The Deadly Ethnic Riot Donald L. Horowitz,2001 Donald Horowitz defines a deadly ethnic riot as an intense though not necessarily unplanned lethal attack by members of one ethnic group on civilian members of another ethnic group The book draws examples from all over the world and rigorously analyzes this brutal phenomenon Africa and World War II Judith A. Byfield, Carolyn A. Brown, Timothy Parsons, Ahmad Alawad Sikainga, 2015-04-16 This volume considers the military economic and political significance of Africa during World War II The essays feature new research and innovative approaches to the historiography of Africa and bring to the fore issues of race gender and labor during the war topics that have not yet received much critical attention. It explores the experiences of male and female combatants peasant producers women traders missionaries and sex workers. The first section offers three introductory essays that give a continent wide overview of how Africa sustained the Allied effort through labor and resources. The six sections that follow offer individual case studies from different parts of the continent Contributors offer a macro and micro view of the multiple levels on which Africa s

contributions shaped the war as well as the ways in which the war affected individuals and communities and transformed Africa s political economic and social landscape Ethnic Groups in Conflict, Updated Edition With a New Preface Donald L. Horowitz, 2001-04-09 Drawing material from dozens of divided societies Donald L Horowitz constructs his theory of ethnic conflict relating ethnic affiliations to kinship and intergroup relations to the fear of domination A groundbreaking work when it was published in 1985 the book remains an original and powerfully argued comparative analysis of one of the most important forces in the contemporary world Why Slavery Endures David W. Bulla, 2020-11-09 This book examines slavery an antiquated ugly inhumane practice seemingly abolished in the nineteenth century yet never eradicated The legacies of historical slavery have become increasingly subject to public debate manifested in calls for reparations the UNESCO Slave Route Project and in the dismantling of Confederate monuments in the United States NGOs have researched and publicized the extent of contemporary slavery which some of the essays in this collection discuss This area of inquiry intersects with wider debates about the legacies of colonialism and structural racism which could be seen in the Rhodes Must Fall campaigns in South Africa and Oxford NGOs estimate that there are between 21 and 46 million slaves worldwide today The essays gathered here critically examine the historical roots of slavery the issue of reparations and deconstruct contemporary human trafficking Bibliography on Land-locked States, Economic Development and International Law Martin Ira Glassner, 2001 Revised and expanded for the fifth edition this text provides an academic reference on the subject of land lockedness as it relates to economic development international law transport economies international organizations and political and economic geography Department of State Publication ,1980 External Research, ER **List** United States.
