Crudo Olivia Laing, 2018-09-11 A New York Times Notable Book Named a Best Book of the Year by The New Yorker Washington Post NPR Guardian Esquire and Bustle Love may not be original but this funny fervent novel is The New Yorker It s the summer of 2017 and Kathy is getting married Meanwhile fascism is on the rise truth is dead the planet is heating up and Trump is tweeting the world ever closer to nuclear war In *Crudo* her first work of fiction Olivia Laing radically rewires the novel with a fierce compassionate account of learning to love when the end of the world seems in sight *Contemporary Poetics* Louis Armand, 2007 Exploring the boundaries of one of the most contested fields of literary study a field that in fact shares territory with philology aesthetics cultural theory philosophy and even cybernetics this volume gathers a body of critical writings that taken together broadly delineate a possible poetics of the contemporary In these essays the most interesting and distinguished theorists in the field renegotiate the contours of what might constitute contemporary poetics ranging from the historical advent of concrete poetry to the current technopoetics of cyberspace Concerned with a poetics that extends beyond our own time as a mere marker of present day literary activity their work addresses the limits of a writing practice beginning with St phane Mallarm in the late nineteenth century that engages concretely with what it means to be contemporary Charles Bernstein s Swiftian satire of generative poetics and the textual apparatus together with Marjorie Perloff s critical historical treatment of writing after Bernstein and other proponents of language poetry provides an itinerary of contemporary poetics in terms of both theory and practice The other essays consider precursors recognizable figures within the histories or prehistories of contemporary poetics from Kafka and Joyce to Wallace Stevens and Kathy Acker conjunctions in which more strictly theoretical and poetical texts enact a concerted engagement with rhetoric prosody and the vicissitudes of intelligibility cursors which points to the open possibilities of invention from Augusto de Campos s concrete poetics to the codework of Alan Sondheim and transpositions defining the limits of poetic invention by way of technology Foucault in an Age of Terror S. Morton, S. Bygrave, 2008-05-29 This book focuses on the relationship between literary culture power society and war It assesses the critical importance of Michel Foucault s lecture series Society Must Be Defended for contemporary debates about war and terror in literary and cultural studies as well as social and political thought Star Authors Joe Moran, 2000-02-20 In America authors are as likely to be seen on television talk shows or magazine covers as in the more traditional settings of literary festivals or book signings Is this literary celebrity just another result of dumbing down Yet another example of the mass media turning everything into entertainment Or is it a much more unstable complex phenomenon And what does the American experience tell us about the future of British literary celebrity In *Star Authors* Joe Moran shows how publishers the media and authors themselves create and disseminate literary celebrity He looks at such famous contemporary authors as Toni Morrison J D Salinger Thomas Pynchon Don DeLillo John Updike Philip Roth Kathy Acker Nicholson Baker Paul Auster and Jay McInerney Through an examination of their own work biographical

information media representations and promotional material Moran illustrates the nature of modern literary celebrity He argues that authors actively negotiate their own celebrity rather than simply having it imposed upon them from reclusive authors such as Salinger and Pynchon famed for their very lack of public engagement to media friendly authors such as Updike and McInerney Star Authors analyses literary celebrity in the context of the historical links between literature advertising and publicity in America the economics of literary production and the cultural capital involved in the marketing and consumption of books and authors

Brainwashing David Seed, 2004 An examination of the literary and cinematic representations of brainwashing during the Cold War era CIA operative who was a tireless campaigner against communism it took hold quickly and became a means to articulate fears of totalitarian tendencies in American life David Seed traces the assimilation of the notion of brainwashing into science fiction political commentary and conspiracy narratives of the Cold War era He demonstrates how these works grew out of a context of political and social events and how they express the anxieties of the time The Manchurian Candidate Seed provides new interpretations of writers such as Orwell and Burroughs within the history of psychological manipulation for political purposes using declassified and other documents to contextualise the material he explores the shifting view points of how brainwashing is represented changing from an external threat to American values to an internal threat against individual American liberties by the U S government will welcome this study

Postmodernism, Twenty-First Century Culture, and American Fiction Matt Graham, 2024-07-19 Postmodernism's end is a complex and contentious topic. Yet one overarching consensus emerges: the postmodern has been surpassed. This book poses a thought experiment challenging this position: what if postmodernism persists within the twenty-first century? Rather than designate a new epoch or coherent movement, this book interrogates the fragmented, contradictory, and counterintuitive endurance of postmodern aesthetics within post-Cold War America. An alternative use of postmodern aesthetics becomes possible when they are decoupled from their twentieth-century historical location. Collectively, these repetitions posit a postmodern continuum contrasting the widely called-for succession of postmodernism via this decoupling. When postmodern aesthetics are no longer unconsciously repeated within their cultural moment, this emergent shift within a period after postmodernism presents an alternative historical positioning and use. After their cultural vanguard, postmodern aesthetics become a confrontation of the chaotic realism of an inescapable post-Cold War capitalism tapping into this cultural zeitgeist through literature.

Back to the Future of the Body Dominic Janes, 2013-02-14 What can the past tell us about the future of the body? The origins of this collection of papers lie in the work of the Birkbeck Institute for the Humanities, which has been involved in presenting a series of international workshops and conferences on the theme of the cultural life of the body. The rationale for these events was that in concepts as diverse as the cyborg, the questioning of mind/body dualism, the contemporary image of the suicide bomber, and the patenting of human genes, we can identify ways in which the future of the human body is at stake. This volume represents an attempt not so much to speculate about what might happen but to develop strategies for bodily empowerment so as to get back to the future of the body. The body, it is contended, is not to be thought of as an object or a sign but as an active participant in the shaping of cultural formations. And this is emphatically not an exercise in digging corpses out of the historical archive. The question is rather: what can past lived and thought experiences of the body tell us about what the body can become? The continuing vitality of debate around the body was proven by the range and depth of the papers presented at the workshop on which this volume is based: does the body have a future? Our overall theme required contributors to think through embodiment in the past. This they did with considerable interdisciplinary vigour, rigorousness, and imagination.

Politics of Kathy Acker Emilia Borowska, 2019-05-15 Exploring revolutionary politics in the work of one of America's most important avant-garde writers. Situates Acker in broader social, political, and historical contexts. Offers an extensive analysis of the intersections between politics and literary form, asserting Acker's pivotal position in the avant-garde tradition in the twentieth century. Opens Acker's texts to a range of theory and makes links between literature and other disciplines. This study brings the radicalism of Acker's politics back to life.
