**Emotions and Beliefs** Nico H. Frijda, Antony S. R. Manstead, Sacha Bem, 2000-10-12 Looks at the different ways in which emotions influence beliefs

**Emotions and Beliefs** Nico H. Frijda, Antony S. R. Manstead, Sacha Bem, 2000-10-12 Few people would question nowadays that emotions influence beliefs but until recently little scientific research has been done on exactly how this effect takes place This important new book with contributions from some of the leading figures in the study of emotion explores the relationship between emotions and beliefs from a number of different psychological perspectives Combining theory with research it seeks to develop coherent theoretical principles for understanding how emotions influence the content and strength of an individual's beliefs and their resistance or openness to modification

Popular Mobilization and Empowerment in Georgia's Rose Revolution Kelli Hash-Gonzalez, 2012-10-18 While other studies explain the Rose Revolution in terms of the contribution of the power players Popular Mobilization and Empowerment in Georgia's Rose Revolution by Kelli Hash Gonzalez adds to our understanding of the event by examining it from the perspective of ordinary citizens Hash Gonzalez shows how the movement frames targeted people's emotions as well as their beliefs and values to more effectively mobilize them for action Using the election fraud as a focal point movement leaders and activists amplified the emotions and beliefs incorporated in the themes of injustice dignity and duty which supported movement participation They also appealed to people's emotions and beliefs in an effort to transform the common frame of political powerlessness which worked against participation The book also examines the role that emotional energy played in mobilization The achievement of a critical mass of protestors was surprising given the hopelessness cynicism and alienation in the region's political culture This level of participation was essential for movement emergence and success Without the people none of the other necessary factors NGOs civil society financial resources foreign support or interference the media government vulnerability political elites opposition unity could have achieved a legitimate regime change Popular Mobilization and Empowerment in Georgia's Rose Revolution is an in depth examination of a significant political moment from the perspective of the people who lived it

**International Handbook of Research on Teachers' Beliefs** Helenrose Fives, Michele Gregoire Gill, 2014-08-21 Teacher beliefs play a fundamental role in the education landscape Nevertheless most educational researchers only allude to teacher beliefs as part of a study on other subjects This book fills a necessary gap by identifying the importance of research on teacher beliefs and providing a comprehensive overview of the topic It provides novices and experts alike a single volume with which to understand a complex research landscape Including a review of the historical foundations of the field this book identifies current research trends and summarizes the current knowledge base regarding teachers specific beliefs about content instruction students and learning For its innumerable applications within the field this handbook is a necessity for anyone interested in educational research

**Emotion and Social Structures** Christian von Scheve, 2014-07-16 The past decades have seen

significant advances in the sociological understanding of human emotion Sociology has shown how culture and society shape our emotions and how emotions contribute to micro and macro social processes At the same time the behavioral sciences have made progress in understanding emotion at the level of the individual mind and body Emotion and Social Structures embraces both perspectives to uncover the fundamental role of affect and emotion in the emergence and reproduction of social order How do culture and social structure influence the cognitive and bodily basis of emotion How do large scale patterns of feeling emerge And how do emotions promote the coordination of social action and interaction Integrating theories and evidence from disciplines such as psychology cognitive science and neuroscience Christian von Scheve argues for a sociological understanding of emotion as a bi directional mediator between social action and social structure This book will be of interest to students and scholars of the sociology of emotion microsociology and cognitive sociology as well as social psychology cognitive science and affective neuroscience

**The Oxford Handbook of Cognitive Psychology** Daniel Reisberg, 2013-04-04 This handbook is an essential comprehensive resource for students and academics interested in topics in cognitive psychology including perceptual issues attention memory knowledge representation language emotional influences judgment problem solving and the study of individual differences in cognition

The Rational Practitioner Martin Turner, 2022-12-26 Sport and exercise psychology has grown exponentially as an academic discipline and profession in the past decade The dominant approach to sport and exercise psychology practice is the cognitive behavioural approach that stems from cognitive behavioural therapies CBTs CBTs are the most widely used counselling approaches in the world Through this approach developed rational emotive behaviour therapy REBT a cognitive based theory and therapy that incorporates many of the techniques that defines CBTs to this day e g cognitive restructuring rehearsal imagery self talk The Rational Practitioner The Sport and Performance Psychologist s Guide to Practicing Rational Emotive Behaviour Therapy develops innovative concepts that are particular to the performance milieu whilst sticking rigorously to core theory This book is fundamental to applied practice and offers practitioners scholars and researchers of sport psychology and REBT theoretical and detailed practical information from an experienced and qualified sport and exercise psychologist This book provides a comprehensive portrayal of REBT applied within sport and performance and is key reading for current and trainee sport and exercise psychologists but also to psychologists from other disciplines who wish to work with athletes and other performers

