanings of work The Thought of Work allows us to better understand work to value it and to structure it in desirable ways that reflect its profound importance Shifting Categories of Work Lisa Herzog, Bénédicte Zimmermann, 2022-12-30 What do human beings do when they work how is work organized and what are its multidimensional economic social political biographical ecological effects We cannot answer these questions without drawing on the numerous categories that we use to describe work such as skilled or unskilled work domestic work or wage labor gig work or platform work Such categories are not merely theoretical labels as they also have practical effects But where do these categories come from what are their histories how do they differ between countries and how are they evolving Shifting Categories of Work asks these questions illuminating the many ways in which our societies categorize work

Written by sociologists philosophers historians and anthropologists as well as management and legal scholars the contributions in this volume contrast different cultural practices and frameworks of categorizing work across different countries Organized around the three axes of un organized work in visible work and in valuable work this book shows how ways of categorizing work express but also recreate lines of privilege and disadvantage challenging our preconceived notions of what work is and what it could be as it invites us to rethink the categories we use for understanding the work we do and hence to some extent ourselves

The Routledge Companion to Employment Relations Adrian Wilkinson, Tony
Dundon, Jimmy Donaghey, Alexander Colvin, 2018-05-11 Comprising five thematic sections this volume provides a critical international and interdisciplinary exploration of employment relations. It examines the major subjects and emerging areas within the field including essays on institutional theory voice new actors precarious work and employment Led by a well respected team of editors the contributors examine current knowledge and debates within each topic offering cutting edge analysis and reflection. The Routledge Companion to Employment Relations is an extensive reference work that offers students and researchers an introduction to current scholarship in the longstanding discipline of employment relations. It will be an essential addition to library collections in business and management law economics sociology and political economy

Bridge Employment Carlos-María Alcover, Gabriela Topa, Emma Parry, Franco Fraccaroli, Marco Depolo, 2014-04-16 With the long term trend toward earlier retirement slowing and the majority of older workers remaining in employment up to and beyond statutory retirement age it is increasingly important that we understand how to react to these changes Bridge employment patterns and activities have changed greatly over the past decade yet there is little information about the benefits of the various different forms this can take both for employees and employers This comparative international collection provides the first comprehensive summary of the literature on bridge employment bringing together experiences from Europe the United States Canada Australia and Japan It identifies the opportunities barriers and gaps in knowledge and practice whilst offering recommendations on how organisations and individuals can cope with future challenges in aging and work Written by international experts in the field each chapter also makes substantive and contextualized suggestions for public policy and organizational decision makers providing them with a roadmap to implement and integrate bridge employment into policies and practices designed to prolong working life a priority for workers organizations and societies in the coming decades This unique research handbook will be useful to a wide range of readers with an interest in the new concept of bridge employment and the extension of working life and of interest to researchers and practitioners in organizational behavior labor market analysis human resource management career development counselling occupational health social economy and public policy administration Invisible Hands, Invisible Objectives Stephen F. Befort, John W. Budd, 2009-06-01 The global financial crisis and recession have placed great strains on the free market ideology that has emphasized economic objectives and unregulated markets The balance of economic and noneconomic goals is under the

