## **Empires In Anarchy:**

Presenting a historically informed conceptual introduction to the idea of empire this book draws on interdisciplinary debates and offers a survey of different imperial experiences across time and place The Geopolitics of South Asia: From Early Empires to the Nuclear Age Graham Chapman, 2018-10-22 Anyone who is planning on carrying out research in South Asia or indeed anyone who simply wishes to understand more about this cultural heartland should read this book It shows how geological movements moulded the land of this unique cradle and how they still impact on it Discussions are woven around the three major forces of integration These are identitive forces bonds of language ethnicity religion or ideology utilitarian forces bonds of common material interest and coercion the institutional use or threat of physical violence By studying these forces Professor Chapman shows how the organization of territory has been central to the region s historic cultural linguistic and economic development In addition to the material on the Northwest frontier Afghanistan and Kashmir which was added for the second edition the Northeastern borderlands are also now examined in this fully revised third edition The current geopolitical state of the region is completely updated and greatly enhanced *Empires at War* Robert Gerwarth, Erez Manela, 2014 *Empires at War* 1911 1923 offers a new perspective on the history of the Great War looking at the war beyond the generally accepted 1914 1918 timeline and as a global war between empires rather than a European war between nation states The volume expands the story of the war both in time and space to include the violent conflicts that preceded and followed World War I from the 1911 Italian invasion of Libya to the massive violence that followed the collapse of the Ottoman Russian and Austrian empires until 1923 It argues that the traditional focus on the period between August 1914 and November 1918 makes more sense for the victorious western front powers notably Britain and France than it does for much of central eastern and south eastern Europe or for those colonial troops whose demobilization did not begin in November 1918 The paroxysm of 1914 18 has to be seen in the wider context of armed imperial conflict that began in 1911 and did not end until 1923 If we take the Great War seriously as a world war we must a century after the event adopt a perspective that

does justice more fully to the millions of imperial subjects called upon to defend their imperial governments interest to theatres of war that lay far beyond Europe including in Asia and Africa and more generally to the wartime roles and experiences of innumerable peoples from outside the European continent Empires at War also tells the story of the broad global mobilizations that saw African soldiers and Chinese labourers in the trenches of the Western front Indian troops in Jerusalem and the Japanese military occupying Chinese territory Finally the volume shows how the war set the stage for the collapse not only of specific empires but of the imperial world order

#### **American Foreign Policy in a Globalized World**

David P. Forsythe, Patrice C. MacMahon, Andrew Wedeman, 2013-05-13 In this volume several leading foreign policy and international relations experts consider the long term prospects and implications of US foreign policy as it has been shaped and practiced during the presidency of George W Bush The essays in this collection based on the research of well respected scholars such as Ole Holsti Loch Johnson John Ruggie Jack Donnelly Robert Leiber Karen Mingst and Edward Luck offer a clear assessment while US resources are substantial Washington's ability to shape outcomes in the world is challenged by its expansive foreign policy goals its exceptionalist approach to international relations serious questions about the limits of its hard power resources as well as fundamental changes in the global system Illustrating one of the central ironies of the contemporary situation in foreign affairs and international relations that at the very time of the unipolar moment the world has become globalized to such an extent that the unilateralism of the Bush Administration leads as much to resistance as it does to coercion compliance and cooperation American Foreign Policy in a Globalized World will be of interest to students and scholars of politics and international relations

Graham Chapman, 2018-02-06 This title was first published in 2000 This volume explores one of the world's greatest cultural heartlands the Indian sub continent It shows how geological

movements moulded the land and how they still impact upon it how the culture of early settlers evolved to form Hinduism how its wealth and power attracted the attention of Islamic invaders who founded the Sultanate of Delhi and then the great Mogul Empire and how they were later usurped by the British Raj The story continues with the trauma of Partition and Independence in 1947 as India's unique form of Islam shook free from Nehru's secular India with the founding of Pakistan At different points in the story discussions are woven in on subjects such as caste or the management of water resources Much of the book is written in terms of the three major forces of integration These are identitive forces bonds of language ethnicity religion or ideology utilitarian forces bonds of common material interests and coercion the institutional use or threat of physical violence By studying these forces Professor Chapman shows how the organization of territory as states and empires as monarchic realms and as representative democracies has been central to the region's historic cultural linguistic and economic development In doing so he contends that the lynchpin of this region's story is a geopolitical one The Ottoman State and its Place in World History K.H. Karpat, 2022-04-25 Menace to Empire Moon-Ho Jung, 2023-12-12 Menace to Empire is a profoundly original and ambitious book a history of race and empire that traces both the colonial violence and the anticolonial rage that the United States spread across the Pacific between the Philippine American War and World War II Author Moon Ho Jung argues that the US national security state as we know it was born out of attempts to repress and silence colonized subjects from the Philippines and Hawai'i to California and beyond whose anticolonial aspirations challenged US claims to sovereignty Jung examines how the contradictions of race nation and empire generated waves of revolutionary movements spanning the Pacific anticolonial antiracist and labor movements that exposed and confronted the US empire In response the US state closely monitored and brutally suppressed those movements by racializing particular politics and distinct communities as seditious exaggerating fears of pan Asian solidarities and sowing anti Asian racism under the guise of national security Menace to Empire transforms familiar themes in American history to highlight the critical role of colonial violence in the formation of radical movements and the antiradical origins of anti Asian racism Radicalized by their opposition to the US empire and racialized as threats to US security peoples in and from Asia pursued a revolutionary politics that gave rise to the national security state the heart and soul of the US empire ever since Provided by publisher
