s house simply because it was too late and too far to drive home Even as adults we relished those times of waking up early to drink coffee and eat waffles with a mixture of syrup and peanut butter and planning our next get together After having children of my own I was excited for them when they became old enough for sleepovers My oldest son however had reservations In fact he put his foot down about not wanting to sleep away from home without mom It took a lot of convincing to get him to work up the courage to stay overnight with a friend and even then he was home with me by midnight He simply didn't understand that sleepovers were a mile stone in a child's life Eli the elephant had reservations about staying overnight at Gerald the giraffe's house much like other children Eli's worries are the same What if Gerald doesn't have my favorite book I really miss my family In *Eli the Elephant Stays Overnight* Eli's friend Gerald helps Eli overcome those fears by distracting Eli with a fun book interesting conversation about bugs and a night light Before Eli knew it he was fast asleep at his first sleepover For some children there is a real fear being away from home for the first time I hope this book aids parents and caregivers to help children overcome their fears with patience understanding and a little adventure
