## **Empire Of Doom:**

**Empire of Doom** Kenneth Robeson, 2016      **Doc Savage: Empire of Doom** Kenneth Robeson, Lester Dent, Will Murray, 2016-12-31 It began with the hijacking of a destroyer from the Brooklyn Navy Yard The stolen warship struck midtown Manhattan with its mighty guns then vanished far out to sea Who were the strange men wearing the golden uniforms of no known power who pulled off the daring highjacking And who was their mysterious leader a being of seemingly supernatural abilities Doc Savage did not know But The Shadow did Combining forces the Man of Bronze and the Dark Avenger follow the trail of a superfoe from The Shadow's past But can they learn to trust one another From fog shrouded New York to a futuristic underground kingdom in the heart of Asia the battle sprawls with the world's fate at stake      The Everlasting Empire Yuri Pines, 2012-05-27 Established in 221 BCE the Chinese empire lasted for 2 132 years before being replaced by the Republic of China in 1912 During its two millennia the empire endured internal wars foreign incursions alien occupations and devastating rebellions yet fundamental institutional sociopolitical and cultural features of the empire remained intact The Everlasting Empire traces the roots of the Chinese empire's exceptional longevity and unparalleled political durability and shows how lessons from the imperial past are relevant for China today Yuri Pines demonstrates that the empire survived and adjusted to a variety of domestic and external challenges through a peculiar combination of rigid ideological premises and their flexible implementation The empire's major political actors and neighbors shared its fundamental ideological principles such as unity under a single monarch hence even the empire's strongest domestic and foreign foes adopted the system of imperial rule Yet details of this rule were constantly negotiated and adjusted Pines shows how deep tensions between political actors including the emperor the literati local elites and rebellious commoners actually enabled the empire's basic institutional framework to remain critically vital and adaptable to ever changing sociopolitical circumstances As contemporary China moves toward a new period of prosperity and power in the twenty first century Pines argues that the legacy of the empire may become an increasingly important force in shaping the nation's future trajectory

**Cornelii Taciti Historiarum libri qui supersunt** Cornelius Tacitus, 1891      *The Moorish Empire* Budgett Meakin, 1899      **Reforming Empire** Christopher Hodgkins, 2002 Shakespeare Daniel Herbert Swift Johnson Burke Blake Austen Browning Tennyson Conrad Forster and finally the anti Protestant Waugh Written in a lively and accessible style Reforming Empire will be of interest to all scholars and students of English literature Jacket      The Two Empires, the Church and the World Brooke Foss Westcott, 1909      **Empire Declines** Sebastian Farnham, 2025-03-29 Empire Declines explores the complex reasons behind the downfall of seemingly invincible empires throughout history It posits that no single factor causes imperial collapse rather it's a combination of economic vulnerabilities internal strife and external pressures The book argues that even robust empires can harbor hidden weaknesses that when exploited lead to swift decline It is crucial to understand that the convergence and amplification of various internal and external stressors ultimately prove fatal The book

progresses in three parts first introducing key concepts such as imperial power and vulnerability Then it investigates internal weaknesses like economic stagnation and social unrest using examples such as the Roman Empire Finally it examines external pressures such as invasions and competition from rising powers citing the Mongol and Ottoman Empires as examples A unique aspect of this book is its emphasis on the interplay between internal and external factors providing a nuanced understanding of imperial decline and challenging simplistic explanations of the fall of empires Written in an accessible style *Empire Declines* draws upon historical sources economic data and military records to identify common patterns and unique circumstances across different empires and time periods This comparative analysis provides insights relevant to contemporary challenges such as managing economic inequality and responding to external threats making it valuable for students history enthusiasts and policymakers alike

**Rival Byzantiums** Diana Mishkova,2022-12-15 This is a comprehensive comparative view of the way the phenomenon of Byzantium has been treated by the historiographies of the polities that have emerged from its remains Bulgaria Greece Romania Serbia and Turkey from the Enlightenment to the present day Synthesising a sprawling mass of material largely unknown to academic audiences it highlights the important place Byzantium s representations occupy in the identity building and historical consciousness in that part of Europe The diverse interpretations of the Byzantine phenomenon across and within these historiographic traditions are scrutinised against the backdrop of shifting geopolitical and cultural contexts in constant dialogue and competition with each other and in communication with extra regional western and Russian academic currents The book will be of value to medieval historians Byzantinists and historians of historiography as well as students of and specialists in modern politics cultural and intellectual history

**The Japanese Empire Disaster** Jean Sénat Fleury,2021-01-22 The book demonstrates that even if during the first period of the Shwa era 1931 1945 the real driving force to war was the Japanese military Hirohito as supreme commander gave full support to the army On multiple occasions as an emperor he sanctioned many government policies Accordingly he was responsible for the war and for the atrocities that the Japanese troops committed in Asia during the Pacific War Japan s Empire Disaster is a book of information and training a reference document that should be read as an educational tool on the history of the modernization of Japan and the war launched by Emperor Meiji and Hirohito to build Japan Empire in the Pacific and East Asia The book shares the view of the author on Hirohito s responsibility on the events that marked Japan s entry into the war that began when Japanese troops invaded Manchuria on September 19 1931 and culminated with Japan s surprise attack on the U S naval base at Pearl Harbor on December 7 1941

**The ^APoliticization of Islam** Kemal H. Karpat,2001-05-03 Combining international and domestic perspectives this book analyzes the transformation of the Ottoman Empire over the nineteenth and twentieth centuries It views privatization of state lands and the increase of domestic and foreign trade as key factors in the rise of a Muslim middle class which increasingly aware of its economic

interests and communal roots then attempted to reshape the government to reflect its ideals      *The Works of the English Poets, from Chaucer to Cowper: Hughes, Sheffield, Prior, Congreve, Blackmore, Fenton, Gay* ,1810      Mapping the Posthuman Grant Hamilton,Carolyn Lau,2023-12-22 This book works to delineate some of the major routes by which science and art intersect Structured according to the origin myths of the posthuman that continue to shape the idea of the human in our technological modernity this volume gives space to narratives of alter modernity that resonate with Ursula K Le Guin s call for a new kind of story which exposes the violence and exploitation driven by a sustained belief in human exceptionalism anthropocentrism and cultural superiority In this context the posthuman myths of multispecies flourishing given in this collection which are situated across a range of historical times and locations and media and modalities are to be thought of as kernels of possible futures that can only be realized through collective endeavour      **The Works of the British Poets: Parnell, Garth, Rowe, Addison, Hughes, Sheffield, Prior, Congreve, Blackmore, Fenton, Granville, and Yalden** Robert Anderson,1795      **The Works of the English Poets, from Chaucer to Cowper;: Hughes, Sheffield, Prior, Congreve, Blackmore, Fenton, Gay** Samuel Johnson,1810      **A Complete Edition of the Poets of Great Britain..: Parnell.
