Encounters With God In Augustines Confessions:

Encounters with God in Augustine's Confessions Carl G. Vaught, 2012-02-01 This book continues Carl G Vaught's thoroughgoing reinterpretation of Augustine's Confessions one that rejects the view that Augustine is simply a Neoplatonist and argues that he is also a definitively Christian thinker As a companion volume to the earlier Journey toward God in Augustine's Confessions Books I VI it can be read in sequence with or independently of it This work covers the middle portion of the Confessions Books VII IX Opening in Augustine's youthful maturity Books VII IX focus on the three pivotal experiences that transform his life the Neoplatonic vision that causes him to abandon materialism his conversion to Christianity that leads him beyond Neoplatonism to a Christian attitude toward the world and his place in it and the mystical experience he shares with his mother a few days before her death which points to the importance of the Christian community Vaught argues that time space and eternity intersect to provide a framework in which these three experiences occur and which give Augustine a three fold access to God

Access to God in Augustine's Confessions Carl G. Vaught, 2005-01-01 This is the final volume in Carl G Vaught's groundbreaking trilogy reappraising Augustine's Confessions a cornerstone of Western philosophy and one of the most influential works in the Christian tradition Vaught offers a new interpretation of the philosopher as less Neoplatonic and more distinctively Christian than most interpreters have thought In this book he focuses on the most philosophical section of the Confessions and on how it relates to the previous more autobiographical sections A companion to the previous two volumes which dealt with Books I IX this book can be read either in sequence with or independently of the others

The Journey Toward God in Augustine's Confessions Carl G. Vaught, 2003-08-14 A new interpretation of the first six books of Augustine's Confessions emphasizing the importance of Christianity rather than Neoplatonism

Conversion Works Jeffrey A. Allen, 2021-11-17 In this book conversion means abandoning a world view and starting over Using this definition of conversion the book examines four works Augustine of Hippo's Confessions Rene Descartes's Meditations on First Philosophy Bernard Lonergan's Insight A Study of Human Understanding and Peter Weir's The Truman Show The main argument of this book is that all four works contain and induce conversion That is all four works feature an individual who abandons a worldview and starts over and all four works exhort their engager to do the same This book also explores the works requirement of cognitive imitation wherein a person replicates the mental activities of the individual who has a conversion in the work and of private engagement wherein a person reads or views the work while alone The book concludes with an argument for the educational value of the four works that appropriates Ernest Becker's The Denial of Death

Literature and the Encounter with God in Post-Reformation England Michael Martin, 2016-05-23 Each of the figures examined in this study John Dee John Donne Sir Kenelm Digby Henry and Thomas Vaughan and Jane Lead is concerned with the ways in which God can be approached or experienced Michael Martin analyzes the ways in which the encounter with God is figured among these early modern writers who inhabit the shared cultural space of poets and

preachers mystics and scientists The three main themes that inform this study are Cura animarum the care of souls and the diminished role of spiritual direction in post Reformation religious life the rise of scientific rationality and the struggle against the disappearance of the Holy Arising from the methods and commitments of phenomenology the primary mode of inquiry of this study resides in contemplation not in a religious sense but in the realm of perception attendance and acceptance Martin portrays figures such as Dee Digby and Thomas Vaughan not as the eccentrics they are often depicted to have been but rather as participating in a religious mainstream that had been radically altered by the disappearance of any kind of mandatory or regular spiritual direction a problem which was further complicated and exacerbated by the rise of science Thus this study contributes to a reconfiguration of our notion of what religious orthodoxy really meant during the period and calls into question our own assumptions about what is or was orthodox and heterodox **Encounters with God**

in Medieval and Early Modern English Poetry Charlotte Clutterbuck, 2017-07-05 Engaging with four English poems or groups of poems the anonymous medieval Crucifixion lyrics William Langland's Piers Plowman John Donne's Divine Poems and John Milton's Paradise Lost this book examines the nature of poetic encounter with God It constitutes an important contribution to our understanding of the relationship between literature and theology Augustine's Preaching and the Healing of Desire in the Enarrationes in Psalmos Mark J. Boone, 2023-02-27 The Enarrationes in Psalmos is the collection of Augustine's commentaries and sermons on the Psalms Although Augustine is often at his philosophical best here bearing various resemblances to the Platonists and other philosophers he also articulates a distinctively Christian view on what we should desire on how desire has gone wrong and on how it is healed The renewal of desire takes place as a result of and through the unity of Christ and the church which is the guiding theme of the Enarrationes Augustine's Preaching and the Healing of Desire in the Enarrationes in Psalmos traces this theology of desire as it connects to Augustine's Christology his ecclesiology his account of happiness and well being and his eschatology The book closes with some suggestions on what the church can learn today from the Enarrationes in the areas of psychology and wellbeing biblical exegesis and homiletics

