## **Elites Ethnographic Issues:**

**Elites** George E. Marcus, 1983-01-30 This book is a collection of essays focusing on the role that elites play in shaping modern societies Critiquing the treatment accorded elites as subjects in recent Western social thought the essays reflect upon past results and explore directions in the investigation of elite groups by anthropologists *Agrarian Elites* Enrico Dal Lago, 2005-11-01 Between 1815 and 1861 American slaveholders and southern Italian landowners presided over the economic and social life of two predominantly agricultural regions the U S South and Italy s Mezzogiorno Enrico Dal Lago ingeniously compares these agrarian elites demonstrating how the study of each enhances our understanding of the other as well as of their shared nineteenth century world Agrarian Elites charts the parallel developments of plantations and latifondi in relation to changes in the world economy At the same time it examines the spread of paternalistic models of family relations and of slave and free labor management that accompanied the rise of large groups of American slaveholders and southern Italian landed proprietors in the early to mid 1800s According to Dal Lago the most articulate and enlightened members of both elites combined the pursuit of profit with the implementation of modern contractual practices in dealing with their workforces Both elites also used their economic and social power for political advantage opposing the intervention of their national governments in local affairs The search for ever better protection of their respective interests in slaveholding and landed property led ultimately to their support for the creation of two nations the Confederate States of America and the Kingdom of Italy both in 1861 Dal Lago brings together two subjects that have generated considerable debate and research systems of slave and nominally free labor and the elites who employed them and nineteenth century nationalism With its pathbreaking approach and singular and comparative insights Agrarian Elites will inform not only American and Italian studies but also the very practice of comparative history **The Anthropology of Elites** J. Abbink, T. Salverda, 2012-12-28 Offering insightful anthropological historical contributions to the understanding of elites worldwide this book helps us grasp their ways of life and role in times of contested global inequalities Case studies include the Polish gentry the white former colonial elite of Mauritius professional elites and transnational financial elites *Yoruba Elites and Ethnic Politics in Nigeria* Wale Adebani, 2014-03-31 This book investigates the dynamics and challenges of ethnicity and elite politics in Nigeria **Elites** João de Pina-Cabral, Antónia Pedroso de Lima, 2020-08-28 Wealth and power characterize elites yet despite the strong cultural influences they exert their study remains underdeveloped Partly because of complications resulting from access scholars have tended to focus on groups affected by elite governance rather than on elites themselves It is often overlooked that in order to continue through time elites have to empower new members Choice has to be exercised over who achieves leadership both by reference to the elite group itself and to the wider group over which it holds power This book fills a gap in the current literature by providing the first rigorous interrogation of the choice and succession strategies of elites in various cultural contexts from the transmission and preservation of financial power in urban contexts to

the complex relation between subjectivity and the transmission of leadership positions in places as varied as the United States Northern Italy and Lisbon Various elite succession types are discussed from self avowedly traditional leaders to the aristocracy where choice is practically non existent to situations where leaders are elected from among a group of peers The relationship between familial property and choice of successor in landholding families small business enterprises and peasant communities is also examined as are ethnic monopolies

Mesoamerican Elites Diane Z. Chase, Arlen F. Chase, 2003-03-01 In Mesoamerican Elites Diane Z Chase and Arlen F Chase present a wide variety of essays all of which evaluate current archaeological knowledge of the privileged ruling classes or elites in Mesoamerica Some experts argue that Mesoamerican societies consisted only of elites and peasants while others argue that considerable intermediate social levels also existed In light of such diverse opinions this volume addresses problems in the interpretation of archaeological evidence regarding ancient Mesoamerican social structure

Elite Cultures Stephen Nugent, Cris Shore, 2003-12-16 Drawing on a diverse comparative ethnographic literature this new volume examines the intimate spaces and cultural practices of those elites who occupy positions of power and authority across a variety of different settings Using ethnographic case studies from a wide range of geographical areas including Mexico Peru Amazonia Indonesia Sri Lanka Europe North America and Africa the contributors explore the inner worlds of meaning and practice that define and sustain elite identities They also provide insights into the cultural mechanisms that maintain elite status and into the complex ways that elite groups relate to and are embedded within wider social and historical processes

Brazilian Elites and their Philanthropy Jessica Sklair, 2021-11-04 This book explores the philanthropy of Brazilian elites during a key period in recent Brazilian history from Workers Party president Lula s last term in office through to the election of far right president Jair Bolsonaro Against this backdrop of political upheaval the book asks what philanthropy can reveal about the role of corporate and wealth elites in upholding the structures of socioeconomic inequality that continue to define Brazilian society The book argues that around the world the private sector s growing engagement in international development has led to the emergence of a global philanthropic project centred on practices of philanthrocapitalism and social finance which ultimately seeks to legitimise global capitalism and the elite interests it serves Drawing on an in depth and wide ranging ethnographic study among philanthropists and their advisors in over 30 Brazilian foundations and intermediary organisations the book combines a structural critique of the capitalist ideologies underlying philanthropic practice with a robust exploration into the ways in which wealthy Brazilians appropriate philanthropy directly to legitimise elite reproduction and the accumulation of wealth Researchers across Latin American studies development studies and the anthropology of development will find this book a timely contribution to the under researched areas of elite studies and the study of philanthropy