microscope in every sector of the economy It is time to re think the objectives of the employment relationship and the underlying assumptions of how that relationship operates Invisible Hands Invisible Objectives develops a fresh holistic framework to fundamentally reexamine U S workplace regulation A new scorecard for workplace law and public policy that embraces equity and voice for employees and economic efficiency will reveals significant deficiencies in our current practices To create one the authors a legal scholar and an economics and industrial relations scholar blend their expertise to propose a comprehensive set of reforms tackling such issues as regulatory enforcement portable employee benefits training programs living wages workplace safety and health work family balance security and social safety nets nondiscrimination good cause dismissal balanced income distributions free speech protections for employees individual and collective workplace decision making and labor unions Invisible Hands Invisible Objectives is not just another book that sketches a reform agenda The book provides the much needed rubric for how we think about employment policy specifically but also economic policy more generally It is a must read in these most critical times **Research Handbook of Comparative Employment Relations** Michael Barry, Adrian Wilkinson, 2011-01-01 Besides a well written introduction by the two editors the book presents seventeen other chapters some by well known writers on the subject or related social sciences This is a substantial resource book for scholars and students of comparative ER especially for those who look towards the evolution of ER in the new economic world that is in formation and in a comparative perspective the book contains intellectually stimulating analyses of employee relations realities across the globe Scholars belonging to different disciplinary perspectives from which ER has been studied in the past will also find in it a good reference material of comparative analyses. The publishers too deserve accolades for their professionalism and first rate copy editing and production Debi S Saini Vision the Journal of Business Perspectives The book is a comprehensive volume of studies on employment relations in a wide variety of settings an enriching compendium Silvia Florea Management of Sustainable Development The Research Handbook of Comparative Employment Relations is an essential resource for those seeking to understand contemporary developments in the world of work and the way in which employment relations systems are evolving around the world Special consideration is given to the impact of globalisation and the role of multinational corporations including their consequences for the fate of workers rights under existing national systems of employment relations ER regulation This Handbook is unique in taking an explicitly comparative approach by discussing ER developments through a series of paired country comparisons These chapters include a wide selection of countries from all regions looking beyond those that are frequently discussed The expert contributors also examine comparative issues from a range of perspectives including industrial and employment relations political economy comparative politics and cross cultural studies These impressive features make this important reference tool the most comprehensive of its kind Academics and students in final year undergraduate and postgraduate courses interested in employment relations will find this compendium enriching and insightful **Advances in Industrial and**

Labor Relations David Lewin, Bruce E. Kaufman, 2009-03-27 Highlights various aspects of industrial and labor relations This title includes alternative approaches to establishing an ownership culture accounting for union collective action through resource acquisition and mobilization union avoidance through double breasting and competing ethical conceptions of the What Do Unions Do? James T. Bennett, Bruce E. Kaufman, 2011-12-31 One of the best known and most quoted books ever written on labor unions is What Do Unions Do by Richard Freeman and James Medoff Published in 1984 the book proved to be a landmark because it provided the most comprehensive and statistically sophisticated empirical portrait of the economic and socio political effects of unions and a provocative conclusion that unions are on balance beneficial for the economy and society The present volume represents a twentieth anniversary retrospective and evaluation of What Do Unions Do The objectives are threefold to evaluate and critique the theory evidence and conclusions of Freeman and Medoff to provide a comprehensive update of the theoretical and empirical literature on unions since the publication of their book and to offer a balanced assessment and critique of the effects of unions on the economy and society Toward this end internationally recognized representatives of labor and management cover the gamut of subjects related to unions Topics covered include the economic theory of unions the history of economic thought on unions the effect of unions on wages benefits capital investment productivity income inequality dispute resolution and job satisfaction the performance of unions in an international perspective the reasons for the decline of unions and the future of unions. The volume concludes with a chapter by Richard Freeman in which he assesses the arguments and evidence presented in the other chapters and presents his evaluation of how What Do Unions Do stands up in the light of twenty years of additional experience and research This highly readable volume is a state of the art survey by internationally recognized experts on the effects and future of labor unions It will be the benchmark for years to come Research Handbook on the Future of Work and Employment **Relations** Keith Townsend, Adrian Wilkinson, 2011-01-01 This is an enlightening text on the subject of employment and work relations that will be useful for students in economics specifically those studying labor relations Lucy Heckman American Reference Books Annual 2012 The broad field of employment relations is diverse and complex and is under constant development and reinvention This Research Handbook discusses fundamental theories and approaches to work and employment relations and their connection to broader political and societal changes occurring throughout the world It provides comprehensive coverage of work and employment relations theory and practice This up to date research compendium has drawn together a range of international authors from diverse disciplinary backgrounds There are chapters from labour historians theoreticians more mainstream industrial relations scholars sociologists organizational psychologists geographers policy advisors economists and lawyers At the heart of each chapter is the notion that the world of work and employment relations has changed substantially since the halcyon days of IR throughout the Dunlop Era of the 1950s However many areas of enquiry remain and more questions have developed with society and technology This Handbook

reflects this view As the field of study and practice continues to evolve throughout the twenty first century what lessons have we learnt from the past and what can we expect in the future Academics and postgraduate students researching industrial relations human resource management employment relations industrial sociology and sociology of work will find this important resource invaluable
