The Decision Between Us John Paul Ricco, 2014-03-31 The Decision Between Us combines an inventive reading of Jean Luc Nancy with queer theoretical concerns to argue that while scenes of intimacy are spaces of sharing they are also spaces of separation John Paul Ricco shows that this tension informs our efforts to coexist ethically and politically an experience of

sharing and separation that informs any decision Using this incongruous relation of intimate separation Ricco goes on to propose that decision is as much an aesthetic as it is an ethical construct and one that is always defined in terms of our relations to loss absence departure and death Laying out this theory of unbecoming community in modern and contemporary art literature and philosophy and calling our attention to such things as blank sheets of paper images of unmade beds and the spaces around bodies The Decision Between Us opens in 1953 when Robert Rauschenberg famously erased a drawing by Willem de Kooning and Roland Barthes published Writing Degree Zero then moves to 1980 and the neutral mourning of Barthes Camera Lucida and ends in the early 1990s with installations by Felix Gonzalez Torres Offering surprising new considerations of these and other seminal works of art and theory by Jean Genet Marguerite Duras and Catherine Breillat The Decision Between Us is a highly original and unusually imaginative exploration of the spaces between us arousing and evoking an infinite and profound sense of sharing in scenes of passionate erotic pleasure as well as deep loss and mourning

The Pursuit of Art Martin Gayford, 2019-10-29 One of our leading art critics and writers Martin Gayford recounts his travels and meetings with the world's greatest artists In the course of a career thinking and writing about art critic Martin Gayford has traveled all over the world both to see works of art and to meet artists Gayford's journeys often to fairly inaccessible places involve frustrations and complications but also serendipitous encounters and outcomes which he makes as much a part of the story as the final destination In chapters that are by turns humorous intriguing and stimulating Gayford takes us to places as varied as Brancusi's Endless Column in Romania prehistoric caves in France the museum island of Naoshima in Japan the Judd Foundation in Marfa Texas and an exhibition of Roni Horn's work in Iceland Interwoven with these tales are journeys to meet artists Henri Cartier Bresson in Paris Marina Abramovic in Venice Robert Rauschenberg in New York and travels with artists such as a trip to Beijing with Gilbert George These encounters not only provide fascinating insights into the way artists approach and think about their art but reveal the importance of their personal environments A perceptive amusing and knowledgeable companion in The Pursuit of Art Gayford takes readers on a tour of art that is immensely entertaining informative and eminently readable

Modern Art Leo Steinberg, 2023-10-19 The fifth and final volume in the Essays by Leo Steinberg series focusing on modern artists Leo Steinberg was one of the most original art historians of the twentieth century known for taking interpretive risks that challenged the profession by overturning reigning orthodoxies In essays and lectures ranging from old masters to modern art he combined scholarly erudition with eloquent prose that illuminated his subject and a credo that privileged the visual evidence of the image over the literature written about it His writings sometimes provocative and controversial remain vital and influential reading Steinberg's perceptions evolved from long hard looking at his objects of study Almost everything he wrote included passages of formal analysis that were always put into the service of interpretation Following the series publication on Pablo Picasso this volume focuses on other modern artists including Cézanne Monet Matisse Max Ernst Jasper Johns Robert Rauschenberg Roy Lichtenstein Hans Haacke and Jeff Koons Included are seven unpublished lectures and essays Steinberg's landmark essay Encounters with Rauschenberg a survey of twentieth century sculpture and an examination of the role of authorial predilections in critical writing The final chapter presents a collection of Steinberg's humorous pieces witty forays penned for his own amusement Modern Art is the fifth and final volume in a series that presents Steinberg's writings selected and edited by his longtime associate Sheila Schwartz