Elites and the Politics of Accountability in Africa Wale Adebani, Rogers Orock, 2021-05-24 Elites and the Politics of Accountability in Africa examines the ways that accountability offers an effective interpretive lens to the social cultural and institutional struggles of both the elites and

ordinary citizens in Africa Each chapter investigates questions of power its public deliberation and its negotiation in Africa by studying elites through the framework of accountability The book enters conversations about political subjectivity and agency especially from ongoing struggles around identities and belonging as well as representation and legitimacy Who speaks to whom And on whose behalf do they speak The contributors to this volume offer careful analyses of how such concerns are embedded in wider forms of cultural social and institutional discussions about transparency collective responsibility community and public decision making processes These concerns affect prospects for democratic oversight as well as questions of alienation exclusivity privilege and democratic deficit The book situates our understanding of the emergence meaning and conceptual relevance of elite accountability to study political practices in Africa It then juxtaposes this contextualization of accountability in relation to the practices of African elites Elites and the Politics of Accountability in Africa offers fresh dynamic and multifarious accounts of elites and their practices of accountability and locally plausible self legitimation as well as illuminating accounts of contemporary African elites in relation to their socially and historically situated outcomes of contingency composition negotiation and compromise

**Ethnographies of 'On Demand' Films** Alex Vailati, Gabriela Zamorano Villarreal, 2021-09-30 Over the last two decades the advent of cheap user friendly video technologies has contributed to a revolution in representational agency Videos are now made by production units that are at times composed of families churches musical groups community associations or other institutions Thus on demand videos produced and distributed within local and atypical networks profoundly shape contemporary urban imaginaries This book explores the intertwined relations among infrastructure technology and modernity through an ordinary yet little studied field of on demand audiovisual production which involves processes of negotiation and interaction between clients and commissioned video makers On demand films are considered as a space of collaboration and self representation that allows to reflect on the potential of fiction artifice and montage to render material desires aspirations and ideas of the future

**The Rise of Africa's Middle Class** Henning Melber,2016-12-15 Across Africa a burgeoning middle class has become the poster child for the Africa rising narrative Ambitious aspirational and increasingly affluent this group is said to embody the values and hopes of the new Africa with international bodies ranging from the United Nations Development Programme to the World Bank regarding them as important agents of both economic development and democratic change This narrative however obscures the complex and often ambiguous role that this group actually plays in African societies Bringing together economists political scientists anthropologists and development experts and spanning a variety of case studies from across the continent this collection provides a much needed corrective to the received wisdom within development circles and provides a fresh perspective on social transformations in contemporary Africa Elites, Nonelites, and Power Rebecca Jean Emigh,Dylan Riley,2024-11-28 Bringing together cutting edge multidisciplinary papers that weigh in on central issues of the world and social science the collection consider power elites and nonelites in a new inclusive way drawing in researchers who deal with topics central to elite theory but who might not be represented in more classic statements of it *Middle Classes in Africa* Lena Kroeker,David O'Kane,Tabea Scharrer,2018-02-19 This volume challenges the concept of the new African middle class with new theoretical and empirical insights into the changing lives in Sub Saharan Africa Diverse middle classes are on the rise but models of class based on experiences from other regions of the world cannot be easily transferred to the African continent Empirical contributions drawn from a diverse range of contexts address both African histories of class formation and the political roles of the continent s middle classes and also examine the important interdependencies that cut across inter generational urban rural and class divides This thought provoking book argues emphatically for a revision of common notions of the middle class and for the inclusion of insights from the South into the global debate on class Middle Classes in Africa will be of interest to students and scholars across a range of disciplines as well as NGOs and policy makers with an interest in African societies *The Palgrave Handbook of Political Elites* Heinrich Best,John Higley,2017-11-08 This handbook presents a comprehensive view of the current theory and research surrounding political elites which is now a pivotal subject for academic study and public discourse In 40 chapters by leading scholars it displays

the field's richness and diversity. The handbook is organized in six sections each introduced by a co-editor focusing on theories about political elites, methods for studying them, their main structural and behavioral patterns worldwide, the differentiation and integration of political elite sectors, elite attributes and resources, and the dilemmas of political elites in this century. **Polygamous Marriages in Peninsular Malaysia** Norani Othman, Yaso Nadarajah, Rozana Mohd Isa, 2025-04-28. This book presents the first national study of the practice of polygamy undertaken amongst Malay Muslims, contextualised within the broader social, legal, and political context of Malaysia. A collaboration between the Sisters in Islam NGO and three universities in Malaysia, it examines the perspectives of both men and women through quantitative and qualitative data analysis of over 1,200 surveys and more than 60 in-depth interviews, charting the legal, financial, social, and emotional impacts of polygamy. It incorporates both progressive Islamic scholarly thought and the unique sociologically rich perspectives of the study respondents. In doing so, the data serves to strengthen advocacy for awareness and law reforms within Islamic jurisprudence frameworks and institutions. As one of the most comprehensive surveys ever conducted on polygamy in a Muslim society, this represents a major tour de force within a little-explored field with tremendous potential for societal impact. This book is relevant to academics and graduate students seeking a deeper understanding of the issues related to Muslim polygamous marriage and to researchers within the broader fields of gender studies, family studies, Islamic studies, and Islamic legal studies. It is also a landmark resource for activists and policymakers seeking to advocate on behalf of marginalised groups, particularly women and children in polygamous families.
