Global Diasporas Robin Cohen,2022-07-08 Following its initial publication in 1997 *Global Diasporas An Introduction* was central to the emergence of diaspora studies and quickly established itself as the leading textbook in the field This expanded and fully revised 25th anniversary edition adds two new chapters on incipient diasporas and diaspora engagement while carefully clarifying the changing meanings of the concept of diaspora and incorporating updated statistics and new interpretations seamlessly into the original text The book has also been made more student friendly with illustrations thought provoking questions and guides to further reading The book features insightful case studies and compares a wide range of diasporas including Jewish Armenian African Sikh Chinese British Indian Lebanese Afghan and Caribbean peoples This edition also retains Cohen s rich historical and sociological descriptions and clear yet elegant writing as well as his modified

concept of diasporic rope linking different features of diasporas This updated edition of the definitive textbook in the field will be an indispensable guide for students and instructors seeking to explore the complex issues of diaspora migration and identity

Routledge Handbook of the Vietnamese Diaspora Nathalie Huỳnh Châu Nguyễn, 2024-03-14 The Routledge Handbook of the Vietnamese Diaspora presents a comprehensive overview and analysis of Vietnamese migrations and diasporas including the post 1975 diaspora one of the most significant and highly visible diasporas of the late twentieth century This handbook delves into the processes of Vietnamese migration and highlights the variety of Vietnamese diasporic journeys trajectories and communities as well as the richness and depth of Vietnamese diasporic literary and cultural production The contributions across the fields of history anthropology sociology literary studies film studies and cultural studies point to the diversity of approaches relating to scholarship on Vietnamese diasporas The handbook is structured in five parts Colonial legacies Refugees histories and communities Migrant workers international students and mobilities Literary and cultural production Diasporas and negotiations Offering multiple cutting edge interpretations representations and reconstructions of diaspora and the diasporic experience this first reference work of the Vietnamese diaspora will be an invaluable tool for students and researchers in the fields of Asian Studies Asian American Studies Ethnic Studies Refugee Studies Transnational Studies and Migration and Diaspora Studies

Diaspora and Citizenship Claire Sutherland, Elena Barabantseva, 2013-09-13 This collection of papers discusses the impact of diasporas on the articulations and practices of legal political cultural and social citizenship in their country of origin While the majority of current citizenship debates focus on the challenges and directions in which diasporic and migrant communities impact on the citizenship regime in their country of settlement the papers in this volume approach the study of citizenship from the perspective of the link between the sending state and its diasporic communities abroad The papers discuss the role of language religion kinship and other ethnic markers in diaspora politics and trace their implications for the articulations and practices of citizenship Through discussing cases across political and geographical spectrums and from different historical epochs the book broadens and enriches the debate on citizenship by demonstrating important ways in which diasporas impact on the delineation of citizenship regimes and the politics of national identity in their homeland This links to the continued use of language as an ethnic marker but also one which may be learned allowing a certain degree of choice and shifting affiliations amongst putative members of a diaspora This book was published as a special issue of Nationalism and Ethnic Politics

Pluralism and Democracy in India Wendy Doniger, Martha C. Nussbaum, 2015-02-09 Wendy Doniger and Martha Nussbaum bring together leading scholars from a wide array of disciplines to address a crucial question How does the world's most populous democracy survive repeated assaults on its pluralistic values India's stunning linguistic cultural and religious diversity has been supported since Independence by a political structure that emphasizes equal rights for all and protects liberties of religion and speech But a decent Constitution does not implement itself and challenges to these core values repeatedly arise

most recently in the form of the Hindu Right movements of the twenty first century that threatened to destabilize the nation and upend its core values in the wake of a notorious pogrom in the state of Gujarat in which approximately 2000 Muslim civilians were killed Focusing on this time of tension and threat the essays in this volume consider how a pluralistic democracy managed to survive They examine the role of political parties and movements including the women s movement as well as the role of the arts the press the media and a historical legacy of pluralistic thought and critical argument Featuring essays from eminent scholars in history religious studies political science economics women s studies and media studies *Pluralism and Democracy in India* offers an urgently needed case study in democratic survival As Nehru said of India on the eve of Independence These dreams are for India but they are also for the world The analysis this volume offers illuminates not only the past and future of one nation but the prospects of democracy for all *Connecting Worlds and People* Dagmar Freist, Susanne Lachenicht, 2016-12-01 In recent decades historians have emphasized just how dynamic and varied early modern Europe was Previously held notions of monolithic and static societies have now been replaced with a model in which new ideas different cultures and communities jostle for attention and influence Building upon the concept of interaction the essays in this volume develop and explore the idea with specific reference to the ways in which diasporas could act as translocal societies connecting worlds and peoples that may not otherwise have been linked The volume looks at the ways in which diasporas or diasporic groups such as the Herrnhuters the Huguenots the Quakers Jews the Mennonites the Moriscos and others could function as intermediaries to connect otherwise separated communities and societies All contributors analyse the respective groups internal and external networks social relations and the settings of social interactions looking at the entangled networks of diaspora communities and their effects upon the societies and regions they linked through those networks The collection takes a fresh look at early modern diasporas combining religious cultural social and economic history to better understand how early modern communication patterns and markets evolved how consumption patterns changed and what this meant for social economic and cultural change how this impacted on what we understand as early developments towards globalization and how early developments towards globalization in turn were constitutive of these

