Enclave A Play:

The Enclave Arthur Laurents, 1974 THE STORY A group of congenial friends have restored several adjoining houses in one of New York's more attractive neighborhoods and plan to move in en masse setting up a sort of urban commune However one of their number a confirmed bachelor

Sound Play William Cheng, 2014 Video games open portals into fantastical worlds where imaginative play prevails The virtual medium seemingly provides us with ample opportunities to behave and act out with relative safety and impunity Or does it Sound Play explores the aesthetic ethical and sociopolitical stakes of our engagements with gaming's audio phenomena from sonic violence to synthesized operas from democratic music making to vocal sexual harassment Author William Cheng shows how the simulated environments of games empower designers composers players and scholars to test and tinker with music noise speech and silence in ways that might not be prudent or possible in the real world In negotiating utopian and alarmist stereotypes of video games Sound Play synthesizes insights from across musicology sociology anthropology communications literary theory and philosophy With case studies that span Final Fantasy VI Silent Hill Fallout 3 The Lord of the Rings Online and Team Fortress 2 this book insists that what we do in there in the safe sound spaces of games can ultimately teach us a great deal about who we are and what we value musically culturally humanly out here

Thought-Provoking Play: Political Philosophies in Science Fictional Videogame Spaces from Japan Martin Roth, 2018-01-05 This book considers videogames as spaces of political philosophy Emerging from a negotiation between designers player and computer they prompt us to rethink life in common and imagine alternatives to the status quo Several case studies on science fictional videogames from Japan serve to demonstrate this potential for thought provoking play

Music as a Spandrel of Evolutionary Adaptation for Speech Gregor Tomc, 2023-07-14 Some forms of human behavior make no sense in the light of evolution Music is one of them and it is the main subject of this book Here it is interpreted from a holistic perspective music is embedded in our nature it is embodied in our organisms and it is emergent a language that opens the doors of imagination for us The first half of the book is dedicated to cognitive aspects of acoustic signalization of learned bird song of automatic mammal calls and of speech and music in humans The second part of the book deals with the culture of music in European modernity The question of the relation of music and imagination is also addressed The book posits that music makes it easier for us to depart from paramount reality and become creative not bad for something that started as a spandrel of speech

Gurgurtha: The

Epic Quest Ray Bussard,2019-09-11 A fantasy board game for two to four players ages 8 and up that takes just a few hours to play El Ankara is being besieged by Murdraak the goblin warlord and your quest group led by your wizard and dowdy crew must recapture the Golden Orb of Prosperity slay Murdraak and his black fire breathing dragon Bracco and save the day Do you have what it takes With a 73 page rulebook 83 page Card Compendium List maps charts indices appendices 13 Engagements 13 kinds of dice 22 decks chips cubes a Magical Spells Chart a history of El Ankara and much much more it s simply impossible to have more fun **Paradoxes of Individualization** Mr Willem de Koster,Professor Dick

Houtman,Professor Stef Aupers,2013-01-28 Paradoxes of Individualization addresses one of the most hotly debated issues in contemporary sociology whether a process of individualization is liberating selves from society so as to make them the authors of their personal biographies The book adopts a cultural sociological approach that firmly rejects such a notion of individualization as na ve The process is instead conceptualized as an increasing social significance of moral notions of individual liberty personal authenticity and cultural tolerance which informs two paradoxes Firstly chapters about consumer behavior computer gaming new age spirituality and right wing extremism demonstrate that this individualism entails a new yet often unacknowledged form of social control The second paradox addressed in chapters about religious cultural and political conflict is concerned with the fact that it is precisely individualism s increased social significance that has made it morally and politically contested Paradoxes of Individualization will therefore be of interest to scholars and students of cultural sociology cultural anthropology political science and cultural religious and media studies and particularly to those with interests in social theory culture politics and religion Playing America's Game Adrian Burgos,2007-06-04 Although largely ignored by historians of both baseball in general and the Negro leagues in particular Latinos have been a significant presence in organized baseball from the beginning In this benchmark study on Latinos and professional baseball from the 1880s to the present Adrian Burgos tells a compelling story of the men who negotiated the color line at every turn passing as Spanish in the major leagues or seeking respect and acceptance in the Negro leagues Burgos draws on archival materials from the U S Cuba and Puerto Rico as well as Spanish and English language publications and interviews with Negro league and major league players He demonstrates how the manipulation of racial distinctions that allowed management to recruit and sign Latino players provided a template for Brooklyn Dodgers general manager Branch Rickey when he initiated the dismantling of the color line by signing Jackie Robinson in 1947 Burgos s extensive examination of Latino participation before and after Robinson s debut documents the ways in which inclusion did not signify equality and shows how notions of racialized difference have persisted for darker skinned Latinos like Orestes Minnie Mi oso Roberto Clemente and Sammy Sosa Travel and the Pan African Imagination Tracy Keith Flemming,2021-09-02 Travel and the Pan African Imagination explores the African Atlantic world as a productive theater or space where modernity racialized dominance and racialized resistance took form The book stresses the importance of placing three Atlantic figures the Charleston South Carolina based

