## Encyclopedia Of Food And Culture Volume 2:

### **Food Production to Nuts**, 2003      The Taking and Displaying of Human Body Parts as Trophies by Amerindians

Richard J. Chacon, David H. Dye, 2007-08-21 This edited volume mainly focuses on the practice of taking and displaying various body parts as trophies in both North and South America The editors and contributors which include Native Peoples from both continents examine the evidence and causes of Amerindian trophy taking Additionally they present objectively and discuss dispassionately the topic of human proclivity toward ritual violence This book fills the gap in literature on this subject

**The World of Soy** Christine M. Du Bois, Chee-Beng Tan, Sidney Mintz, 2008-08-04 A lively discussion of soy production and consumption      **The Ethics of Anthropology and Amerindian Research** Richard J. Chacon, Rubén G.

Mendoza, 2011-12-15 The decision to publish scholarly findings bearing on the question of Amerindian environmental degradation warfare and or violence is one that weighs heavily on anthropologists This burden stems from the fact that documentation of this may render descendant communities vulnerable to a host of predatory agendas and hostile modern forces Consequently some anthropologists and community advocates alike argue that such culturally and socially sensitive and thereby politically volatile information regarding Amerindian induced environmental degradation and warfare should not be reported This admonition presents a conundrum for anthropologists and other social scientists employed in the academy or who work at the behest of tribal entities This work documents the various ethical dilemmas that confront anthropologists and researchers in general when investigating Amerindian communities The contributions to this volume explore the ramifications of reporting and specifically of non reporting instances of environmental degradation and warfare among Amerindians Collectively the contributions in this volume which extend across the disciplines of archaeology anthropology ethnohistory ethnic studies philosophy and medicine argue that the non reporting of environmental mismanagement and violence in Amerindian communities generally harms not only the field of anthropology but the Amerindian populations themselves      The Cambridge History of Nationhood and Nationalism: Volume 2, Nationalism's Fields of Interaction Cathie

Carmichael, Matthew D'Auria, Aviel Roshwald, 2023-11-09 This major new reference work with contributions from an international team of scholars provides a comprehensive account of ideas and practices of nationhood and nationalism from antiquity to the present It considers both continuities and discontinuities engaging critically and analytically with the scholarly literature in the field In volume II leading scholars in their fields explore the dynamics of nationhood and nationalism s interactions with a wide variety of cultural practices and social institutions in addition to the phenomenon s crucial political dimensions The relationships between imperialism and nationhood nationalism and between major world religions and ethno national identities are among the key themes explained and explored The wide range of case studies from around the world brings a truly global comparative perspective to a field whose study was long constrained by Eurocentric assumptions      *Heritage Cuisines* Dallen J. Timothy, 2015-11-19 Food is one of the most fundamental elements of culture

and a significant marker of regional and ethnic identity. It encompasses many other elements of cultural heritage beyond the physical ingredients required for its production. These include folklore, religion, language, familial bonds, social structures, environmental determinism, celebrations and ceremonies, landscapes, culinary routes, smells and tastes to name but a few. However, despite all that is known about foodways and cuisine from hospitality, gastronomical, supply chain and agricultural perspectives, there still remains a dearth of consolidated research on the wide diversity of food and its heritage attributes and contexts. This edited volume aims to fill this void by consolidating into a single volume what is known about cuisines and foodways from a heritage perspective and to examine and challenge the existing paradigms, concepts and practices related to gastronomic practices, intergenerational traditions, sustainable agriculture, indigenous rituals, immigrant stories and many more heritage elements as they pertain to comestible cuisines and practices. The book takes a global and thematic approach in examining heritage cuisines from a wide range of perspectives including agriculture, hunting and gathering, migration, ethnic identity and place, nationalism, sustainability, colonialism, food diversity, religion, place making, festivals and contemporary movements and trends. All chapters are rich in empirical examples but steady and sound in conceptual depth. This book offers new insight and understanding of the heritage implications of cuisines and foodways. The multidisciplinary nature of the content will appeal to a broad academic audience in the fields of tourism, gastronomy, geography, cultural studies, anthropology and sociology.