Studies in Irreversibility Benjamin Schreier, 2009-10-02 The premise of Studies in Irreversibility Texts and Contexts is that there is a big difference between phenomena practices processes and events that are irreversible and those that are reversible and moreover that this difference and its manifold implications remain underappreciated so long as the analysis of culture continues to anchor itself in an emphasis on the capacities of human agency If messianic modes posit a future to justify the present and so interpret the influence of the past the papers in this collection are devoted to examining the present of experience from the perspective of its uncompromising and irreducible past finding in irreversibility a key to an interpretation of futurity Together these papers outline a method of examining experience as something more or at least other than the desire to know it and in so doing they shed light on the powerful role of normativity in the narratives we construct in and about culture Through novel analyses from the disciplines of literature art criticism history philosophy ethnic studies and ethics the contributors to this book address key questions about the nature of irreversibility What differentiates the experience of the irreversible from the

experience of the reversible How is irreversibility recognized What happens when we acknowledge something to be irreversible How has society contended with irreversibility and what sorts of tools exist today to interpret its significance Wary of impetuously fixing the meaning of a still elusive concept this volume collects papers that employ a wide array of methodologies mindful that no one critical approach may yet have proved itself Irreversibility is not simply a quality of the texts examined in this volume nor is it strictly speaking a lens through which otherwise coherent or stable texts are examined rather it emerges as a model that brings together texts and the thinking of them By together outlining a method of examining culture that moves beyond reliance on tropes such as functionalism teleology and chance tropes that have dominated twentieth century cultural analysis these papers help to inaugurate a new paradigm in the study of culture Feast of Excess George Cotkin,2016 Feast of Excess is an engaging and accessible portrait of The New Sensibility as it was named by Susan Sontag in 1965 The New Sensibility sought to push culture in extreme directions either towards stark minimalism or gaudy maximalism Through vignette profiles of prominent figures John Cage Patricia Highsmith Allen Ginsberg Andy Warhol Anne Sexton John Coltrane Bob Dylan Erica Jong and Thomas Pynchon to name a few George Cotkin presents their bold headline grabbing performances and places them within the historical moment **Permissions, A Survival Guide** Susan M. Bielstein,2010-06-15 If a picture is worth a thousand words then it s a good bet that at least half of those words relate to the picture s copyright status Art historians artists and anyone who wants to use the images of others will find themselves awash in byzantine legal terms constantly evolving copyright law varying interpretations by museums and estates and despair over the complexity of the whole situation Here on a white not a high horse Susan Bielstein offers her decades of experience as an editor working with illustrated books In doing so she unsnarls the threads of permissions that have ensnared scholars critics and artists for years Organized as a series of takes that range from short sidebars to extended discussions Permissions A Survival Guide explores intellectual property law as it pertains to visual imagery How can you determine whether an artwork is copyrighted How do you procure a high quality reproduction of an image What does fair use really mean Is it ever legitimate to use the work of an artist without permission Bielstein discusses the many uncertainties that plague writers who work with images in this highly visual age and she does so based on her years navigating precisely these issues As an editor who has hired a photographer to shoot an incredibly obscure work in the Italian mountains a plan that backfired hilariously who has tried to reason with artists estates in languages she doesn t speak and who has spent her time in the archival trenches she offers a snappy and humane guide to this difficult terrain Filled with anecdotes asides and real courage Permissions A Survival Guide is a unique handbook that anyone working in the visual arts will find invaluable if not indispensable **The Baroque in Architectural Culture, 1880-1980** Andrew Leach,John Macarthur,2016-03-09 In his landmark volume Space Time and Architecture Sigfried Giedion paired images of two iconic spirals Tatlin s Monument to the Third International and Borromini s dome for Sant Ivo alla Sapienza The values shared between the baroque age and the

