Encyclopedia Year 1978:

Encyclopedia year book, 1978 *Illustrated World Encyclopedia : 1978 Book-of-the-year*, 1978 *Entrepreneurship* Stefan Kwiatkowski, 2017-07-28 Entrepreneurship is the capability to be an entrepreneur Beyond that idea is an ideology that a person's business actions result in industrial growth or technical advances making that person a leader in the economic world The contributors to this latest volume in the Praxiology Series now available in paperback are united in claiming that resourcefulness is a characteristic of people who take effective action and that effectiveness is dependent on good ethical purposes The wide angle definition of entrepreneurship presented in this volume demands that people and organizations engage in more than simple self interest but also display awareness of the prospects for wider growth and advances resulting from their decisions In a period of financial crisis caused by irresponsible behavior by eminent would be entrepreneurs the significance of this perspective should be evident The editors claim that growth not stagnation advantage not decline are irreversible traits of business activity This is why the very concept of entrepreneurship calls for values and responsibility even more than in the past The contributors develop the idea of entrepreneurship from both theoretical approaches religious and practical or applied perspectives This inter and multidisciplinary approach offers readers a chance to rebuild trust in entrepreneurship *National Information System in Education* S. L. Verma, 1996 *Encyclopedia Buying Guide* Kenneth F. Kister, 1981 Buyer's guide comprising a comparison and book reviews of English language encyclopaedias includes the evaluation techniques used and directory of the publishing and book trades in Canada the USA and UK Bibliography pp 512 to 156 *Encyclopedia of Social and Cultural Anthropology* Dr Alan Barnard, 2002-09-11 This Encyclopedia provides description and analysis of the terms concepts and issues of social and cultural anthropology International in authorship and coverage this accessible work is fully indexed and cross referenced *Encyclopedia of the World's Minorities* Carl Skutsch, 2013-11-07 This study of minorities involves the difficult issues of rights justice equality dignity identity autonomy political liberties and cultural freedoms The A Z Encyclopedia presents the facts arguments and areas of contention in over 560 entries in a clear objective manner For a full list of entries contributors and more visit the Encyclopedia of the World's Minorities website *Equestrian Studies* Myron J. Smith, Salem College (Salem, W. Va.), 1981 No descriptive material is available for this title *Carter's Conversion* Brian J. Auten, 2008 When presidential candidate Jimmy Carter advocated defense budget cuts he did so not only to save money but also with the hope of eventually abolishing nuclear weapons Three years later when President Carter announced his support of full scale development of the MX missile and modernization of NATO's Long Range Theater Nuclear Force it marked a dramatic policy shift for his administration In light of Carter's cost cutting in the first year of his administration previous observers have attributed Carter's subsequent shift either to the shocks of 1979 the Soviet Union's move into Afghanistan and the seizure of power by Islamic revolutionaries in Iran or to domestic political pressure such as interest group activity executive legislative bargaining or interbureaucratic conflict Brian

Auten now argues that these explanations only partially explain this midterm policy change In Carter s Conversion Auten reveals how strategic ideas and studies allied relations and arms control negotiations each worked to deflect Carter s initial defense stance away from the policy path suggested by the prevailing international military environment He also shows how the administration s MX and Long Range Theater Nuclear Force decisions subsequently hardened following significant adjustments to these three variables Employing the approach to international relations known as neoclassical realism Auten demonstrates that Carter reassessed his strategic thinking and revised his policy stance accordingly Integrating declassified documents interviews and private archives with a mountain of secondary sources he provides a historical analysis of defense policy transformation over the first three years of the Carter administration and a detailed examination of how Carter and his national security team addressed challenges posed by the expansion of Soviet military power Full of rich history and cogent analysis Carter s Conversion presents a wealth of detailed arguments about how Carter adjusted his policy outlook couched in a thorough understanding of weapons arms control dynamics and defense policy making As a revision of common interpretations it provides both an example of self correcting policy change and a realist argument about the end of superpower d tente and the start of the Second Cold War
