Empowering Leadership Michael Fletcher, 2018-01-23

A major problem in the local church today is lack of leadership Simply put we have more needs than we have leaders to meet those needs So how do we train better leaders faster The truth is very few churches really have a well thought out leadership development plan Growth requires continually adding healthy new leaders who carry the church culture forward and embody its core values Everyone knows it but how do we achieve it In *Empowering Leadership* author and leadership consultant Michael Fletcher says leaders like this can't simply be bought nor can they be hired from someone else's leadership assembly line Developing leaders at every level to create an environment that attracts potential leaders and to build better leaders faster an organization needs more than a pipeline It needs a culture that develops leaders organically Finding the right kind of leaders to guide your church on a path of continual growth comes out of keeping the right focus and that focus is not just on the leaders In fact as Fletcher says It isn't about the leader It never was about the leader It will never be about the leader It will always and only be about Jesus and his people It's about the people True leadership development includes the often messy but necessary interaction of life upon life So hiring pastors and key staff roles from within the church is the very best policy people who breathe the culture of the church and who have helped create the culture you want to maintain If your church or organization needs a good leadership development structure then you're holding the right book *Empowering Leadership* details Michael's greatest insights on how to build better leaders faster by creating a leadership development culture in your church or organization naturally organically continually Empower your church or organization through great leadership This book will show you how
