Meng Lai, 2013-08-22 Despite flourishing economic interactions and deepening interdependence the current political and diplomatic relationship between Japan and China remains lukewarm at best Indeed bilateral relations reached an unprecedented nadir during the spring of 2005 and again more recently in autumn 2012 as massive anti Japanese demonstrations across Chinese cities elicited corresponding incidents of popular anti Chinese reprisal in Japan This book systematically explores the complex dynamics that shape contemporary Japanese Chinese relations In particular it analyses the so called revival of nationalism in post Cold War Japan its causality in redefining Japan s external policy orientations and its impact on the atmosphere of the bilateral relationship Further by adopting a neoclassical realist model of state behaviour and preferences Lai Yew Meng examines two highly visible bilateral case studies the Japanese Chinese debacle over prime ministerial visits to Yasukuni Shrine and the multi dimensional dispute in the East China Sea which comprises the Senkaku Diaoyudao territorial row alleged Chinese maritime incursions and bilateral competition for energy resources Through these examples this book explores whether nationalism really matters when and under what circumstances nationalism becomes most salient and the extent to which the emotional dimensions of nationalism manifest most profoundly in Japanese state elites policy decision making This timely book will be of great interest to students and scholars of both Japanese and Chinese politics as well as those interested in international relations nationalism foreign policy and security studies more broadly

Literature and Culture Ellie D. Hernández, 2010-01-01 In recent decades Chicana o literary and cultural productions have dramatically shifted from a nationalist movement that emphasized unity to one that openly celebrates diverse experiences Charting this transformation Postnationalism in Chicana o Literature and Culture looks to the late 1970s during a resurgence of global culture as a crucial turning point whose reverberations in twenty first century late capitalism have been profound Arguing for a postnationalism that documents the radical politics and aesthetic processes of the past while embracing contemporary cultural and sociopolitical expressions among Chicana o peoples Hernández links the multiple forces at play in these interactions Reconfiguring text based analysis she looks at the comparative development of movements within women s rights and LGBTQI activist circles Incorporating economic influences this unique trajectory leads to a new conception of border studies as well rethinking the effects of a restructured masculinity as a symbol of national cultural transformation Ultimately positing that globalization has enhanced the emergence of new Chicana o identities Hernández cultivates important new understandings of borderlands identities and postnationalism itself
