Art History After Modernism Hans Belting, 2003-08 Art history after modernism does not only mean that art looks different today it also means that our discourse on art has taken a different direction if it is safe to say it has taken a direction at all So begins Hans Belting s brilliant iconoclastic reconsideration of art and art history at the end of the millennium which builds upon his earlier and highly successful volume *The End of the History of Art* Known for his striking and original theories about the nature of art according to the Economist Belting here examines how art is made viewed and interpreted today Arguing that contemporary art has burst out of the frame that art history had built for it Belting calls for an entirely new approach to thinking and writing about art He moves effortlessly between contemporary issues the rise of global

and minority art and its consequences for Western art history installation and video art and the troubled institution of the art museum and questions central to art history's definition of itself such as the distinction between high and low culture art criticism versus art history and the invention of modernism in art history Forty eight black and white images illustrate the text perfectly reflecting the state of contemporary art With Art History after Modernism Belting retains his place as one of the most original thinkers working in the visual arts today

Iconoclasm in Aesthetics Michael Kelly, 2003-09-04 Contemporary theorizing about art is dominated by a clash between two approaches philosophers have characteristically taken the view that art is a vehicle of some universal meaning or truth while art historians and others working in the

humanities emphasize the concrete nature and historical particularity of the work of art Is art capable of sustaining these two approaches Or as Kelly argues is art rather determined by its historical particularity If so then if philosophers continue to pursue mainly the universality of art they inadvertently end up exhibiting a disinterest and distrust in art Kelly calls such disinterest and distrust iconoclasm and in this book he discusses four philosophers Heidegger Adorno Derrida and Danto who are ultimately iconoclasts despite their deep philosophical engagement with the arts He concludes by suggesting ways in which iconoclasm in aesthetics can be avoided in the future Archaeologies of Vision Gary Shapiro,2003-05-15 While many acknowledge that Friedrich Nietzsche and Michel Foucault have redefined our notions of time and history few recognize the crucial role that the infinite relation between seeing and saying plays in their work Shapiro reveals the full extent of Nietzsche and Foucault s concern with the visual *Rediscovering Aesthetics* Francis Halsall,Julia Alejandra Jansen,Tony O'Connor,2009 Rediscovering Aesthetics brings together prominent international voices from art history philosophy and artistic practice who reflect on current notions functions and applications of aesthetics in their distinctive fields
