**The Secret Astrology of the Bible** Michael Ledo, 2010-05-02 The Secret Astrology of the Bible by Michael Ledo is a landmark book that will change the way the scholarly community and the general public views the Bible history and myth Epic in scope this provocative book explores the connections between religious belief and cosmic theory even as it attempts to explain contradictions and irregularities in the text The Bible states Ledo was constructed as a living

document with much of its text expanded as time went on If readers stripped away this added material they could actually be left with an Early Bronze Age text over a thousand years older than what is currently accepted by scholars This text suggests Ledo would be a veritable cosmic myth which follows the constellations with stories in a contiguous fashion that combine both history and myth Originally sold as On Earth as it is in Heaven The Cosmic Roots of the Bible *Jealous Gods and Chosen People* David Leeming,2004-03-04 Esteemed scholar David Leeming who has authored more than twelve books on mythology here offers the first comprehensive narrative study of the mythology of the Middle East that tumultuous region that was the cradle of civilization Leeming begins with a brief engaging history of the Middle East spanning Neolithic cultures the Bronze Age and the Iron Age the invention of writing and the rise of Egypt and Babylonia Israel and Roman rule and the early history of the Jews Christians and Muslims This is followed by an in depth discussion of the mythology of the region covering individual pantheons cosmic myths mythic heroes and much more Leeming ranges from prehistoric figures such as the Mother Goddess of atal H y k to Mesopotamian gods such as Marduk and mythic heroes such as Gilgamesh to the pantheon of Egyptian mythology including the falcon headed sky sun god Horus and jackal headed Anubis The author also offers an illuminating exploration of the mythology of the three great monotheistic religions of the region Judaism Christianity and Islam In a provocative Epilogue Leeming depicts today s crisis in the Middle East as violent clearly immoral and illegal actions justified by what can only be called myths He notes that fundamentalists in the area s three religions all see their way as the only way forgetting that myths represent truths that are spiritual and philosophical not historical events that can be used to justify acts of violence With key maps illustrations bibliography and index *Jealous Gods and Chosen People* provides an inclusive authoritative and captivating account of a mythology that remains a potent and often destructive force in the world today *Book Review Digest* ,1995
