Elites et représentations politiques Jean-Pascal Daloz, 2002 , **Elites: New Comparative Perspectives**

Masamichi Sasaki, 2007-12-31 Elites come in many forms and express themselves in an extraordinary variety of ways This collection reflects just that diversity From an overview of elites for the relatively uninitiated to comparative studies of elites in individual national social and political contexts this work is both historical and contemporary and encompasses a variety of case studies of elite individuals as well as elites in a broad range of national and political environments All this is intended to assist those interested in the study of elites from historical and contemporary theoretical and empirical perspectives

Ultimately this volume suggests many opportunities for further study and research **The Contested Status of Political**

Elites Lars Vogel, Ronald Gebauer, Axel Salheiser, 2018-07-17 Contemporary Western societies are witnessing ground breaking social economic and political changes at an accelerating pace These changes are challenging the way democracy works and the role that political elites play in this system of government Using a theoretical and empirical approach this volume argues that political elites are urged to develop new strategies in order to achieve interest aggregation to safeguard collective action and to maintain elite autonomy and stability The adaptive capacities of political elites are assessed through case studies comparative and longitudinal analyses of their social structure their recruitment patterns and their attitudes The book includes contributions from reputable scholars in the field of elite research and specialists on individual political systems across Europe and the US It provides an analytical framework demonstrating that political elites are inevitable and potentially able to respond successfully to varying challenges The book will be of key interest to scholars and students of political elites democracy comparative politics political participation and European Politics **Political Mistrust and the**

Discrediting of Politicians , 2005-09-01 This book prepared under the auspices of the ISA research committee on Comparative Sociology focuses on a worldwide phenomenon political mistrust observable in almost all countries in both established democracies and in authoritarian regimes But ubiquity does not signify uniformity The diversity of political regimes generates a multiplicity of forms and intensities of mistrust Political mistrust seems inherent even in advanced democracies and in semi democracies where citizens are better prepared and more prone to criticize the dysfunctions of institutions and condemn the misconduct of politicians Political mistrust is greatly nourished in many countries by a wide practice of public corruption Of particular sociological interest is the vulnerability of political elites and of their frequent condemnation to civil death **The Sociology of Elite Distinction** J. Daloz, 2009-11-18 This major new contribution to the study of consumption examines how dominant groups express and display their sense of superiority through material and aesthetic attributes demonstrating that differences from one society to another and across historical periods challenge current understandings of elite distinction *Elite Configurations at the Apex of Power* Mattei Dogan, 2002-12-01 This book prepared under the auspices of the IPSA Research Committee on Political Elites focuses on the interpenetration between

various types of elites politicians owners of capital corporate managers higher state administrators directors of public enterprises controllers of media military officers and the civic cultural establishment The contributions to this book reveal contrasting patterns of recruitment and selection in terms of career paths visibility influence and power of different elite circles This diversity of national elite configurations challenges the C Wright Mills theory of an integrated power elite which appears from a comparative perspective to be peculiar to the United States during the early post war period Key concepts are discussed and empirically tested ruling class political class elite circulation versus elite reproduction elite interpenetration elite interlocks elite cohesion elite osmosis functional elite roles formal and informal networks elite cousinhood separation versus overlapping between wealth and power and between power and social capital The book covers a great variety of countries post industrial democracies France Britain Germany Canada new democracies East Central Europe Mexico and modernizing regimes Southeast Asia Tropical Africa presented by an international selection of distinguished contributors Andras Bozoki Roderic Camp William Case Jean Pascal Daloz Mattei Dogan Dennis Kavanagh Michael Ornstein David Richards Erwin Scheuch and John Scott *The Palgrave Handbook of Political Elites* Heinrich Best, John Higley, 2017-11-08 This handbook presents a comprehensive view of the current theory and research surrounding political elites which is now a pivotal subject for academic study and public discourse In 40 chapters by leading scholars it displays the field's richness and diversity The handbook is organized in six sections each introduced by a co editor focusing on theories about political elites methods for studying them their main structural and behavioral patterns worldwide the differentiation and integration of political elite sectors elite attributes and resources and the dilemmas of political elites in this century Forty years since Robert Putnam's landmark *Comparative Study of Political Elites* this handbook is an indispensable resource for scholars and students engaged in the study of this vibrant field *La représentation politique* Jean-Pascal Daloz, 2017-04-05 La question de la représentation est un objet central d'interrogation pour la science politique Cet ouvrage propose une synthèse de la représentation politique basée sur trois grandes dimensions la tradition philosophique la représentation des intérêts et la mise en scène de cette représentation Pour cela il traite des mandats de l'indépendance de la relation de représentation dans les régimes démocratiques ou autoritaires de la légitimation des représentants de la crise de la représentation politique des dimensions théoriques de celle-ci et de l'équilibre entre minence et proximité **The Oxford Handbook of Politics and Performance** Shirin Rai, Milija Gluhovic, Silvija Jestrovic, Michael Saward, 2021 While political scientists and political theorists have long been interested in social and political performance and theatre and performance researchers have often focused on the political dimensions of the live arts the interdisciplinary nature of this labor has typically been assumed rather than rigorously explored This volume brings together leading scholars in the fields of Politics and Performance drawing on experts across the fields of literature law anthropology sociology psychology and media and communication as well as politics and theatre and performance to map out and deepen the evolving interdisciplinary

engagement Organized into seven thematic sections the volume investigates the relationship between politics and performance to show that certain features of political transactions shared by performances are fundamental to both disciplines and that to a large extent they also share a common communicational base and language