D.H. Lawrence's Final Fictions Ben Stoltzfus, 2024-04-08 D H Lawrence's Final Fictions A Lacanian Perspective explores how literature thinks more specifically how the reading of fiction influences behavior Lawrence writes passionately about our alienation from ourselves from other people and from the cosmos He believes that we need to heed the voices of our unconscious and he shows us how to meld body and mind so that psychoanalytically speaking Id and Ego can come together In this endeavor there is a salient convergence between Lawrence's writings and those of Jacques Lacan the French psychoanalyst In this book Stoltzfus examines the poetics of seven major fictions that Lawrence wrote between 1925 and 1930 five productive years that are referred to as his fabulation period In each of the book's seven chapters in tandem with Lacan's writings Stoltzfus analyzes seven major characters four of whom move from alienation to the renewal of self and the cosmos He argues that Lawrence's fiction is simultaneously descriptive and prescriptive by showing us how to circumvent dysfunction Stoltzfus brings literature and psychoanalysis together in readings that are both aesthetic and epistemological They are recipes for curing the Anthropocene

The Universal Way of Salvation in the Thought of Augustine Thomas P. Harmon, 2024-06-27 This work examines Augustine's critique of his Roman predecessors to reveal key aspects of Christ's mediation of the universal way of salvation Porphyry of Tyre had noticed that Christianity can make a claim that pagan religion and pagan philosophy cannot that all types of human being can be saved through the one salvific action of Christ mediated sacramentally through the one Catholic Church Augustine's response to Porphyry is grounded firmly on Christology especially on what Augustine sees to be the unique act of Christ as mediator based in turn on Christ's unique position as true God and true man which in turn is capable of healing the whole man and by healing the whole man also healing each of the parts of the soul Christ himself as concretely universal is capable of saving each and any type of human being no matter which part of the soul rules within him Augustine counters which is not a claim his pagan interlocutors can replicate In addition to careful considerations of ancient authors like Plato Cicero Varro and Porphyry this book also ranges through Plutarch Shakespeare and contemporary political thinkers like Pierre Manent and Leo Strauss scholars of religion such as Michael Bland Simmons theologians such as Erik Peterson and Ernest L Fortin as well as well known Augustine scholars such as James Wetzel G R Evans John Cavadini Robert Dodaro Mary Keys Michael Foley Rowan Williams Oliver O Donovan John Rist and many others

Feminist Interpretations of Augustine Judith Chelius Stark, 2010-11-01

Know Thyself Thomas O. Buford, 2011-11-25 Know Thyself An Essay in Social Personalism proposes that social Personalism can best provide for self knowledge In the West self knowledge has been sought within the framework of

two dominant intellectual traditions order and the emerging self On the one hand ancient and medieval philosophers living in an orderly hierarchical society governed by honor and shame and bolstered by the metaphysics of being and rationalism believed persons gain self knowledge through uniting with the ground of their being once united they would understand what they are what they are to be and what they are to do On the other hand Renaissance and modern thinkers such as Pico della Mirandola Copernicus Descartes Locke and Kant shattered the great achievement of the high middle ages and bequeathed to posterity an emerging self in a splintered world Continuing their search for self knowledge the moderns found themselves faced with the dualism of the emerging self of the Renaissance and the natural world as understood by modern scientists New problems spun out of this dualism including the mind body problem the other minds problem free will and determinism the nature and possibility of social relationships values moral norms and their relationship to the natural and social worlds and the relationships between science and religion Finding self knowledge among these splinters without a guiding orientation has proven difficult Even though luminaries such as Spinoza Berkeley and Hegel attempted to bring order to the sundered elements their attempts proved unsatisfactory We contend that neither order nor the emerging self can adequately provide for self knowledge Since those culturally embodied master narratives lead us to an impasse we turn to social Personalism Self knowledge developed in this book shows how persons in relation to the Personal learn who they are what they are to become and what they must do to achieve that goal It also shows that the achievement of self knowledge is supported by a natural social and cultural environment rooted in trust In this humane and timely discussion Thomas O Buford offers a personalist understanding of self knowledge that avoids the impersonalisms that erode the dignity of persons and their moral life which characterize modern life Understanding Religious Conversion Dong Young Kim, 2012-07-20

Understanding Religious Conversion begins with emphasis on the value of respecting religious theological interpretations of conversion while coordinating social scientific studies of how personal social and cultural issues are relevant to the human transformational process It encourages us to bring together the perspectives of psychology sociology anthropology and religious studies into critical and mutually informing conversation for establishing a richer and more accurate perception of the complex phenomenon of religious conversion The case of St Augustine s conversion experience superbly illustrates the complicated and multidimensional process of religious change By critically extending the contributions of the literature within Lewis Rambo s interdisciplinary framework Dong Young Kim presents a more integrated picture of how personal social cultural and religious theological components interact with one another in the process of Augustine s conversion In doing so he has struggled with how to relocate more effectively and practically the conversion narrative of Augustine within the context of pastoral care and ministry and the field of the academy in order to facilitate a better understanding of the conversion stories of the church members as well as to enhance the experiences of religious conversion within the Christian community The Cambridge Handbook of Western Mysticism and Esotericism Glenn Alexander Magee, 2016-04-18

