

The background of the cover is a light blue gradient. It features several faint, semi-transparent chemical structures. At the top left, there are two small molecules, one with a carboxylic acid group and another with a hydroxyl group. Below them is a long, complex polymer-like chain with repeating units containing amide and ester groups. In the middle, there is a long chain of repeating units that look like amino acid derivatives. At the bottom, there is a structure with a central nitrogen atom bonded to two carbons, each of which is part of a larger ring system, and a positive charge is indicated near the nitrogen.
