Emerging Elite A Study Of Political Leadership In Ceylon:

The Emerging Elite James Moorhead Perry,1964 The Emerging Elite ,1964 **Political Leadership in Sierra Leone** John R. Cartwright,1978-12-15 In an age when men have come to believe that their destinies can be determined by human actions rather than by fate the question looms large of what a leader can do to fulfill the aspirations of those looking for guidance Since the political arena is one involving the use of power the position of the political leader in particular has become the focus for men s hopes and fears This book is a case study of the effect that different forms of political leadership can have upon the shaping of a single state It focuses upon two successive Prime Ministers of the Small West African state of Sierra Leone Sir Milton Margai and his younger brother Sir Albert Margai By examining their dealings with local political units their handling of ethnic and regional conflicts their attitude of change and their relations with major economic forces the author assesses why both leaders had such different measures of success with their divergent political policies The major findings of this study are that the method that a leader chooses to accomplish his goals can be important to their realisation as the choice of goals themselves and that a leader may find himself committed to a particular course through simply pursuing a line of least resistance Political Elite of Iran Marvin Zonis,2015-03-08 In interviews with 170 politically active Iranians the author reveals that politics in Iran are based on interpersonal relationships marked by insecurity cynicism and mistrust He then assesses the significance of these characteristics for Iran s future development Originally published in 1971 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Political Elite in a Developing Society** Anup Kumar Dash,1994 Study with reference to Orissa India Rules of Descent Guy E. Swanson,1969 In this study author Guy E Swanson examines the rules of descent as they relate to regime socialization and social control Using data from many different societies he discusses the relationship of patriliney matriliney and bilaterality with economic and social structures *The Politics of Aristocratic Empires* John H. Kautsky,2017-09-29 The Politics of Aristocratic Empires is a study of a political order that prevailed throughout much of the world for many centuries without any major social conflict or change and with hardly any government in the modern sense Although previously ignored by political science powerful remnants of this old order still persist in modern politics The historical literature on aristocratic empires typically is descriptive and treats each empire as unique By contrast this work adopts an analytical explanatory and comparative approach and clearly distinguishes aristocratic empires from both primitive and more modern commercialized societies It develops generalizations that are supported and richly illustrated by data from many empires and demonstrates that a pattern of politics prevailed across time

space and cultures from ancient Egypt five millennia ago to Saudi Arabia five decades ago from China and Japan to Europe from the Incas and the Aztecs to the Tutsi Kautsky argues that aristocrats because they live off the labor of peasants must perform the primary governmental functions of taxation and warfare Their performance is linked to particular values and beliefs and both functions and ideologies in turn condition the stakes the forms and the arenas of intra aristocratic conflict the politics of the aristocracy The author also analyzes the roles of the peasantry and the townspeople in aristocratic politics and shows that peasant revolts on any large scale occur only after commercial modernization He concludes with chapters on the modernization of aristocratic empires and on the importance in modern politics of institutional and ideological remnants of the old aristocratic order *Politics in Sri Lanka, the Republic of Ceylon* A.Jeyaratnam Wilson,2016-01-06

Wilson,1979-01-01 **Propaganda Technique In World War I** Harold D. Lasswell,1971-04-15 A classic book on propaganda technique proposes a general theory of the strategy and tactics of propaganda This classic book on propaganda technique focuses on American British French and German experience in World War I The book sets forth a simple classification of various psychological materials used to produce certain specific results and proposes a general theory of strategy and tactics for the manipulation of these materials In an introduction coauthored by Jackson A Giddens written for this edition Harold Lasswell notes that this study was partially an exercise in the discovery of appropriate theory It raised the crucial questions of how to classify the content of propaganda for instance a distinction is made between value demands war aims war guilt and casting the enemy as evil personified and expectations the illusion of victory and how to summarize the procedures employed in organizing and carrying out propaganda operations Propaganda Technique in World War I deals primarily with problems of internal administration and lateral coordination rather than with the relationship between policymakers and propagandists However Jackson Giddens enumerates procedures in the book that illustrate an underlying assumption that decision makers were deeply involved in propaganda and influenced by considerations of public opinion He

takes the study of propaganda further by elaborating on the nature and meaning of the category of war aims and its relation to the propagandist for this more than any other category of content is the catalyst of transnational political action Giddens's exploration of the development of a comprehensive theory of propaganda adds another dimension to Lasswell's study while confirming its value as outstanding groundwork for continuing research

A History of Underdevelopment and Political Economy of Inflation in Sri Lanka Dhanusha Gihan Pathirana, Chandana Aluthge, 2020-07-24 The book provides a new conceptualisation of inflation in underdeveloped economies through Sri Lanka's historical experience It outlines a general theory of nationalisms in their diverse manifestations across the world within a historical perspective of capitalist development and underdevelopment The book therefore seeks to capture the production mode holistically within both its infrastructural and superstructural levels probing their interactions The theoretical structure through which inflation is analysed synthesises the theory of unproductive labour and Marxian theory of prices of production with labour surplus theory of late Dr S B D De Silva in the context of underdevelopment In this light Professor David Laibman's Allocation Problem is resolved within a Marxist framework to provide an operational significance to the theory and its application In the same vein the book also provides a new theoretical interpretation of Sri Lanka's historical development from the British period onwards through application of theories of capitalist development and surplus labour
