Encyclopaedia of Religion and Ethics James Hastings,John Alexander Selbie,Louis Herbert Gray,1928 *Encyclopaedia of Religion and Ethics: Hymns-Liberty* James Hastings,John Alexander Selbie,1915 The Encyclopædia Britannica Thomas Spencer Baynes,1891 **Goat** Joy Hinson,2014-11-15 From Three Billy Goats Gruff to The Men Who Stare at Goats this inimitable ruminant has long played a role in our literature and popular culture And yet our relationship with the poor man s cow is oddly ambivalent In the beautifully illustrated Goat Joy Hinson explores the reason behind this unease while

presenting readers with the animal's fascinating natural history and its effect on myth, medicine and culture. Hinson traces the history of goats from their evolution millions of years ago through their domestication and role in the modern world. She delves into our interaction with endangered wild goat species and the familiar farmyard goat and she reveals the harm done by humans in indiscriminately importing tamed goats leading to huge feral populations in Australia and on the Galapagos Islands. Hinson also considers the place of goat products in culinary and medical traditions from the pouring of goat urine into the ear as a cure for neck pain to the belief that a goat's bezoar stone can be used as an antidote for poison. From Goat Festivals in the United States to the Christmas Goat in Sweden, *Goat* takes readers on an exciting ride through this frequently neglected animal's history, life and role in today's world.

in Balance Theresia Hofer, 2017-03-24 2015 Best Art Book Accolade ICAS Book Prize in the Humanities Category. *Bodies in Balance: The Art of Tibetan Medicine* is the first comprehensive interdisciplinary exploration of the triangular relationship among the Tibetan art and science of healing, Sowa Rigpa Buddhism and arts and crafts. This book is dedicated to the history, theory and practice of Tibetan medicine, a unique and complex system of understanding body and mind, treating illness and fostering health and well-being. Sowa Rigpa has been influenced by Chinese, Indian and Greco-Arab medical traditions but is distinct from them. Developed within the context of Buddhism, Tibetan medicine was adapted over centuries to different health needs and climates across the region encompassing the Tibetan Plateau, the Himalayas and Mongolia. Its focus on a holistic approach to health has influenced Western medical thinking about the prevention, diagnosis and treatment of illness. Generously illustrated with more than 200 images, *Bodies in Balance* includes essays on contemporary practice, pharmacology and compounding medicines, astrology and divination, history and foundational treatises. The volume brings to life the theory and practice of this ancient healing art.

A Soup for the Qan: Chinese Dietary Medicine of the Mongol Era As Seen in Hu Sihui's Yinshan Zhengyao Paul D. Buell, Eugene N. Anderson, 2010-09-01 In the early 14th century a court nutritionist called Hu Sihui wrote his *Yinshan Zhengyao*, a dietary and nutritional manual for the Chinese Mongol Empire. Hu Sihui, a man apparently with a Turkic linguistic background, included recipes, descriptions of food items and dietary medical lore including selections from ancient texts and thus reveals to us the full extent of an amazing cross-cultural dietary. Here recipes can be found from as far as Arabia, Iran, India and elsewhere next to those of course from Mongolia and China. Although the medical theories are largely Chinese, they clearly show Near Eastern and Central Asian influence. This long-awaited, expanded and revised edition of the much acclaimed *A Soup for the Qan* sheds yet new light on our knowledge of West Asian influence on China during the medieval period and on the Mongol Empire in general.
