**Essays on Judaism in the Pre-Hellenistic Period** Joseph Blenkinsopp, 2017-03-06 The essays deal with developments during the period from the liquidation of the Judean state to the conquests of Alexander the Great This was a critical time in the Near East and the Mediterranean world in general It marked the end of the great Semitic empires until the rise of Islam in the seventh century A D decisive changes in religion with appeal to a creator deity in Deutero Isaiah Babylonian Marduk cult and Zoroastrianism For the survivors of the Babylonian conquest in a post collapse society the issue of continuity with different groups claiming continuity with the past and possession of the traditions there developed a situation favourable to the emergence of sects The most pressing question however was what to do faced with the overwhelming power of empire first Babylonian then Persian Finally with the extinction of the native dynasty and the entire apparatus of a nation state the temple became the focus and emblem of group identity

**Between Cooperation and Hostility** Rainer Albertz, Jakob Wöhrle, 2013-02-20 The question of why the cooperation of Jews with the Persian and Ptolemaic empires achieved some success and why it failed with regard to the Seleucids and the Romans even turning into military hostility against them has not been sufficiently answered The present volume intends to show from the perspectives of Hebrew Bible Judaic and Ancient History Studies that the contrasting Jewish attitudes towards foreign powers were not only dependent on specific political circumstances They were also interrelated with the emergence of multiple early Jewish identities which all found a basis in the Torah the prophets or the psalms

**The Age of Solomon** Lowell K. Handy, 2023-08-14 The figure of King Solomon is central to our understanding of the history of Israel and Judah This volume of collected articles brings the reader up to date with the latest scholarship in the field The work consists of twenty four chapters and provides important studies in the historical approach to Solomon and to 10th century B C E Judah and Israel with archaeological surveys of the neighboring regions sociological surveys and literary readings of the biblical texts With suggestions for further research and indexes

*The Temple of Jerusalem* John M. Lundquist, 2007-12-30 As war and terrorism continue to rage over the Holy Land the Temple of Jerusalem arguably the most famous sacred structure in world history looms in the background as a symbol of past glory a place of religious worship and a site to be contended over and coveted This book offers a general history of the meaning importance and significance of the Temple of Jerusalem in both the religious and the political arena It begins with the construction of the Temple its destruction in 587 B C E its reconstruction in 516 B C E the vast enlargement during the time of the Idumean King Herod around 20 B C E its final destruction in 70 C E and its dynamic and abundant afterlife as the leading influence in the construction of Jewish synagogues Christian cathedrals and Islamic mosques But the Temple has also been at the center of much political and religious controversy and Lundquist explores the issues and conflicts that have erupted over this sacred place considers the

meaning and importance of the Temple to Christianity Judaism and Islam from ancient times to the present and concludes with a careful consideration of the continuing religious and political tensions On September 28 2000 Ariel Sharon visited the Temple Mount also called Al Haram As Sharif in Jerusalem igniting what has come to be known as the second intifada But why would such a visit to a religious site set off such a string of violent responses that continue to this day The answer lies in the history of the Temple of Jerusalem which once indeed twice stood in the spot known today as the Temple Mount to Jews and the Dome of the Rock to Muslims A holy place to three of the world's main religions Christianity Judaism and Islam the Temple of Jerusalem is arguably the most famous sacred structure in world history and figures prominently in Apocalyptic writings Yet it is almost entirely absent in all its phases from the archaeological record as the sacred nature of the site prohibits any excavation

**Arqueología bíblica** Pedro Cabello Morales, Companion Encyclopedia of Anthropology Tim Ingold, 1994 This comprehensive survey of contemporary thought in biological social and cultural anthropology sets the foundation for their future development and integration The principal rationale behind the Encyclopedia is to overcome the division and fragmentation within the approaches of the humanities and natural sciences to anthropology It emphasizes interconnections between perspectives and sub disciplines producing a complete perspective on what it means to be human The work consists of three parts Humanity Culture and Social Life and 40 major contributions Part One emphasizes human beings as members of a species how that species differs from others how it has evolved and how human populations have adapted to and in turn transformed their environments Part Two deals with the origin and structure of human culture and on the role of culture in action perception and cognition Part Three examines the various aspects of the relationships and processes that are carried on by persons and groups in the course of social life Useful features such as cross references within the text full biographical references suggestions for further reading and carefully illustrated line drawings make this an indispensable resource for all students of anthropology or sociology

**The Antiquaries Journal**, 1979 D'Alexandre à Zénobie Maurice Sartre, 2001-05-10 De la conquête d'Alexandre la conquête islamique la Syrie a tenu une place de première importance dans le monde grec la Syrie au sens où l'entendaient les Anciens depuis les derniers contreforts de l'Anatolie au nord jusqu'aux portes de l'Égypte au sud de la Méditerranée la vallée de l'Euphrate et au vaste désert syro-mésopotamien Par delà l'histoire des royaumes issus de la conquête macédonienne celle des États indigènes installés sur leurs débris ou encore celle de la domination romaine la Syrie connaît l'expérience passionnante d'une confrontation permanente des cultures chaque peuple Phéniciens Araméens Arabes Juifs Grecs et Romains apportant des éléments la construction d'une identité syrienne aux multiples facettes Lieu d'affrontements parfois violents plus souvent d'interpénétration pacifique elle offre l'image d'une terre prospère d'un actif lieu de production et d'échanges carrefour entre la Méditerranée et la Mésopotamie ou la péninsule Arabique et celle d'un creuset bouillonnant d'innovations culturelles artistiques et religieuses Tandis que les grands dieux du salut de la Syrie araméenne migrent jusqu'aux frontières de l'Empire le judaïsme bientôt privé du Temple se