New Dimensions of Diversity in Nordic Culture and Society Jenny Björklund, Ursula Lindqvist, 2016-04-26 In the new millennium categories of identity have become particularly destabilized with the emergence of a new generation of people in the Nordic region who demand more dynamic and fluid identities *New Dimensions of Diversity in Nordic Culture and Society* reinvestigates the tired concept of diversity to make room for dynamic new realities as well as the ample new questions to which they give rise This volume assumes diversity to be a fundamental feature of Nordic modernity Given that the Nordic countries consistently rank among the world s wealthiest most educated and most egalitarian these case studies provide important counter narratives to prevailing local and global discourses of Nordic ness The contributors not only interrogate historical categories of diversity in a Nordic context including gender sex class ethnicity and race they also show how these

categories intersect They examine new forms of and platforms for diverse ideas and creative expression including fluid masculinities digital cultures new media and fashion They question the terms on which the Nordic region's indigenous peoples the Sami and the Greenlandic Inuit as well as stateless people such as the Kurds are brought into Nordic discussions of diversity citizenship and agency and analyze the implications of particular neo nationalist and patriarchal discourses that have emerged since the turn of the century The book draws from a variety of disciplinary perspectives and interdisciplinary fields and will spark productive and critical conversations among all with an interest in the national and regional cultures subcultures and social dynamics that inform modern life in the Nordic region

Vietnamese Migrants in Australia and the Global Digital Diaspora Anh Nguyen Austen, 2022-09-16 Through oral histories memoirs and Facebook posts of Vietnamese adults who entered Australia as children after the Vietnam War and Vietnamese refugees war orphans and children of refugees this book provides insight into the memories of forced migrant childhoods and histories as well as the complexities of national and transnational identity and belonging in digital diaspora As war and displacement compounds the need for creating communities and histories for cultural continuity this book is a history about childhood and migration for the Vietnamese diaspora of refugees adoptees and second generation in Australia and their connectedness to a global and digital diaspora Using Facebook as a digital archive for historical research *Vietnamese Migrants in Australia and the Global Digital Diaspora* presents new methods for the study of what Nguyen Austen proposes as a new area of digital diaspora studies for interdisciplinary research about real and digital life in the humanities and social sciences As a contemporary digital diaspora study of Vietnamese forced child migrants from 1975 to the present this book contains a mixed methods historical analysis of the impact of war and displacement on memories of childhood This book presents an innovative history of the national transnational digital and contemporaneous lives of Vietnamese child migrants which will make a significant contribution to the discourse on transnational childhood migration and belonging for refugees and migrants in the twenty first century

Key Concepts in Race and Ethnicity Nasar Meer, 2014-07-28 A conceptually power packed volume that is at once erudite and accessible expansive and focused true to sociological traditions yet stimulatingly exploratory Scholars and students will be served very well by this absorbing far reaching enquiry into ethnicity and race Raymond Taras Tulane University This concise profound and beautifully written book offers a tour de force across the landscape of race and ethnicity by a young author who masters them all Per Mouritsen Aarhus University This book offers an accessible discussion of both foundational and novel concepts in the study of race and ethnicity Each account will help readers become familiar with how long standing and contemporary arguments within race and ethnicity studies contribute to our understanding of social and political life more broadly Providing an excellent starting point with which to understand the contemporary relevance of these concepts Nasar Meer offers an up to date and engaging consideration of everyday examples from around the world This is an indispensable guide for both students and established researchers interested in the study of race and ethnicity

