Buddhist Christian dialogue has a long and complex history that stretches back to the first centuries of the common era. Comprising 42 international and disciplinarily diverse chapters this volume begins by setting up a framework for examining the nature of Buddhist Christian interreligious dialogue discussing how research in this area has been conducted in the past and considering future theoretical directions. Subsequent chapters delve into important episodes in the history of Buddhist Christian dialogue contemporary conversations such as monastic interreligious dialogue multiple religious identity and dual religious practice and Buddhist Christian cooperation in social justice social engagement pastoral care and interreligious education settings. The volume closes with a section devoted to comparative and constructive explorations of different speculative themes that range from the theological to the philosophical or experiential. This handbook explores how the study of Buddhist Christian relations has been and ought to be done. The Routledge Handbook of Buddhist Christian Studies is essential reading for researchers and students interested in Buddhist Christian studies Asian religions and interreligious relationships. It will be of interest to those in fields such as anthropology political science theology and history. Recent Reference Books in Religion William M. Johnston,2014-01-27 Recent Reference Books in Religion provides incisive summaries and evaluations of more than 350 contemporary reference works on religious traditions ancient and modern that have been published in English French and German. For maximum usefulness to readers Professor Johnston has broadly defined religion to include not just the world religion of Christianity Judaism Islam Hinduism and Buddhism but also such alternative approaches as mythology folklore and the philosophy of ethics. Each entry analyzing a particular work includes full bibliographic details as well as commentary. Outstanding articles and contributors are highlighted strengths and weaknesses are carefully noted and weighed. Readers are directed to volumes whose strengths and weaknesses are carefully noted and weighed. Readers are directed to volumes whose strengths complement the weaknesses of others. An indispensable guide in any religious studies collection. Recent Reference Books in Religion 2nd Edition includes works published through the end of 1997. It also includes a Glossary that describes types and functions of reference books and five indexes: Titles Authors Topics Persons and Places. *Encyclopaedia of Buddhism: World peace in nuclear age* M. Toward a Global Science Susantha Goonatilake,1998 Asian science such as mathematics Chinese printing gunpowder and the compass all contributed to the development of European science. During the last few centuries however scientific

contributions with Asian roots have diminished and been marginalized and deligitimised Yet the center of the world economy today is shifting to Asia with shifts in science and technology bound to follow Toward a Global Science is driven by the proposition that pre Renaissance acquisition of Asian knowledge did not exhaust Asian civilization s potential contribution There are many useful elements to modern science still lying hidden in Asian civilizational stores waiting to be mined The author gives details of recent contributions from South Asian medicine mathematics and psychology and explores how South Asian inputs can be useful in navigating the philosophical and ethical problems raised by two dominant technologies of the future namely biotechnology and information technology As an illustrative example it describes how a fruitful marriage of one technology virtual reality with South Asian philosophy can enliven both the technology as well as philosophy It also examines how Asian positions could be used to feed some key contemporary philosophical discussions on science Using a model of the civilizational construction of science the book views science without Eurocentric blinders It documents how science was built initially by transfers from non European civilizations and why the given historiography of science has to be rethought Throughout the book the author gives examples of parallels and antecedents between East and West in science and estimates the potential reservoir of Asian knowledge in each field The book also deals with the many knotty problems in recovering science from past traditions The author distinguishes between his secular efforts from religious and other attempts that claim the equivalence of all knowledge systems *Encyclopedia of Demons in World Religions and Cultures* Theresa Bane,2014-01-10 This exhaustive volume catalogs nearly three thousand demons in the mythologies and lore of virtually every ancient society and most religions From Aamon the demon of life and reproduction with the head of a serpent and the body of a wolf in Christian demonology to Zu the half man half bird personification of the southern wind and thunder clouds in Sumero Akkadian mythology entries offer descriptions of each demon s origins appearance and cultural significance Also included are descriptions of the demonic and diabolical members making up the hierarchy of Hell and the numerous species of demons that according to various folklores mythologies and religions populate the earth and plague mankind Very thoroughly indexed *Islam and Other Major World Religions* Kaiyume Baksh,2007-08-16 This book is intended for the average reader who would like a general introduction to the world s major religions with an emphasis on Islam All organized religions assume the existence of God as the Creator of the universe and all things in it The first chapter Is There a God inclines toward this belief and sets the stage for the next five chapters each on a major world religion The chapters Angels Miracles and Reincarnation reflect mainly the viewpoints of these religions The main focus however is on Islam Toward this end the penultimate chapter Is the Qur an God s Word attempts to answer this question in the affirmative while the final chapter is devoted to two views within Islam regarding the all important topic of Life after Death The first is the majority held view regarding belief in a soul body dualism while the second view holds that there is no soul only a body Overall the intent is to provide a springboard for further reading and discussion by the interested reader *Merriam-Webster's Encyclopedia of*

