**Beyond the White Negro** Kimberly Chabot Davis, 2014-07-15 Critics often characterize white consumption of African American culture as a form of theft that echoes the fantasies of 1950s era bohemians or White Negroes who romanticized black culture as anarchic and sexually potent In *Beyond the White Negro* Kimberly Chabot Davis claims such a view fails to describe the varied politics of racial crossover in the past fifteen years Davis analyzes how white engagement with African American novels film narratives and hip hop can help form anti racist attitudes that may catalyze social change and racial justice Though acknowledging past failures to establish cross racial empathy she focuses on examples that show avenues for future progress and change Her study of ethnographic data from book clubs and college classrooms shows how engagement with African American culture and pedagogical support can lead to the kinds of white self examination that make empathy possible The result is a groundbreaking text that challenges the trend of focusing on society s failures in achieving cross racial empathy and instead explores possible avenues for change

*Words and Music* J. G. Williamson, 2005-07-01 Word and music studies is a relatively young discipline that has nonetheless generated a substantial amount of work Recent studies in the field have embraced music in literature word music formal parallels to music in literature verbal music music and literature vocal music and literature in music programme music Other positions have been defined in which song exists as an analysable category distinct from words and music and requiring its own grammar Much of the literature has tended to focus on readings of the literary text pushing theoretical and analytical concerns in music to one side a trend that is as apparent among musicologists as among literary historians The essays presented here from the third Liverpool Music Symposium seek accordingly to redress this situation