Diasporas

Professor Kim Knott, Doctor Sean McLoughlin, 2010-10-14 Featuring essays by world renowned scholars *Diasporas* charts the various ways in which global population movements and associated social political and cultural issues have been seen through the lens of diaspora. Wide ranging and interdisciplinary this collection considers critical concepts shaping the field such as migration ethnicity post colonialism and cosmopolitanism. It also examines key intersecting agendas and themes including political economy security race gender and material and electronic culture. Original case studies of contemporary as well as classical diasporas are featured mapping new directions in research and testing the usefulness of diaspora for analyzing the complexity of transnational lives today. *Diasporas* is an essential text for anyone studying working or interested in this increasingly vital subject. *Posthumanist Nomadisms across Non-Oedipal Spatiality* Java Singh, Indrani Mukherjee, 2022-02-22 As an epistemological perspective nomadism is an emerging field of scholarship offering intersectionality with eco criticism feminism post colonialism migration studies and translation. Much of the scholarship that uses the precepts of nomadism to read cultural texts and phenomena is scattered as separate articles in academic journals or as single chapters in books wherein the primary focus is the intersectional fields. Few book length publications solely focus on the ramifications of nomadism. *Posthumanist Nomadisms across non Oedipal Spatiality* fills that void. The fifteen chapters in this volume explore the possibilities offered by the nomadic perspective to explore a wide range of literary and cultural texts organized into three sections: Nomadic Assemblages, Non Oedipal Cartographies and Space Time Montages that work as one to negate absorption into the interiority of sovereign territory. These sections are not an attempt at corralling the nomadic spirit into separate enclosures; instead they are bands of warriors that operate the violence of the hunted animal, dehumanized human others and earth others. The chapters are in constant multi vocal conversations with narratives that camp on the turbulent weathers of global transitory spaces. They charter real or intellectual turfs of interstitial rhizomatic nomadic epistemologies as political resistance to the exclusionary practices of a violently wired world. This book will appeal to post graduate students, researchers and faculty in the departments of literature, comparative literary and cultural studies. Researchers in sociology, cultural anthropology, gender studies and migration studies will also find the material applicable to the expanding approaches available in their fields. **Yoruba Culture** Kola Abimbola, 2006 *Understanding Diaspora Development* Melissa Phillips, Louise Olliff, 2022-05-30 This book brings together new research that engages with the concept of diaspora from a uniquely Australian perspective and provides a timely contribution to the development of research informed policy both in the Australian context and more broadly. It builds on the understanding of the complex drivers and domains of diaspora, transnationalism and its implications for countries and people striving to develop human capabilities in a globally interconnected but also fractured world. The chapters showcase a wide range of diaspora experiences from culturally and linguistically diverse communities in Australia. This work demonstrates the usefulness of diaspora as a concept to explore the experiences of migrant and refugee communities in Australia and the Pacific and further understanding on the

peacebuilding conflict economic humanitarian and political engagements of diaspora communities globally The insights and findings from the breadth of research featured shed light on broader debates about diasporas migration and development and transnationalism Sikhs in Europe Kristina Myrvold,2016-04-01 Sikhs in Europe are neglected in the study of religions and migrant groups previous studies have focused on the history culture and religious practices of Sikhs in North America and the UK but few have focused on Sikhs in continental Europe This book fills this gap presenting new data and analyses of Sikhs in eleven European countries examining the broader European presence of Sikhs in new and old host countries Focusing on patterns of migration transmission of traditions identity construction and cultural representations from the perspective of local Sikh communities this book explores important patterns of settlement institution building and cultural transmission among European Sikhs Desert Entanglements Gabriele Volpato,2025-01-01 The Sahrawi refugees in southwestern Algeria have struggled from exile for fifty years to reconfigure the animated desert they call badiya They recovered camel husbandry and access to part of the former rangeland and wove it back as seasonal nomadism Desert Entanglements analyzes this process as an act of place making premised on refugees agency **Diaspora and Media in Europe** Karim H. Karim,Ahmed Al-Rawi,2018-01-24 This book examines how African Asian Middle Eastern and Latin American diasporas use media to communicate among themselves and to integrate into European countries Whereas migrant communities continue employing print and broadcasting technologies the rapidly growing applications of Internet platforms like social media have substantially enriched their interactions These communication practices provide valuable insights into how diasporas define themselves The anthology investigates varied uses of media by Ecuadorian Congolese Moroccan Nepalese Portugal Somali Syrian and Turkish communities residing in Belgium Germany Italy the Netherlands Spain Sweden and the UK These studies are based on research methodologies including big data analysis content analysis focus groups interviews surveys and visual framing and they make a strong contribution to the emerging theory of diasporic media

Diasporas and Homeland Conflicts Bahar Baser,2016-03-09 As violent conflicts become increasingly intra state rather than inter state international migration has rendered them increasingly transnational as protagonists from each side find themselves in new countries of residence In spite of leaving their homeland the grievances and grudges that existed between them are not forgotten and can be passed to the next generation This book explores the extension of homeland conflicts into transnational space amongst diaspora groups with particular attention to the interactions between second generation migrants Comparative in approach Diasporas and Homeland Conflicts focuses on the tensions that exist between Kurdish and Turkish populations in Sweden and Germany examining the effects of hostland policies and politics on the construction shaping or elimination of homeland conflicts Drawing on extensive interview material with members of diasporic communities this book sheds fresh light on the influences exercised on conflict dynamics by state policies on migrant incorporation and multiculturalism as well as structures of migrant organizations As such it will be of interest to scholars of

sociology political science and international studies with interests in migration and diaspora integration and transnational conflict