The Oxford Handbook of Eschatology Jerry L. Walls Professor of Philosophy of Religion Asbury Theological Seminary,2007-10-31 Eschatology is the study of the last things death judgment the afterlife and the end of the world Through centuries of Christian thought from the early Church fathers through the Middle Ages and the Reformation these issues were of the utmost importance In other religions too eschatological concerns were central After the Enlightenment though many religious thinkers began to downplay the importance of eschatology which in light of rationalism came to be seen as something of an embarrassment The twentieth century however saw the rise of phenomena that placed eschatology back at the forefront of religious thought From the rapid expansion of fundamentalist forms of Christianity with their focus on the end times to the proliferation of apocalyptic new religious movements to the recent and very public debates about suicide martyrdom and paradise in Islam interest in eschatology is once again on the rise In addition to its popular resurgence in recent years some of the worlds most important theologians have returned eschatology to its former position of prominence The Oxford Handbook of Eschatology will provide an important critical survey of this diverse body of thought and practice from a variety of perspectives biblical historical theological philosophical and cultural This volume will be the primary resource for students scholars and others interested in questions of our ultimate existence

The Self and the Lotus: A Jungian View of Indian Buddhism, Volume II George R. Elder,2023-05-30 It is obvious to thoughtful persons that our culture is undergoing a major transition as is our religion the carrier of values and guide to meaning It is essential therefore that we understand how religion functions when a culture is alive and well Observing how it has functioned elsewhere in another time and place is a good way to gain objectivity about the religious life And this survey of

ancient Indian Buddhism serves that purpose It is important too that we try to interpret ancient wisdom in a modern way so that it has meaning for us Thus this work on Buddhism introduces the psychology of C G Jung and demonstrates to what extent Jung knew about Buddhism how he used it to comment upon the psychology of religion in general This is the second volume of a two volume work Following the first volume s exploration of the Life of the Buddha and Early Buddhist teaching this volume explores Mahayana teaching Buddhist Philosophy and Tantra At important junctures of the discussion the author pauses to reflect from the point of view of Jungian psychology

Encyclopedia of Religion Lindsay Jones,2005 This second edition which is intended to reflect both changes in academia and in the world since 1987 includes almost all of the 2750 original entries many heavily updated as well as approximately 600 entirely new articles It emphasizes religion s role within everyday life and as a unique experience from culture to culture

Ecological Imaginations in the World Religions Tony Watling,2009-07-01 The field of religion and ecology is an emerging and growing movement that is becoming relevant and influential in the world It seeks to analyse encourage inspire use compare and combine religious traditions to engage and shape environmental issues Tony Watling seeks to ethnographically analyse this important field and its expressions In particular he analyses and compares its explorations of different world religions for ecological themes and the resulting expressions of ecological visions in what he terms religious ecotopias idealized environmentally friendly re imaginings of nature and humanity and correspondingly religion which seek to influence environmental attitudes
