Japanese America on the Eve of the Pacific War Kaoru Ueda, Eiichiro Azuma, 2024-02-01 The era sandwiched between the 1924 US Immigration Act and the 1941 Japanese attack on Pearl Harbor marks an important yet largely buried period of Japanese American history This book offers the first English translation of Yasuo Sakata's seminal essay arguing that the 1930s constitutes a chronological and conceptual missing link between two predominant research interests the pre 1924 immigration exclusion and the mass incarceration of Japanese Americans during World War II The anthology pays tribute to Sakata's role as a foremost historian of early Japanese America and transpacific migration while providing an opportunity for a younger generation of scholars to reflect on his contributions and carve out a new area of research in Japanese American history Original and translated essays from scholars of varied backgrounds and generations explore topics from diplomacy geopolitics and trade to immigrant and ethnic nationalism education and citizenship Together they attempt to catalyze further research and writing based on the thorough and careful analysis of primary source materials an effort that Sakata spearheaded in both the United States and Japan

Postwar Emigration to South America from Japan and the Ryukyu Islands Pedro Iacobelli, 2017-07-13 Placing a distinct focus on the role of the sending

state this book examines the history of postwar Japan's migration policy linking it to the larger question of statehood and nation building in the postwar era Pedro Iacobelli delves into the role of states in shaping migration flows by exploring the genesis of the state led emigration from Japan and the US administered Ryukyu Islands to South America in the mid 20th century The study proposes an alternative political perspective on migration history to analyze the rationale and mechanisms behind the establishment of migration programs by the sending state To develop this perspective the book examines the state's emigration policies their determinants and their execution for the Japanese and Okinawan migration programs to Bolivia in the 1950s It argues that the post war migration policies that established those migration flows were a result of the political cost benefit calculations rather than only economic factors of the three governments involved With its unique focus on the role of the sending state and the relationship between Japan Okinawa and the United States this is a valuable study for students and scholars of postwar Japan and migration history