**Ethnic American Cooking** Lucy M. Long, 2016-07-15 *Ethnic American Cooking: Recipes for Living in a New World* is much more than a cookbook. It contains recipes from almost every nationality or ethnicity residing in the US and includes a brief introduction to understanding how those recipes represent that group's food culture. It illustrates the ways in which recipes like identities are fluid, adapting to new ingredients, tastes and circumstances and are adjusted to continue to carry meaning or perhaps acquire new ones. The book is based on the two-volume *Ethnic American Food Today: A Cultural Encyclopedia* which looked at the way ethnic groups in the US eat. Here the recipes of the varied groups are brought together for the adventurous chef, the curious reader and the casual cook alike. The recipes have been tested for use in modern American home kitchens with ingredients that can be found in most supermarkets. Substitutions and options are also suggested where needed. The dishes range from gourmet to everyday and offer a taste of the myriad ethnic culinary cultures in the US.

Regionalism and Modern Europe Xosé M. Núñez Seixas, Eric Storm, 2018-12-13 Providing a valuable overview of regionalism throughout the entire continent, *Regionalism in Modern Europe* combines both geographical and thematic approaches to examine the origins and development of regional movements and identities in Europe from 1890 to the present. A wide range of internationally renowned scholars from the USA, the UK and mainland Europe are brought together here in one volume to examine the historical roots of the current regional movements and to explain why some of them (Scotland, Catalonia and Flanders among others) evolve into nationalist movements and even strive for independence while others (Brittany, Bavaria) do not. They look at how regional identities

through regional folklore language crafts dishes beverages and tourist attractions were constructed during the 20th century and explore the relationship between national and subnational identities as well as regional and local identities The book also includes 7 images 7 maps and useful end of chapter further reading lists This is a crucial text for anyone keen to know more about the history of the topical and at times controversial subject of regionalism in modern Europe

**Food Cultures of the World Encyclopedia** Ken Albala, 2011 How much can we learn about a different culture from its food choices in terms of local produce preparation and eating habits In this comprehensive four volume reference work Ken Albala and a team of dedicated food scholars show how we can begin to understand the ways different cultures are formed and shaped by eating practices and behaviours Volume II shines a spotlight on the Americas and tracks systematically through a spread of the countries in the region For each country featured there is a Food Culture Snapshot an expose of the Major Foodstuffs Cooking Typical Meals Eating Out practices where relevant and entries on Special Occasions Diet and Health as well as region specific traditional recipes In this volume observations range from how the Catholic calendar affect eating habits in Argentina to details of the impact of the introduction of new foodways to native Hawaiians health Through the presentation of these aspects of cuisine and food related habits together Albala et al move towards a theory of food culture Accessibly written and vastly wide ranging in scope the volume is dotted throughout with exciting recipes for the reader to try and provides a definitive foundation for anyone seeking to understand how a spotlight on food can bring together the numerous threads that compose a society Bloomsbury Publishing

**Race and Repast** Urszula Niewiadomska-Flis, 2022-12-15 Race and Repast Foodscapes in Twentieth Century Southern Literature examines the literary foodscapes of the American South from Jim Crow era kitchens where White and Black Southerners reacted against racial mores to the public dining spaces where Southerners probed the limits of racial identity to the lunch counters that became touchstones of the Black Freedom movement Mining literary texts by iconic authors like Ernest Gaines and Walker Percy to demonstrate that food reflects and refracts power Urszula Niewiadomska Flis wields food studies as a revelatory lens through which to view a radically segregated society that was often on the cusp of violence Niewiadomska Flis also provides a rich and succinct introduction to scholarship in Southern studies and food studies making Race and Repast a compelling read that offers countless insights to experts as well as readers exploring these areas of research for the first time