**After Violence** Debra Javeline, 2021-02-15 In 2004 Russia experienced its most appalling act of terrorism in history the 53 hour seizure of School No 1 in Beslan North Ossetia Approximately 1 200 children parents and teachers were taken hostage and over 330 were killed hundreds more seriously wounded and all severely traumatized In After Violence Debra Javeline analyzes the aftermath of this large scale violence with evidence from almost all direct victims Despite widespread predictions of retaliatory ethnic violence the massacre instead triggered unprecedented peaceful political activism After Violence provides insights into this unexpected but favorable outcome

**Affective Communities in World**

**Politics** Emma Hutchison, 2016-03-11 Emotions underpin how political communities are formed and function Nowhere is this more pronounced than in times of trauma The emotions associated with suffering caused by war terrorism natural disasters famine and poverty can play a pivotal role in shaping communities and orientating their politics This book investigates how affective communities emerge after trauma Drawing on several case studies and an unusually broad set of interdisciplinary sources it examines the role played by representations from media images to historical narratives and political speeches Representations of traumatic events are crucial because they generate socially embedded emotional meanings which in turn enable direct victims and distant witnesses to share the injury as well as the associated loss in a manner that affirms a particular notion of collective identity While ensuing political orders often re establish old patterns traumatic events can also generate new emotional cultures that genuinely transform national and transnational communities **Emotion Theory:**

**The Routledge Comprehensive Guide** Andrea Scarantino, 2024-07-23 Emotion Theory The Routledge Comprehensive Guide is the first interdisciplinary reference resource which authoritatively takes stock of the progress made both in the philosophy of emotions and in affective science from Ancient Greece to today A two volume landmark publication it provides an overview of emotion theory unrivaled in terms of its comprehensiveness accessibility and systematicity Comprising 62 chapters by 101 leading emotion theorists in philosophy classics psychology biology psychiatry neuroscience and sociology the collection is organized as follows Volume I Part I History of Emotion Theory 10 chapters Part II Contemporary Theories of Emotions 10 chapters Part III The Elements of Emotion Theory 7 chapters Volume II Part IV Nature and Functions of 35 Specific Emotions 22 chapters Part V Challenges Facing Emotion Theory 13 chapters Special Elicitors of Emotions Emotions and Their Relations to Other Elements of Mental Architecture Emotions in Children Animals and Groups Normative Aspects of Emotions Most of the major themes of contemporary emotion theory are covered in their historical philosophical and scientific dimensions This collection will be essential reading for students and researchers in philosophy psychology neuroscience sociology anthropology political science and history for decades to come *Literature and Moral Feeling*

Patrick Colm Hogan, 2022-05-05 An influential body of recent work on moral psychology has stressed the interconnections among ethics narrative and empathy Yet as Patrick Colm Hogan argues this work is so vague in its use of the term narrative as to be almost substanceless and this vagueness is in large part due to the neglect of literary study Extending his previous work on universal story structures Hogan argues that we can transform ill defined intuitions about narrative and ethics into explicit and systematic accounts of the deep connections between moral attitudes and narratives These connections are in turn inseparable from empathy a concept that Hogan proceeds to clarify and defend against a number of widely read critiques In the course of the book Hogan develops and illustrates his arguments through analyses of global narratives constructing illuminating ethical interpretations of literary works ranging from Shakespeare to Chinese drama and the Bhagavad Gita *Emotion* Ross Buck, 2014-10-09 Emotions suffuse our lives a symphony of feeling usually whispering and