armed resistance leader Denmark Vesey the West African emigration advocate Edward Wilmot Blyden and the Christian missionary and teacher in Liberia as well as the United States Alexander Crummell within an Atlantic context and as African world community figures between the late eighteenth and early twentieth centuries The book also examines the religious origins of Black Power ideology and modern Pan Africanism as products of the intense dialogue within the African world community about concepts of modernity progress and civilization Tracy Keith Flemming identifies how travel and social mobility led to the generation of an ever more complex and dynamic Atlantic world and of a fluid and adaptive African world community imagination for those figures who were forced to operate within and against a racially framed universe The vexing social position and symbolic figure of the African was central to the dilemmas facing the racialized imagination of African world community figures and the discipline of Africology

From Immigrant To Transnational Diaspora

Entrepreneur: The Roles Of Enclaves In Their Entrepreneurial Journey Osa-godwin Osaghae, Thomas M

Cooney, 2024-03-14 This book focuses on the role of immigrants in building economic social and political relationships between countries In this era of growing global interconnectedness international migration and immigrant issues have become a significant source of disunity between countries In some receiving countries immigrants are now workforce replacements for an ageing population while in sending countries immigrants use the experience gained in their country of residence for investment and entrepreneurial activity in their country of origin This has led to the suggestion that immigrant activities are no longer a process of bridging the economic imbalance between nations but rather the bridging of economic social and political relationships Transnational diaspora entrepreneurial activity relies on the relationship between immigrants and their home country their understanding of the economic political and social systems in both their home and host countries and the demand for their home country's cultural goods As the demand for home cultural goods grows there is a need to establish businesses that can operate across multiple environments This book posits that transnational diaspora entrepreneurship can be seen as the internationalization process of immigrant entrepreneurship It explains the role of enclaves in supporting this activity and offers valuable insights into how immigrant enclave activity and informal networking influence transnational diaspora entrepreneurship

The Best Short Plays Ramon Delgado, 1983 How Plays Work

Martin Meisel, 2007-06-28 Why are readers who are generally at home with narrative and discursive prose and even readily responsive to poetry far less confident and intuitive when it comes to plays The complication lies in the twofold character of the play as it exists on the page as a script or score to be realized and as literature Martin Meisel's engaging account of how we read play plays on the page shows that the path to the fullest imaginative response is an understanding of how plays work What is entailed is something like learning a language vocabulary grammar syntax but learning also how the language operates in those concrete situations where it is deployed Meisel begins with a look at matters often taken for granted in coding and convention and then under Beginnings at what is entailed in establishing and entering the invented world of the

play Each succeeding chapter is a gesture at enlarging the scope Seeing and Hearing The Uses of Place The Role of the Audience The Shape of the Action and The Action of Words The final chapters Reading Meanings and Primal Attractions explore ways in which both the drive for significant understanding and the appetite for wonder can and do find satisfaction and delight Cultivated in tone and jargon free How Plays Work is illuminated by dozens of judiciously chosen examples from western drama from classical Greek dramatists to contemporary playwrights both canonical and relatively obscure It will appeal as much to the serious student of the theatre as to the playgoer who likes to read a play before seeing it performed