modern were thus encapsulated on a single page spread As Giedion put it writing of Sant Ivo Borromini accomplished the movement of the whole pattern from the ground to the lantern without entirely ending even there And yet he merely groped towards that which could be completely effected in modern architecture achieving the transition between inner and outer space The intellectual debt of modern architecture to modernist historians who were ostensibly preoccupied with the art and architecture of earlier epochs is now widely acknowledged This volume extends this work by contributing to the dual projects of the intellectual history of modern architecture and the history of architectural historiography It considers the varied ways that historians of art and architecture have historicized modern architecture through its interaction with the baroque a term of contested historical and conceptual significance that has often seemed to shadow a greater contest over the historicity of modernism Presenting research by an international community of scholars this book explores through a series of cross sections the traffic of ideas between practice and history that has shaped modern architecture and the academic discipline of architectural history across the long twentieth century The editors use the historiography of the baroque as a lens through which to follow the path of modern ideas that draw authority from history In doing so the volume defines a role for the baroque in the history of architectural historiography and in the history of modern architectural culture *Frank O'Hara* Lytle Shaw, 2006-06 Providing a synthesis of New York's artistic and literary worlds this book uses social and philosophical problems involved in reading a coterie to propose a language for understanding the poet art critic and Museum of Modern Art curator Frank O'Hara The Rhetoric of the Page Laurie Maguire, 2020-11-03 This wide ranging and entertaining book explores blank space from incunabula to Google books Blanks are a paradox simultaneously nothing and something gesturing to what was once there or might be there They are also a creative opportunity for readers as well as writers readers respond to what is not there and writers come to anticipate that response Thus blank space develops literary and ludic applications Each chapter focuses on one typographical form of what is not there on the page physical gaps Chapter One marks of incompleteness such as c Chapter Two and the asterisk as a stand in for things that cannot be said Chapter Three By looking at the early modern page as a visual unit as well as a verbal unit this volume shows how the relationship between textual layout and textual content is as productive for writers as it is for readers Mise en page influences readers in the same way that rhetoric influences readers It is thus possible to speak of the rhetoric of the page *Approaching Autonomy: Post-socialist Conceptualism in Chinese Art* Yu-Chieh Li, 2025-06-18 This book explores works by key artists who shaped conceptualism in post Mao China Drawing from understudied archival materials and qualitative research it analyzes artistic struggles for autonomy re evaluating Robert Rauschenberg's 1985 exhibition in Beijing and Chinese artists exploration of appropriation affect dehumanization and collective practice since the 1980s A continuous development can be found in the politics and aesthetics of post socialism which has struggled to define its space for expression from the 1980s until today

Rauschenberg's Unique Style and Artistic Journey Pasquale De Marco, 2025-05-17 In the realm of modern art few

artists have left an imprint as profound and enduring as Robert Rauschenberg. With his groundbreaking work he challenged conventions, blurred boundaries and expanded the very definition of art. This comprehensive book delves into the life and artistic journey of Rauschenberg, offering a captivating exploration of his unique vision and lasting impact on the art world. From his early days as a young artist in New York City to his emergence as a leading figure in the Pop Art and Happenings movements, Rauschenberg's artistic trajectory was marked by a relentless pursuit of innovation and experimentation. He embraced chance, indeterminacy and collaboration, creating a body of work that transcended traditional categories and definitions. Rauschenberg's unique artistic style was characterized by its radical use of materials and techniques. He incorporated found objects, discarded materials and everyday imagery into his work, transforming them into powerful expressions of his artistic vision. Through collage, assemblage, printmaking, photography and performance art, he challenged conventional notions of artistic medium and process, creating a new hybrid form of expression that defied easy categorization. Beyond his artistic innovations, Rauschenberg was deeply engaged with social and political issues. His work addressed themes of war, poverty, inequality and environmental degradation, becoming a vehicle for social commentary and a call to action. His powerful and thought-provoking statements resonated with audiences around the world, urging them to confront the challenges of their time. This book offers a comprehensive exploration of Rauschenberg's iconic artworks, his collaborations with other artists and his involvement in groundbreaking artistic movements. the set is illustrated in black and white throughout and each volume contains a color plate section A useful glossary of terms is also included Willem de Kooning Nonstop Rosalind E. Krauss, 2016-03-01 In the early 1950s Willem de Kooning's *Woman I* and subsequent paintings established him as a leading member of the abstract expressionist movement His wildly impacted brushstrokes and heavily encrusted surfaces baffled most critics who saw de Kooning's monstrous female image as violent aggressive and ultimately the product of a misogynistic mind In the image rich *Willem de Kooning Nonstop* Rosalind E. Krauss counters this view with a radical rethinking of de Kooning's bold canvases and reveals his true artistic practices Krauss demonstrates that contrary to popular conceptions of de Kooning as an artist who painted chaotically only to finish abruptly he was in fact constantly reworking the same subject based on a compositional template This template informed all of his art and included a three part vertical structure the projection of his male point of view into the painting or sculpture and the near universal inclusion of the female form which was paired with her redoubled projection onto his work Krauss identifies these elements throughout de Kooning's oeuvre even in his paintings of highways boats and landscapes *Woman* is always there A thought provoking study by one of America's greatest art critics *Willem de Kooning Nonstop* revolutionizes our understanding of de Kooning and shows us what has always been hiding in plain sight in his work
