New Development Strategies A. Kohsaka,2004-05-24 This edited volume examines the flaws in the Washington Consensus The missing link identified is the relationship between market and government The East Asian

This book assesses development strategies and policy issues in the context of individual and/or regional economy's history and political economic reality. The relationship may be conditional to these two factors. With these perceptions in mind, the book focuses on the role and significance of government in economic development in pursuit for new development strategies.

We Are in This Dance Together Nancy Plankey-Videla, 2012-07-04. Changes in the global economy have real and contradictory outcomes for the everyday lives of women workers. In 2001, Nancy Plankey Videla had a rare opportunity to witness these effects firsthand. Having secured access to one of Latin America's top producers of high-end men's suits in Mexico for participant observer research, she labored as a machine operator for nine months on a shop floor made up mostly of women. The firm had recently transformed itself from traditional assembly techniques to lean cutting-edge Japanese style production methods. Lured initially into the firm by way of increased wages and benefits, workers had helped shoulder the company's increasing debts. When the company's plan for successful expansion went awry and it reneged on promises it had made to the workforce, women workers responded by walking out on strike. Building upon in-depth interviews with over sixty workers, managers, and policy makers, Plankey Videla documents and analyzes events leading up to the female-led factory strike and its aftermath, including harassment from managers, corrupt union officials, and labor authorities, and violent governor-sanctioned police actions. *We Are in This Dance Together* illustrates how the women's shared identity as workers and mothers, deserving of dignity, respect, and a living wage, became the basis for radicalization and led to further civic organizing against the state, the company, and the corrupt union to demand justice.

Confronting Development Kevin J. Middlebrook, Eduardo Zepeda, 2003. Since the 1980s, Mexico has alternately served as a model of structural economic reform and as a cautionary example of the limitations associated with market-led development. This book provides a comprehensive interdisciplinary assessment of the principal economic and social policies adopted by Mexico during the 1980s and 1990s.