murmuring in pianissimo but occasionally screaming and shouting in fortissimo crescendo filling every waking moment and even invading our dreams We can always be conscious of how happy sad annoyed or anxious we feel and also of the feelings we have relative to other persons pride envy guilt jealousy trust respect or resentment Developments in brain imaging and in capturing nuances of nonverbal display now enable the objective study of emotion and how biologically based primary emotions relate to higher level social cognitive and moral emotions This book presents an integrated developmental interactionist theory of emotion viewing subjective feelings as voices of the genes an affective symphony composed of dissociable albeit interactive neurochemical modules These primordial voices do not control but rather cajole our behavior with built in flexibility enabling the mindful application of learning reason and language      *Teaching Readers in Post-Truth America* Ellen C. Carillo,2018-10-01 Teaching Readers in Post Truth America shows how postsecondary teachers can engage with the phenomenon of post truth Drawing on research from the fields of educational and cognitive psychology human development philosophy and education Ellen C Carillo demonstrates that teaching critical reading is a strategic and targeted response to the current climate Readers in this post truth culture are under unprecedented pressure to interpret an overwhelming quantity of texts in many forms including speeches news articles position papers and social media posts In response Carillo describes pedagogical interventions designed to help students become more metacognitive about their own reading and in turn better equipped to respond to texts in a post truth culture Teaching Readers in Post Truth America is an invaluable source of support for writing instructors striving to prepare their students to resist post truth rhetoric and participate in an information rich divisive democratic society      **Human Rights as Social Construction** Benjamin Gregg,2011-12-12 Most conceptions of human rights rely on metaphysical or theological assumptions that construe them as possible only as something imposed from outside existing communities Most people in other words presume that human rights come from nature God or the United Nations This book argues that reliance on such putative sources actually undermines human rights Benjamin Gregg envisions an alternative he sees human rights as locally developed freely embraced and indigenously valid Human rights he posits can be created by the average ordinary people to whom they are addressed and that they are valid only if embraced by those to whom they would apply To view human rights in this manner is to increase the chances and opportunities that more people across the globe will come to embrace them      *Emotion ,*

**Science as Social Existence** Jeff Kochan,2017-12-18 In this bold and original study Jeff Kochan constructively combines the sociology of scientific knowledge SSK with Martin Heidegger s early existential conception of science Kochan shows convincingly that these apparently quite different approaches to science are in fact largely compatible even mutually reinforcing By combining Heidegger with SSK Kochan argues we can explicate elaborate and empirically ground Heidegger s philosophy of science in a way that makes it more accessible and useful for social scientists and historians of science Likewise incorporating Heideggerian phenomenology into SSK renders SSK a more robust and attractive methodology for

use by scholars in the interdisciplinary field of Science and Technology Studies STS Kochan's ground breaking reinterpretation of Heidegger also enables STS scholars to sustain a principled analytical focus on scientific subjectivity without running afoul of the orthodox subject object distinction they often reject Science as Social Existence is the first book of its kind unfurling its argument through a range of topics relevant to contemporary STS research These include the epistemology and metaphysics of scientific practice as well as the methods of explanation appropriate to social scientific and historical studies of science Science as Social Existence puts concentrated emphasis on the compatibility of Heidegger's existential conception of science with the historical sociology of scientific knowledge pursuing this combination at both macro and micro historical levels Beautifully written and accessible Science as Social Existence puts new and powerful tools into the hands of sociologists and historians of science cultural theorists of science Heidegger scholars and pluralist philosophers of science

*Emotion and Narrative* Tilmann Habermas, 2019 The way we tell stories influences how others react to our emotions and impacts how we cope with emotions ourselves

Western Intervention in the Balkans Roger D. Petersen, 2011-09-30 Conflicts involve powerful experiences The residue of these experiences is captured by the concept and language of emotion Indiscriminate killing creates fear targeted violence produces anger and a desire for vengeance political status reversals spawn resentment cultural prejudices sustain ethnic contempt These emotions can become resources for political entrepreneurs A broad range of Western interventions are based on a view of human nature as narrowly rational Correspondingly intervention policy generally aims to alter material incentives sticks and carrots to influence behavior In response poorer and weaker actors who wish to block or change this Western implemented game use emotions as resources This book examines the strategic use of emotion in the conflicts and interventions occurring in the Western Balkans over a twenty year period The book concentrates on the conflicts among Albanian and Slavic populations Kosovo Montenegro Macedonia South Serbia along with some comparisons to Bosnia

**The Emotions of the Ancient Greeks** David Konstan, 2007-12-22 It is generally assumed that whatever else has changed about the human condition since the dawn of civilization basic human emotions love fear anger envy shame have remained constant David Konstan however argues that the emotions of the ancient Greeks were in some significant respects different from our own and that recognizing these differences is important to understanding ancient Greek literature and culture With *The Emotions of the Ancient Greeks* Konstan reexamines the traditional assumption that the Greek terms designating the emotions correspond more or less to those of today Beneath the similarities there are striking discrepancies References to Greek anger or love or envy for example commonly neglect the fact that the Greeks themselves did not use these terms but rather words in their own language such as *org* and *philia* and *phthonos* which do not translate neatly into our modern emotional vocabulary Konstan argues that classical representations and analyses of the emotions correspond to a world of intense competition for status and focused on the attitudes motives and actions of others rather than on chance or natural events as the elicitors of emotion

Konstan makes use of Greek emotional concepts to interpret various works of classical literature including epic drama history and oratory Moreover he illustrates how the Greeks conception of emotions has something to tell us about our own views whether about the nature of particular emotions or of the category of emotion itself
