It shares the innovative methods and forward-looking educational philosophy that underpin the rigorous training of his students in finance and accounting. This memoir also reflects upon Professor Lee's life experiences and his involvement in business consulting and government policy making. Readers will enjoy this private retrospection into the memories, experiences, and philosophy of this humble man who is counted among the most published finance professors and experienced journal editors in the world The Financial Development of Japan, Korea, and Taiwan Hugh T. Patrick, Yung Chul Park, Yǒng-ch'ŏl Pak, 1994 The analysis shows how financial development has occurred in two distinct phases. Initially, interest rates were regulated to remain below market levels; entry of new financial institutions was restricted; financial markets were segmented; and domestic finance was insulated from world financial markets. The second phase has seen a steady if sometimes slow removal of these restrictions *Capitalist Development and Economism in East Asia* Kui-Wai Li, 2003-08-29 Taking a conceptual approach, this book studies the economic development of the four East Asian economies since 1950. The approach takes into account three major aspects of doing business: namely, a) Attractiveness to Investors, b) Business Friendliness, and c) Competitive Policies. The bottom-up approach

considers the various operational issues that firms face at the ground level with the emphasis being on de facto issues The analysis provided in the book not only stands up to academic scrutiny as it is grounded in rigorous methodological foundations but also remains accessible and appealing to policymakers with the co authors recommending appropriate policy interventions to improve the ease of doing business of India s sub national economies **Advances in Pacific Basin**
