Louise Floyd, William Steenson, Amanda Coulthard, Daniel Williams, Anne C. Pickering, 2017-11-16 **Employment Labour and Industrial Law in Australia** provides a comprehensive current and accessible resource for the undergraduate and Juris Doctor student. With a social and political background to the law, this text provides insightful legal analysis underscored by practical business experience while exploring key principles through a close evaluation of laws and lively discussion of prominent cases. Recognising the multi-faceted nature of the subject, the authors have included content on employment, labour and industrial law in the one text while also presenting critical topics not often dealt with, namely current and in-depth analysis of trade union regulation, public work including the public sector, the judiciary and academics, workplace health and safety including workers' compensation, bullying, anti-discrimination and taxation, emerging issues including topics such as transnational and international employment law, migration and employment as well as volunteers and work experience. To maintain currency within this rapidly changing area of law, the text has a website which will include updates for any major developments in the field as well as responses to end of chapter questions. Written by respected academics and practicing lawyers in the field, this book is a relevant and contemporary guide to this fascinating area of law. **East Asian Labor and Employment Law** Ronald C. Brown, 2012-03-05 This book deals with international labor and employment law in the East Asia Region (EA) particularly dealing with China, South Korea and Japan. It explores and explains the effects of globalization and discusses the role played by international labor law as it affects lawyers, business, labor, labor unions and human resource management and the labor issues that can arise in dealing in EA trade and investment. The text and the readings from area experts are organized and written to provide the reader with first a broad understanding and insight into the global dimensions of the fast-emerging area of labor and employment issues, e.g. global legal standards and their interplay with domestic and foreign laws, and second to show how these laws and approaches play out in specific EA countries, comparing global approaches with the specific laws of each country on four common agenda items: regulatory administration, workers' rights, trade unions and dispute resolution.