Tales of the Tricycle Theatre Terry Stoller, 2013-06-20 Tales of the Tricycle Theatre provides an inside look at the history of the north London theatre which has achieved renown with its staging of black Irish verbatim and political drama Co published with the Society for Theatre Research the book draws extensively on archival research and interviews with actors playwrights directors designers and board members to document and celebrate the work of one of London s most artistically exciting and politically engaged theatres Terry Stoller presents the Tricycle s story giving you a front row view of the theatre s productions including the work of generations of black British writers from Mustapha Matura and Alfred Fagon to Roy Williams Kwame Kwei Armah and Bola Agbaje Irish plays ranging from Bernard Shaw s John Bull s Other Island to Brendan Behan s The Hostage its critically lauded political play cycles The Bomb A Partial History and The Great Game Afghanistan the latter performed at the Pentagon in 2011 The Tricycle Theatre has been both defiantly local and proudly international it has held a mirror up to British society and above all it has proved that political engagement is not incompatible with the highest artistic standards It has helped make my life as a critic worthwhile Michael Billington Foreword *Verdi's Theater* Gilles de Van, 1998-09-15 But in the musical drama reality begins to blur the musical forms lose their excessively neat patterns and doubt and ambiguity undermine characters and situations reflecting the crisis of character typical of modernity Indeed much of the interest and originality of Verdi s operas lie in his adherence to both these contradictory systems allowing the composer dramatist to be simultaneously classical and modern traditionalist and innovator **Immigrant Entrepreneurs** Ivan Light, Edna Bonacich, 2023-09-01 A decade in preparation Immigrant Entrepreneurs offers the most comprehensive case study ever completed of the causes and consequences of immigrant business ownership Koreans are the most entrepreneurial of America s new immigrants By the mid 1970s Americans had already become aware that Korean immigrants were opening buying and operating numerous business enterprises in major cities When Koreans flourished in small business Americans wanted to know how immigrants could find lucrative business opportunities where native born Americans could not Somewhat later when Korean black conflicts surfaced in a number of cities Americans also began to fear the implications for intergroup relations of immigrant entrepreneurs who start in the middle rather than at the bottom of the social and economic hierarchy Nowhere was immigrant enterprise more obvious or impressive than in Los Angeles the world s largest Korean settlement outside of Korea and America s premier city of small

business Analyzing both the short run and the long run causes of Korean entrepreneurship the authors explain why the Koreans could find acquire and operate small business firms more easily than could native born residents They also provide a context for distinguishing clashes of culture and clashes of interest which cause black Korean tensions in cities and for framing effective policies to minimize the tensions A decade in preparation Immigrant Entrepreneurs offers the most comprehensive case study ever completed of the causes and consequences of immigrant business ownership Koreans are the most entrepreneurial of America's new immigrants By the mid 19

Genocide and Victimology Yarin Eski, 2020-11-29

Genocide and Victimology examines genocide in its diverse features from different yet connected perspectives to offer an interdisciplinary victimological imagination of genocide It will include in its exploration critical and cultural victimologies and criminologies of genocide accompanied by and recognising the rich scholarship on genocide in the fields of religion and history theatre studies and photography philosophy and existentialism post colonialism and ethnography and biography Bringing together theory with empirical research and drawing on a range of case studies such as the Treblinka extermination camp the Bosnian and Rwandan genocides the Sagkeeng First Nation in Manitoba Canada and genocidal violence in Syria and Iraq this book engages the victimological imagination towards an interdisciplinary cosmopolitan victimology of genocide Bundled and intertwined the wide yet integrated variety of perspectives on genocide gives readers a victimological kaleidoscope to discover and for victimology hitherto unexplored theory and methodology This way readers can develop their own more epistemologically theoretically and methodologically robust victimology of genocide a victimology of genocide as envisioned by Nicole Rafter The book hopes to canvas an understanding and a starting point for a diverse appreciation of genocide victimhood and survivorship from which the real post genocidal harms and sites post traumatic stress disorder courts and tribunals and overall meaningful justice will benefit Written in a clear and direct style this book will appeal to students and scholars in criminology sociology cultural studies philosophy history religious studies English literature and all those concerned with not repeating a history of genocide

Migration in South America Gioconda Herrera, Carmen Gómez, 2022-08-16 This open access regional reader examines emerging issues around new migration patterns in South America and their relationship with changing migration policies over the last twenty years The first part of the book looks at conceptual discussions on mixed and survival migration the link between migration and extractivism and the specific character of transit migration A second part examines how these debates have led to transformations in state policies and the shift in government policies from a human rights based approach towards more restrictive ones Finally the third section revisits the relationship between racism xenophobia and colonialism in contemporary migrations As such this book makes an interesting read to students academics policy makers and all those working in the field