Mysticism and esotericism are two intimately related strands of the Western tradition. Despite their close connections, however, scholars tend to treat them separately. Whereas the study of Western mysticism enjoys a long and established history, Western esotericism is a young field. *The Cambridge Handbook of Western Mysticism and Esotericism* examines both of these traditions together. The volume demonstrates that the roots of esotericism almost always lead back to mystical traditions, while the work of mystics was bound up with esoteric or occult preoccupations. It also shows why mysticism and esotericism must be examined together if either is to be understood fully. Including contributions by leading scholars, this volume features essays on such topics as alchemy, astrology, magic, Neoplatonism, Kabbalism, Renaissance Hermetism, Freemasonry, Rosicrucianism, numerology, Christian theosophy, spiritualism, and much more. This Handbook serves as both a capstone of contemporary scholarship and a cornerstone of future research.

The Conversion and Therapy of Desire Mark J Boone, 2017-08-31 The first fruits of the literary career of St Augustine, the great theologian and Christian philosopher par excellence, are the dialogues he wrote at Cassiciacum in Italy following his famous conversion in Milan in AD 386. These four little books, largely neglected by scholars, take up the ancient philosophical project of identifying the principles and practices that heal human desires in order to attain happiness, renewing this philosophical endeavour with insights from Christian theology. Augustine's later books, such as the *Confessions*, would continue this project of healing desire, as would the writings of others including Boethius, Anselm, and Aquinas. Mark J Boone's *The Conversion and Therapy of Desire* investigates the roots of this project at Cassiciacum, where Augustine is developing a Christian theology of desire informed by Neoplatonism but transformed by Christian teaching and practices.

Models of God and Alternative Ultimate Realities Jeanine Diller, Asa Kasher, 2013-06-13 The envisioned volume is a collection of recent essays about the philosophical exploration, critique, and comparison of a) the major philosophical models of God, gods, and other ultimate realities implicit in the world's philosophical schools and religions, and of b) the ideas of such models and doing such modeling per se. The aim is to identify exactly what a model of ultimate reality is, create a comprehensive and accessible collection of extant models, and determine how best philosophically to model ultimate reality if possible and desirable.

Thriving in Babylon David B. Capes, J. Daryl Charles, 2011-01-01 This delightfully multifaceted volume, comprised of thoughtful essays by an esteemed array of cultural critics, probes the intersection of Christian faith and culture to honor the memory of A. J. Chip Conyers, a remarkably ecumenical Christian scholar and cultural warrior whose premature death in 2004 cut short a remarkable career in teaching and writing. As those who knew him can attest, Conyers lived his life at the intersection of Christian theology and cultural concern, with a singular blend of astuteness, gracefulness, and Christian conviction. This festschrift, as esteemed theologian and Conyers's mentor Jürgen Moltmann indicates in the foreword, is intended to mirror Conyers's own commitment to incisive cultural criticism and theological faithfulness in the mold of the great tradition. This is no small achievement, even for so venerable a cast of scholars as the contributors to this volume, as Conyers crossed interdisciplinary boundaries in a day of

escalating hyper specialization with the greatest of ease He was comfortable discussing contemporary church life or the christological controversy of the patristic era Heideggerian hermeneutics or human dignity and the imago Dei faith and the Enlightenment or the fatherhood of God Catholic substance or Protestant reform Yet Conyers always did this through the lens of historic Christian orthodoxy Though he was a most incisive student of culture in a most refreshing way he steered clear of being co opted by the currents of culture Neither retreating into pious devotionism nor opting for the theologically unreflective activism that has become so chic in our post consensus climate he embodied a theological perspective that blends responsible cultural engagement with eschatological hope The reader is sure to encounter the same blend in this festschrift and to come away both challenged and edified toward fulfilling the message and hope of Conyers life and work to faithfully thrive in Babylon

(R)evolutionary Hope Kathleen Bonnette, 2023-08-14 This book is for seekers for those with restless hearts It is especially for those who express their hope through the Catholic tradition but struggle with disillusionment and long for something more R evolutionary Hope invites readers to journey toward that More With theological reflection explored and interrogated through memoir this work reimagines what it means to be Catholic challenging readers to remain open to the grace that draws them from certainty to possibility beyond what is to what could be By infusing the theological tradition of St Augustine with the spirituality emerging in contemporary women of the church R evolutionary Hope invites readers to shift their paradigm from one of hierarchy to one of interconnection offering a theology of encounter that is rooted in tradition responsive to present realities and ever open to the future

God in Sound and Silence Danielle Anne Lynch, 2018-06-22 Music by its indeterminate levels of meaning poses a necessary challenge to a theology bound up in words Its distinctive nature as temporal and embodied allows a unique point of access to theological understanding Yet music does not exist in a cultural vacuum conveying universal truths but is a part of the complex nature of human lives This understanding of music as theology stems from a conviction that music is a theological means of knowing knowing something indeterminate yet meaningful This is an exploration of the means by which music might say something otherwise unsayable and in doing so allow for an encounter with the mystery of God
