*Resisting*

*Alterities* Marco Fazzini, 2004 This volume of essays poetry and prose fiction records various attempts to read the fracture zones created by the discursive strategy of a democratic imagination where space and ideas are opened to new linguistic and literary insights Pride of place is taken by essays on the Caribbean writer Wilson Harris which explore the implications of his awareness of a polyphony of coexistent voices that dislodges the hegemony of Cartesian dualism This group of studies is rounded off with an interview with and searching testimony by Harris himself The further contributions take up the implications of the encounter with alterity strangers natives barbarians in order to underline not only wonder in the face of an unknown presence or the shame through which the subject discovers itself but also the resentment involved in the creation of demonized Others As the poet Charles Tomlinson states what we take to be otherness alterity can be readmitted into our literary consciousness and seen as part of the whole causing us to readjust our awareness of the possibilities of English These essays confirm that resistance is an interface of ambivalence between discursive worlds encouraging us to read the living network of a text contrapuntally Specific topics include Billy Bragg and New Labour Schopenhauer in Britain Objectivist poetry gender and sexual identity in Nancy Cunard in Scottish fiction multivocal discourse in South Africa specific forms of alterity in Jamaica Kincaid in the poetry of Edwin Morgan in antisemitism and the deculturalizing perils of globalization

Marline Otte,2006-07-03 At the turn of the century German popular entertainment was a realm of unprecedented opportunity for Jewish performers This study explores the terms of their engagement and pays homage to the many ways in which German Jews were instrumental in the birth of an incomparably rich world of popular culture It traces the kaleidoscope of challenges opportunities and paradoxes Jewish men and women faced in their interactions with predominantly gentile audiences Modern Germany was a society riddled by conflicts and contradictory impulses continuously torn between desires to reject control and celebrate individual and collective difference This book demonstrates that an analysis of popular entertainment can be one of the most innovative ways to trace this complicated negotiation throughout a period of great social and political turmoil      Places of Invention Arthur P. Molella,Anna Karvellas,2015-09-15 The companion book to an

upcoming museum exhibition of the same name Places of Invention seeks to answer timely questions about the nature of invention and innovation What is it about some places that sparks invention and innovation Is it simply being at the right place at the right time or is it more than that How does place whether physical social or cultural support constrain and shape innovation Why does invention flourish in one spot but struggle in another even very similar location In short Why there Why then Places of Invention frames current and historic conversation on the relationship between place and creativity citing extensive scholarship in the area and two decades of investigation and study from the National Museum of American History's Lemelson Center for the Study of Invention and Innovation The book is built around six place case studies Hartford CT late 1800s Hollywood CA 1930s Medical Alley MN 1950s Bronx NY 1970s Silicon Valley CA 1970s 1980s and Fort Collins CO 2010s Interspersed with these case studies are dispatches from three learning labs detailing Smithsonian Affiliate museums work using Places of Invention as a model for documenting local invention and innovation Written by exhibition curators each part of the book focuses on the central thesis that invention is everywhere and fueled by unique combinations of creative people ready resources and inspiring surroundings Like the locations it explores Places of Invention shows how the history of invention can be a transformative lens for understanding local history and cultivating creativity on scales of place ranging from the personal to the national and beyond      Jewish Cultural Studies Simon J. Bronner,2021-05-04 Defines the distinctive field of Jewish cultural studies and its basis in folkloristic psychological and ethnological approaches Jewish Cultural Studiescharts the contours and boundaries of Jewish cultural studies and the issues of Jewish culture that make it so intriguing and necessary not only for Jews but also for students of identity ethnicity and diversity generally In addition to

framing the distinguishing features of Jewish culture and the ways it has been studied and often misrepresented and maligned Simon J Bronner presents several case studies using ethnography folkloristic interpretation and rhetorical analysis Bronner building on many years of global cultural exploration locates patterns processes frames and themes of events and actions identified as Jewish to discern what makes them appear Jewish and why Jewish Cultural Studies is divided into three parts Part 1 deals with the conceptualization of how Jews in complex heterogeneous societies identify themselves as a cultural group to non Jews and vice versa such as how the Jewish home is socially and materially constructed Part 2 delves into ritualization as a strategic Jewish practice for perpetuating peoplehood and the values that it suggests for example the rising popularity of naming ceremonies for newborn girls simhat bat or zeved habat in the twenty first century Part 3 explores narration including the global transformation of Jewish joking in online settings and the role of Jews in American political culture Bronner reflects that a reason to separate Jewish cultural studies from the fields of Jewish studies and cultural studies is the distinctiveness of Jewish culture among other ethnic experiences As a diasporic group with religious ties and varying local customs Jews present difficulties of categorization He encourages a multiperspectival approach that considers the Jewish double consciousness as being aware of both insider and outsider perspectives participation in ancient tradition and recent modernization and the great variety and stigmatization of Jewish experience and cultural expression Students and scholars in Jewish studies cultural studies ethnic religious studies folklore sociology psychology and ethnology are the intended audience for this book
