Encyclopaedia of Religion and Ethics: Burial-Confessions James Hastings, John Alexander Selbie, 1913

Encyclopedia of Religion and Ethics, Vol. 3 James Hastings, 2018-08-22 Excerpt from Encyclopedia of Religion and Ethics Vol 3 Burial Confessions This term originally employed only for the beliefs of the north east of Europe and of Asia has in comparatively recent times received an extended signification which has been adhered to in the work of the Moscow scholar Mikhailovski on this subject a work which unfortunately has not been completed Taking a general ethnological point of view he includes as Shamanism the beliefs of the American Indians and the aborigines of Africa Polynesia etc Without here entering into an unsuitable polemic we shall merely remark that for convenience sake and to be strictly methodical we shall speak of Shamanism only in the restricted sense of the word We do not dispute that in the New World and in southern countries we meet with forms of belief at the same stage of development as contemporary Shamanism but indeed we also know that there exists a whole series of monotheistic religions whose monotheism does not prevent their differing from one another in their conceptions about the Deity and His relations to men and to the world in ritual forms of worship and ideas about the destiny of mankind etc One must not lose sight of the fact that in the various beliefs of the Siberian tribes a very close connexion is noticeable and likewise there can be observed an uninterrupted identity in the foundations of their mythology and in their rites even extending as far as the nomenclature all of which gives one the right to suppose that these beliefs are the result of the joint work of the intellectual activity of the whole north of Asia The Buriat Shamanism is one of the most highly developed forms but in order to elucidate certain rites and beliefs we must draw parallels from other Shaman beliefs About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Ecocritical Shakespeare Lynne Bruckner, Dan Brayton, 2016-04-29 Can reading writing about and teaching Shakespeare contribute to the health of the planet To what degree are Shakespeare's plays anthropocentric or ecocentric What is the connection between the literary and the real when it comes to ecological conduct This collection engages with these pressing questions surrounding ecocritical Shakespeare in order to provide a better understanding of where and how ecocritical readings should be situated The volume combines multiple critical perspectives juxtaposing historicism and presentism as well as considering ecofeminism and pedagogy and addresses such topics as early modern flora and fauna and the neglected areas of early modern marine ecology and oceanography Concluding with an assessment of the challenges and necessities of teaching Shakespeare ecocritically *Ecocritical Shakespeare* not only

broadens the implications of ecocriticism in early modern studies but represents an important contribution to this growing field The Biblical World William Rainey Harper, Ernest DeWitt Burton, Shailer Mathews, 1911 Books for New Testament study By Clyde Weber Votaw v 26 p 271 320 v 37 p 289 352 *Books for New Testament Study* Clyde Weber Votaw, 1911
