Aesthetic Disinterestedness Thomas Hilgers,2016-12-01 The notion of disinterestedness is often conceived of as antiquated or ideological In spite of this Hilgers argues that one cannot reject it if one wishes to understand the nature of art He claims that an artwork typically asks a person to adopt a disinterested attitude towards what it shows and that the effect of such an adoption is that it makes the person temporarily lose the sense of herself while enabling her to gain a sense of the other Due to an artwork s particular wealth multiperspectivity and dialecticity the engagement with it cannot culminate in the construction of world views but must initiate a process of self critical thinking which is a precondition of real self determination Ultimately then the aesthetic experience of art consists of a dynamic process of losing the sense of oneself while gaining a sense of the other and of achieving selfhood In his book Hilgers spells out the nature of this process by means of rethinking Kant s and Schopenhauer s aesthetic theories in light of more recent developments in philosophy specifically in hermeneutics critical theory and analytic philosophy and within the arts themselves specifically within film and performance art

Van Gogh among the Philosophers David P. Nichols,2017-12-06 This volume brings Continental philosophical interpretations of Van Gogh into dialogue with one another to explore how for Van Gogh art places human beings in their world and yet in other ways displaces them not allowing them to belong to that world

Natural Beauty Ronald Moore,2007-08-28 Natural Beauty was selected for the Choice Outstanding Academic Title list for 2008 Natural Beauty presents a bold new philosophical account of the principles involved

in making aesthetic judgments about natural objects It surveys historical and modern accounts of natural beauty and weaves elements derived from those accounts into a syncretic theory that centers on key features of aesthetic experience specifically features that sustain and reward attention In this way Moore s theory sets itself apart from both the purely cognitive and the purely emotive approaches that have dominated natural aesthetics until now Natural Beauty shows why aesthetic appreciation of works of art and aesthetic appreciation of nature can be mutually reinforcing that is how they are cooperative rather than rival enterprises Moore also makes a compelling case for how and why the experience of natural beauty can contribute to the larger project of living a good life *From Text to Literature* S. Olsen,A. Pettersson,2005-09-14 The
