A Survey of Catholic Literature Stephen James Meredith Brown, Thomas McDermott, 1961 The Catholic Encyclopedia Charles G. Herbermann, Catholic Way Publishing, 2014-01-25 THE CATHOLIC ENCYCLOPEDIA AN INTERNATIONAL WORK OF REFERENCE ON THE CONSTITUTION DOCTRINE DISCIPLINE AND HISTORY OF THE CATHOLIC CHURCH CHARLES G HERBERMANN The Greatest and Largest Catholic Encyclopedia in existence Complete Edition Includes all 16 Volumes now updated according to Alphabet 11 490 Articles over 14 Million Words equivalent to 175 Full length Books Includes an Active Index to each Alphabet and all Articles with NCX Navigation Includes Illustrations by Gustave Dore Publisher This E Book is very large Please ensure you have sufficient resources on your device before purchase The Catholic Encyclopedia as its name implies proposes to give its readers full and authoritative information on the entire cycle of Catholic interests action and doctrine What the Church teaches and has taught what she has done and is still doing for the highest welfare of mankind her methods past and present her struggles her triumphs and the achievements of her members not only for her own immediate benefit but for the broadening and deepening of all true science literature and art all come within the scope of the Catholic Encyclopedia It differs from the general encyclopedia in omitting facts and information which have no relation to the Church On the other hand it is not exclusively a church encyclopedia nor is it limited to the ecclesiastical sciences and the doings of churchmen It records all that Catholics have done not only in behalf of charity and morals but also for the intellectual and artistic development of mankind It chronicles what Catholic artists

educators poets scientists and men of action have achieved in their several provinces In this respect it differs from most other Catholic encyclopedias The Editors are fully aware that there is no specifically Catholic science that mathematics physiology and other branches of human knowledge are neither Catholic Jewish nor Protestant but when it is commonly asserted that Catholic principles are an obstacle to scientific research it seems not only proper but needful to register what and how much Catholics have contributed to every department of knowledge Designed to present its readers with the full body of Catholic teaching the Encyclopedia contains not only precise statements of what the Church has defined but also an impartial record of different views of acknowledged authority on all disputed questions In all things the object of the Encyclopedia is to give the whole truth without prejudice national political or factional In the determination of the truth the most recent and acknowledged scientific methods are employed and the results of the latest research in theology philosophy history apologetics arch ology and other sciences are given careful consideration The work is entirely new and not merely a translation or a compilation from other encyclopedia sources The Editors have insisted that the articles should contain the latest and most accurate information to be obtained from the standard works on each subject Contributors have been chosen for their special knowledge and skill in presenting the subject and they assume the responsibility for what they have written Representing as they do Catholic scholarship in every part of the world they give the work an international character
