Department of Bibliography, 1980 **Portrait of a Woman in Silk** Zara Anishanslin, 2016-09-20 Through the story of a portrait of a woman in a silk dress historian Zara Anishanslin embarks on a fascinating journey exploring and refining debates about the cultural history of the eighteenth century British Atlantic world While most scholarship on commodities focuses either on labor and production or on consumption and use Anishanslin unifies both examining the worlds of four identifiable people who produced wore and represented this object a London weaver one of early modern Britain's few women silk designers a Philadelphia merchant's wife and a New England painter Blending macro and micro history with nuanced gender analysis Anishanslin shows how making buying and using goods in the British Atlantic created an object based community that tied its inhabitants together while also allowing for different views of the Empire Investigating a range of subjects including self fashioning identity natural history politics and trade Anishanslin makes major contributions both to the study of material culture and to our ongoing conversation about how to write history **Developing Dixie** Winfred Moore, Joseph F. Tripp, Lyon G. Tyler, 1988-06-27 This collection of essays examines the development of the American South from the end of the Civil War to the end of World War II Written by both well known and emerging scholars the essays are divided into sections that address some of the major issues of that era such as race relations economic development political reform the roles of southern women the messages of folk music and the problems of the region's historians Each article offers fresh insights or new information on its subject and collectively the articles help to illuminate how the most traditional of American regions tried to cope with the forces of modernization

Slavery and the Making of Early American Libraries Sean D. Moore, 2019-02-07 Early American libraries stood at the nexus of two transatlantic branches of commerce the book trade and the slave trade Slavery and the Making of Early

American Libraries bridges the study of these trades by demonstrating how Americans profits from slavery were reinvested in imported British books and providing evidence that the colonial book market was shaped in part by the demand of slave owners for metropolitan cultural capital Drawing on recent scholarship that shows how participation in London cultural life was very expensive in the eighteenth century as well as evidence that enslavers were therefore some of the few early Americans who could afford to import British cultural products the volume merges the fields of the history of the book Atlantic studies and the study of race arguing that the empire wide circulation of British books was underwritten by the labour of the African diaspora The volume is the first in early American and eighteenth century British studies to fuse our growing understanding of the material culture of the transatlantic text with our awareness of slavery as an economic and philanthropic basis for the production and consumption of knowledge In studying the American dissemination of works of British literature and political thought it claims that Americans were seeking out the forms of citizenship constitutional traditions and rights that were the signature of that British identity Even though they were purchasing the sovereignty of Anglo Americans at the expense of African Americans through these books however some colonials were also making the case for the abolition of slavery Women of Colonial America Brandon Marie Miller,2016-02-01 New York Public Library Teen Book List In colonial America hard work proved a constant for most women some ensured their family s survival through their skills while others sold their labor or lived in bondage as indentured servants or slaves Yet even in a world defined entirely by men a world where few thought it important to record a female s thoughts women found ways to step forth Elizabeth Ashbridge survived an abusive indenture to become a Quaker preacher Anne Bradstreet penned her poems while raising eight children in the wilderness Anne Hutchinson went toe to toe with Puritan authorities Margaret Hardenbroeck Philipse built a trade empire in New Amsterdam And Eve a Virginia slave twice ran away to freedom Using a host of primary sources author Brandon Marie Miller recounts the roles hardships and daily lives of Native American European and African women in the 17th and 18th centuries With strength courage resilience and resourcefulness these women and many others played a vital role in the mosaic of life in the North American colonies *Women in Early America* Dorothy Auchter Mays,2004-11-23 This volume fills a gap in traditional women s history books by offering fascinating details of the lives of early American women and showing how these women adapted to the challenges of daily life in the colonies Women in Early America Struggle Survival and Freedom in a New World provides insight into an era in American history when women had immense responsibilities and unusual freedoms These women worked in a range of occupations such as tavernkeeping printing spiritual leadership trading and shopkeeping Pipe smoking beer drinking and premarital sex were widespread One of every eight people traveling with the British Army during the American Revolution was a woman The coverage begins with the 1607 settlement at Jamestown and ends with the War of 1812 In addition to the role of Anglo American women the experiences of African French Dutch and Native American women are discussed The issues discussed

include how women coped with rural isolation why they were prone to superstitions who was likely to give birth out of wedlock and how they raised large families while coping with immense household responsibilities

Travels with George Nathaniel Philbrick, 2022-05-31 NEW YORK TIMES BESTSELLER *Travels with George* is quintessential Philbrick a lively courageous and masterful achievement The Boston Globe Does George Washington still matter Bestselling author Nathaniel Philbrick argues for Washington's unique contribution to the forging of America by retracing his journey as a new president through all thirteen former colonies which were now an unsure nation *Travels with George* marks a new first person voice for Philbrick weaving history and personal reflection into a single narrative When George Washington became president in 1789 the United States of America was still a loose and quarrelsome confederation and a tentative political experiment Washington undertook a tour of the ex colonies to talk to ordinary citizens about his new government and to imbue in them the idea of being one thing Americans In the fall of 2018 Nathaniel Philbrick embarked on his own journey into what Washington called the infant woody country to see for himself what America had become in the 229 years since Writing in a thoughtful first person about his own adventures with his wife Melissa and their dog Dora Philbrick follows Washington's presidential excursions from Mount Vernon to the new capital in New York a monthlong tour of Connecticut Massachusetts New Hampshire and Rhode Island a venture onto Long Island and eventually across Georgia South Carolina and North Carolina The narrative moves smoothly between the eighteenth and twenty first centuries as we see the country through both Washington's and Philbrick's eyes Written at a moment when America's founding figures are under increasing scrutiny *Travels with George* grapples bluntly and honestly with Washington's legacy as a man of the people a reluctant president and a plantation owner who held people in slavery At historic houses and landmarks Philbrick reports on the reinterpretations at work as he meets reenactors tour guides and other keepers of history's flame He paints a picture of eighteenth century America as divided and fraught as it is today and he comes to understand how Washington compelled enticed stood up to and listened to the many different people he met along the way and how his all consuming belief in the union helped to forge a nation

Women's Concerns Jill Christine Jepson, 2009 In the eighteenth and nineteenth centuries women's businesses from small local concerns to financial empires offered women independence supported their families and supplied essential goods and services to their communities and the world They also contributed to much needed legal and social change and set the stage for the female entrepreneurs who would come later All this was accomplished despite immense financial barriers an inequitable legal system and the widely held belief that women had no business in business *Women's Concerns* explores the lives of twelve women who owned and operated businesses in the eighteenth and nineteenth centuries It focuses on the ways they created personal and public identities and managed the contradictions between their entrepreneurial ambitions and deeply entrenched attitudes about women's roles
