Encoded Archival Description On The Internet:

Encoded Archival Description on the Internet Wendy Duff, Daniel V Pitti, 2002-01-23 Archivists and librarians here is the perfect introduction to archival description and its latest technological applications Encoded Archival Description on the Internet introduces a variety of perspectives that will assist you in deciding whether EAD is an appropriate tool in a given context and if it is provides the knowledge you need to begin planning organizing and implementing projects and programs in your library This informative book shows how archival description differs from bibliographic description presents EAD as a standard and shows its relation to the MARC format and other standards discusses implementation issues examines museum use of EAD gives you an overview of the history of the development of EAD explores the reference implications of EAD discusses implications for nontraditional users examines the concept of union universal access to archives EAD version 1 0 was formally released by the Society of American Archivists and the Library of Congress Network Development and MARC Standards Office in autumn 1998 Since then a great number of institutions have invested significant time and money to prepare for implementation of EAD programs The most compelling reason for EAD s success is that in the words of Editors Pitti and Duff Archivists recognize in EAD their shared principles and practice and have embraced EAD not as a full realization of all of their expectations but as common ground upon which they can negotiate and realize the future of one of the profession s central responsibilities Encoded Archival Description on the Internet shows how EAD will not only benefit the public but also librarians and archivists It describes how information professionals will now be able to easily share information about complementary records and collections and to virtually integrate collections related by provenance but dispersed administratively or by geographic distance

Encoded Archival Description on the Internet Wendy Duff, Daniel V Pitti, 2024-12-20 Archivists and librarians here is the perfect introduction to archival description and its latest technological applications Encoded Archival Description on the Internet introduces a variety of perspectives that will assist you in deciding whether EAD is an appropriate tool in a given context and if it is provides the knowledge you need to begin planning organizing and implementing projects and programs in your library This informative book shows how archival description differs from bibliographic description presents EAD as a standard and shows its relation to the MARC format and other standards discusses implementation issues examines museum use of EAD gives you an overview of the history of the development of EAD explores the reference implications of EAD discusses implications for nontraditional users examines the concept of union universal access to archives EAD version 1 0 was formally released by the Society of American Archivists and the Library of Congress Network Development and MARC Standards Office in autumn 1998 Since then a great number of institutions have invested significant time and money to prepare for implementation of EAD programs The most compelling reason for EAD s success is that in the words of Editors Pitti and Duff Archivists recognize in EAD their shared principles and practice and have embraced EAD not as a full realization of all of their expectations but as common ground upon which they

can negotiate and realize the future of one of the profession's central responsibilities. Encoded Archival Description on the Internet shows how EAD will not only benefit the public but also librarians and archivists. It describes how information professionals will now be able to easily share information about complementary records and collections and to virtually integrate collections related by provenance but dispersed administratively or by geographic distance. Gegen die Barbarei der Zivilisation, 2002 [Currents of Archival Thinking](#) Heather MacNeil, Terry Eastwood, 2017-01-09 With new technologies and additional goals driving their institutions, archives are changing drastically. This book shows how the foundations of archival practice can be brought forward to adapt to new environments while adhering to the key principles of preservation and access. Archives of all types are experiencing a resurgence, evolving to meet new environments, digital and physical, and new priorities. To meet those changes, professional archivist education programs, now one of the more active segments of LIS schools, are proliferating as well. This book identifies core archival theories and approaches and how those interact with major issues and trends in the field. The essays explore the progression of archival thinking today, discussing the nature of archives in light of present-day roles for archivists and archival institutions in the preservation of documentary heritage. Examining new conceptualizations and emerging frameworks through the lenses of core archival practice and theory, the book covers core foundational topics such as the nature of archives, the ruling concept of provenance, and the principal functions of archivists, discussing each in the context of current and future environments and priorities. Several new essays on topics of central importance, not treated in the first edition, are included, such as digital preservation and the influence of new technologies on institutional programs that facilitate archival access, advocacy and outreach, the changing legal context of archives and archival work, and the archival collections of private persons and organizations. Readers will also learn how communities of various kinds intersect with the archival mission and how other disciplines' perspectives on archives can open new avenues.