Islam et politique au Nigeria Alhadji Bouba Nouhou, 2005 Le Nigeria est l'état le plus peuplé d'Afrique Il est considéré par certains chercheurs comme le premier pays musulman de ce continent Sixième producteur mondial de pétrole et bientôt premier producteur de gaz le pays cinquième fournisseur des États-Unis en pétrole jouit d'un rôle stratégique important On comprend pourquoi l'adoption de la charia par douze des trente-six États fédérés inquiète les stratèges américains et l'opinion publique alertée par les condamnations mort par lapidation de Safiya Hussaini et Amina Lawal Cet ouvrage permet de comprendre cette évolution de l'islam longtemps perçue et analysée à travers le prisme dominant des conflits des origines nos jours Dans une approche à la fois religieuse et politique l'auteur analyse progressivement le contexte sociopolitique dans lequel les différents mouvements ont pu s'imposer Le lecteur trouvera donc dans ce livre une analyse détaillée et rigoureuse qui permet de comprendre le rôle stratégique du Nigeria au niveau international et l'actuelle problématique de la charia

Cultural Consumption, Classification and Power Alan Warde, 2013-10-18 When social scientists in the 1970s began to identify the positive and constructive role of cultural practices in the operation of power Pierre Bourdieu advanced a highly influential and subsequently controversial account Most notably in *Distinction* he charted the connections between cultural taste and practice and social classification This book seeks to evaluate develop and transcend the ideas that Bourdieu explored in *Distinction* Taken together the papers compare and contrast different theoretical and conceptual approaches bring empirical investigations to bear on relevant theoretical issues drawing on different national experiences France UK Canada Central Africa and attend to aspects of the relationship between culture and power with reference to gender and ethnicity as well as class Thus the book contributes to the ongoing international debates across the social sciences about Bourdieu's legacy and the current role of cultural practice in social reproduction

Revue internationale de politique comparée aura ainsi réuni une centaine de chercheurs provenant de trois continents et d'une quinzaine de pays différents et suscité de stimulants échanges dont les contributions réunies dans cet ouvrage portent témoignage. C'est un regard vivant qui est porté ici sur ces questionnements. Appuyé sur l'expérience et l'expertise reconnues de grandes figures de la science politique comparée francophone, le débat s'enrichit des recherches de terrain les plus récentes de jeunes chercheurs. Cet ouvrage se présente donc sous la forme d'un guide précieux incontournable pour les étudiants ou chercheurs qui s'intéressent à la politique comparée.

Penser la politique comparée-Un état des savoirs théoriques et méthodologiques Céline THIRIOT, Marianne MARTY et Emmanuel NADAL (ouvrage coordonné par), 2004-12-01. La nécessité et la limite de la démarche comparatiste au sein de la science politique ne sont plus à prouver. Comparer sert à expliquer, comparer sert à contrôler la validité de certaines observations, éviter les généralisations abusives, ouvrir sa grille d'analyse et élargir le champ de son expérience des réalités sociales et politiques. Cet ouvrage propose un examen critique des usages et des perceptions de certaines approches méthodologiques de la politique comparée. Il se présente sous la forme d'un guide précieux incontournable pour les étudiants ou chercheurs qui s'intéressent à la politique comparée.

Représentations de l'altérité dans la littérature orale africaine Ursula Baumgardt, 2014. 4e de couverture. Les articles présentés dans ce volume s'inscrivent dans la continuité des recherches en littérature orale africaine menées au CNRS et à l'Inalco depuis les années 1970. Ces différents travaux ont porté largement sur l'analyse de l'identité culturelle exprimée à travers les textes littéraires oraux. La notion d'altérité tant liée à celle d'identité nous avons voulu l'explorer dans la perspective suivante : la littérature orale tant une voie d'accès aux représentations culturelles, quelle est la spécificité culturelle des expressions de l'altérité dans ces textes. Nous souhaitons ainsi apporter une contribution à un champ peu analysé, celui de l'altérité vue de l'intérieur selon un axe Sud-Sud. De manière plus générale, on se trouve souvent face à un dilemme. On peut étudier la littérature orale comme l'expression d'une identité culturelle, cela implique alors du point de vue de la recherche qu'on aborde la problématique de façon exhaustive sans faire l'impasse sur certains faits. Or, dans bien des cas, cette littérature est porteuse de clichés et de stéréotypes auxquels l'utilisateur n'adhère pas forcément. Cela l'amenant éventuellement à adopter des stratégies d'évitement, il fermera les yeux sur les questions conflictuelles et cherchera à embellir la réalité laquelle renvoie l'expression littéraire. Dans d'autres cas, au contraire, l'utilisateur admet tout fait les clichés exprimés sans prendre de distance par rapport à eux. Dans ces conditions, il est bien difficile de mettre en avant la richesse culturelle de la littérature orale comme on le fait habituellement dans un souci de valorisation du patrimoine universel. Il semble qu'une véritable valorisation ne peut se faire si l'on n'aborde pas ces questions en traitant de la portée idéologique de la littérature orale.

Des emplois près de chez vous Thierry Berthet, 2005. Étude sur les politiques locales en faveur de l'emploi. Avec la déconcentration, les territoires disposent de nouvelles prérogatives. En deux décennies, les collectivités territoriales sont de plus en plus engagées en faveur de l'emploi. L'ouvrage décrit notamment les différents acteurs locaux ou les dispositifs mis en place comme les PLIE (Plan local pour l'insertion et l'emploi).
