

The background of the cover is a photograph of a modern architectural structure, likely a glass and steel canopy or bridge. The image is split horizontally. The top half shows a close-up of a white, triangular, ribbed structure with several thick, cylindrical steel rods passing through it. The bottom half shows a perspective view of a series of parallel, curved steel beams or pipes, creating a sense of depth and movement. The overall color palette is dominated by teal and blue tones.

Encyclopedia Of Architectural Technology:

Encyclopedia of Architectural Technology Pedro Guedes,1979 **Encyclopedia of Architectural Technology** Jacqueline Glass,2002-04-03 Constant technological advancements are opening up dramatic new possibilities for the built form at the same time architects are developing innovative designs which require new techniques to make these ideas reality The Encyclopedia of Architectural Technology is the first book to specifically address these two issues by providing a comprehensive reference to modern architectural technologies encompassing all key aspects of construction structures environmental design and servicing The Encyclopaedia features over 180 entries ranging from materials and techniques to notable innovators in architecture and engineering Each entry includes a brief quick reference summary followed by a more detailed text and suggestions for further reading Besides technological terms entries are included on related topics such as sick building syndrome and sustainability Key engineers Ove Arup and Ted Happold have dedicated entries as do a range of ground breaking architects such as Le Corbusier Norman Foster Walter Gropius Herzog de Meuron Oscar Niemeyer Richard Rogers Carlo Scarpa Frank Lloyd Wright Ken Yeang and many others **Encyclopedia of Architectural Technology** Pedro Guedes,1979 **Using the Engineering Literature** Bonnie A. Osif,2006-08-23 The field of engineering is becoming increasingly interdisciplinary and there is an ever growing need for engineers to investigate engineering and scientific resources outside their own area of expertise However studies have shown that quality information finding skills often tend to be lacking in the engineering profession Using the Engineerin **Using the Engineering Literature, Second Edition** Bonnie A. Osif,2011-08-09 With the encroachment of the Internet into nearly all aspects of work and life it seems as though information is everywhere However there is information and then there is correct appropriate and timely information While we might love being able to turn to Wikipedia for encyclopedia like information or search Google for the thousands of links on a topic engineers need the best information information that is evaluated up to date and complete Accurate vetted information is necessary when building new skyscrapers or developing new prosthetics for returning military veterans While the award winning first edition of Using the Engineering Literature used a roadmap analogy we now need a three dimensional analysis reflecting the complex and dynamic nature of research in the information age Using the Engineering Literature Second Edition provides a guide to the wide range of resources available in all fields of engineering This second edition has been thoroughly revised and features new sections on nanotechnology as well as green engineering The information age has greatly impacted the way engineers find information Engineers have an effect directly and indirectly on almost all aspects of our lives and it is vital that they find the right information at the right time to create better products and processes Comprehensive and up to date with expert chapter authors this book fills a gap in the literature providing critical information in a user friendly format *Architectural Technology* ,2001 **Encyclopaedia of Architecture and Technological Change** Pedro Guedes,2016-01-06 Doing Library Research Robert K. Baker,2019-03-13 Many college

students remain puzzled by card catalogs can't find books they need and fail to use many of the important resources of the library despite tours, explanations and much assistance from librarians. In this book a community college librarian provides the direction students need to utilize the resources typically found in a community college.

Publications of the American Folklife Center, 1977 History of Construction Cultures Volume 2 João Mascarenhas-Mateus, Ana Paula Pires, 2021-07-08

Volume 2 of *History of Construction Cultures* contains papers presented at the 7ICCH Seventh International Congress on Construction History held at the Lisbon School of Architecture Portugal from 12 to 16 July 2021. The conference has been organized by the Lisbon School of Architecture FAUL NOVA School of Social Sciences and Humanities, the Portuguese Society for Construction History Studies and the University of the Azores. The contributions cover the wide interdisciplinary spectrum of Construction History and consist of the most recent advances in theory and practical case studies analysis following themes such as epistemological issues, building actors, building materials, building machines, tools and equipment, construction processes, building services and techniques, structural theory and analysis, political, social and economic aspects, knowledge transfer and cultural translation of construction cultures. Furthermore, papers presented at thematic sessions aim at covering important problematics, historical periods and different regions of the globe, opening new directions for Construction History research. We are what we build and how we build; thus, the study of Construction History is now more than ever at the centre of current debates as to the shape of a sustainable future for humankind. Therefore, *History of Construction Cultures* is a critical and indispensable work to expand our understanding of the ways in which everyday building activities have been perceived and experienced in different cultures from ancient times to our century and all over the world.
