**Babylost** Monica J. Casper,2022-03-18 The U S infant mortality rate is among the highest in the industrialized world and Black babies are far more likely than white babies to die in their first year of life Maternal mortality rates are also very high Though the infant mortality rate overall has improved over the past century with public health interventions racial disparities have not Racism poverty lack of access to health care and other causes of death have been identified but not yet adequately

addressed The tragedy is twofold it is undoubtedly tragic that babies die in their first year of life and it is both tragic and unacceptable that most of these deaths are preventable Despite the urgency of the problem there has been little public discussion of infant loss The question this book takes up is not why babies die we already have many answers to this question It is rather who cares that babies mostly but not only Black and Native American babies are dying before their first birthdays More importantly what are we willing to do about it This book tracks social and cultural dimensions of infant death through 58 alphabetical entries from Absence to ZIP Code It centers women s loss and grief while also drawing attention to dimensions of infant death not often examined It is simultaneously a sociological study of infant death an archive of loss and grief and a clarion call for social change *Grieving Reproductive Loss* Kathleen Gray, Anne Lassance, 2018-10-26 *Grieving Reproductive Loss* The Healing Process acknowledges the devastating impact these losses can have Written in plain language the book attempts to bring about a greater understanding of the grief associated with reproductive loss and through the Healing Process Model copyright offers a holistic approach for constructive healthy grieving and healing of body mind and spirit **Handbook for Those Who Grieve** Martin M Auz, 2015-02-25 How can I best help someone who has lost a loved one How do I talk to a child about the death of a family member What do I need to think about before I plan a funeral Confusion bewilderment and a lack of direction commonly surface in the aftermath of a death It s also the time when dealing with the issues and emotions of the experience can lead to making hasty or unwise decisions In this revised edition of *Handbook for Those Who Grieve* Martin M Auz and Maureen Lyons Andrews offer concise practical topic based lists and suggestions to help people immediately after a loss Rather than philosophizing theologizing or rationalizing the authors draw on their research and personal experiences to provide short but solid answers to help grieving people successfully deal with the countless issues and varied emotions that a person s death is sure to thrust upon them **You're Not Alone** Michelle Dana Mason Fulton, 2023-01-19 This book is not just a single story from one person it covers a vast cross section of both bereaved mothers and fathers from all backgrounds This highlights to the reader if they have experienced loss that they are not alone They are given a community of support to help strengthen themselves against feelings of shame guilt depression and isolation They are given ideas about what might help them to manage their pain and give them hope that the vastness of the despair they feel will not always engulf them so wholly Not only does the book address aiding those who are grieving but also in donated proceeds it helps to fund the research that will reduce these tragic instances in the future