transforme au contact de l'hellénisme alors qu'en merge peu peu une secte nouvelle appelle un rapide succès le christianisme Tentant une approche globale de la Syrie antique jusqu'à la veille du triomphe des chrétiens cette ample synthèse sans précédent ni équivalent aborde tous les aspects d'une brillante civilisation qui a duré près de sept siècles et dont Palmyre Petra Bostra Apamée Antioche avec tant d'autres sites prestigieux portent aujourd'hui témoignage Maurice Sartre ancien pensionnaire scientifique à l'Institut français d'archéologie du Proche Orient Beyrouth professeur d'histoire ancienne à l'université de Tours titulaire de la chaire d'histoire du Proche Orient hellénistique et romain à l'Institut universitaire de France a consacré de nombreux travaux à l'histoire de la Méditerranée orientale aux époques hellénistique et romaine Il poursuit la publication des inscriptions grecques et latines de la Syrie du Sud tout en collaborant régulièrement des publications destinées à un public large

Judaea-Palaestina Nicole Belayche, 2001 The religious history of Palestine has not yet been studied as that of an ordinary Roman province Until now scholars have mainly highlighted the two monotheistic religions Judaism and Christianity If Palestinian uniqueness comes actually from them pagan Palestine little differed from the rest of the Roman especially eastern world and was in fact a real religious mix due to its history in the Hellenistic and Roman periods Nicole Belayche examines the pagan part quantitatively the majority of the Palestinian population between 135 and the fourth century As a consequence of the two revolts of 66-70 and 132-135 pagan peoples had been settled all over the territory and pagan cults avodah zarah to speak as a Mishnah spread with them Data of various natures and religious origins allow one to reconstruct the ritual aspects of the pagan cults The collection of gods is varied and their origins recall local history Semitic but above all Graeco-Hellenistic and then Roman They prove the adherence of the province to the main religious trends of the imperial Graeco-eastern ensemble The pagan religious life is studied for itself and in the relationship of the pagans to the Jewish population since monotheistic and polytheistic communities did not live in closed worlds The general plan of the book follows them city by city in order to respect the juridical status of the communities and their cultural personality Second to fourth century Judaea Palestine offers a good short cut to the religious procedures at work in the already Hellenized Roman provinces perhaps the best one due to local history The mechanics of cohabitation in the system of Graeco-Roman cultural representation functioned here as elsewhere because the monotheistic communities Jewish then Christian from the third century on did not risk intermixing As in the rest of the Empire Constantine's reign was not an effective turning point and pagan cults still flourished until the end of the fourth century at least *Die Ikonographie Palästinas/Israels und der Alte Orient* Silvia Schroer, Othmar Keel, 2005

**El Oriente romano** Maurice Sartre, 1994-09-22 Completa exposición de la historia de las provincias orientales del Imperio romano Es decir del mundo grecoparlante del Imperio estas son analizadas desde el punto de vista administrativo político económico y social Se incluye una completa bibliografía y exposición de fuentes lo que posee un valor especial teniendo en cuenta que se trata de una parte siempre mal investigada y difundida de la historia de Roma **"En commençant par Moïse et les prophètes..."** Guy Couturier, 2008 *International Bibliography*

*of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences* ,1996

**Geschichte und Theologie** Rainer Albertz,2011-08-30 Besides two hitherto unpublished papers this collection contains 15 of Rainer Albertz papers from the period 1978 2000 They reflect the author s concern to understand biblical developments against the background of the religious and socio historical developments and currents in Israel and the Ancient Orient The volume includes for example reflections on the development of the tradition of prehistory of the commandment to honour one s parents of the issue of monotheism or of the significance of personal piety The collection is completed with socio historical studies on the social background to the Book of Job or the moving forces behind the Deuteronomic History together with approaches to the editorial history of the Books of Jeremiah and Deuteroisaiah *Le Migdol* Joffrey Seguin,2007

*História primitiva de Deus* Mark S. Smith,2023-08-30 Nesta história notável e aclamada do desenvolvimento do monoteísmo Mark S Smith explica como a religião de Israel evoluiu de um culto a Yahweh como uma divindade primitiva entre muitos a uma f monoteísta totalmente definida com Yahweh como único deus Repudiando a visão tradicional de que Israel era fundamentalmente diferente em cultura e religião de seus vizinhos cananeus este livro provocador argumenta que a religião israelita se desenvolveu pelo menos em parte a partir da religião de Cana Com base em fontes epigráficas e arqueológicas Smith demonstra convincentemente que a religião israelita não era uma rejeição total dos deuses pagãos estrangeiros mas antes era o resultado do estabelecimento progressivo de uma identidade israelita distinta BAR International Series ,1978
