Berlin 1930 When a wave of change sweeps a radical political party to power Sofie von Meyer Rhodes's academic husband benefits from the ambitions of its newly elected chancellor. Although Sofie and J rgen do not share the social views growing popular in Hitler's Germany J rgen's position with its burgeoning rocket program changes their diminishing fortunes for the better. But as Sofie watches helplessly her beloved Berlin begins to transform forcing her to consider what they must sacrifice morally for their young family's security and what the price for their neutrality will be. Twenty years later J rgen is one of the many German scientists offered pardons for their part in the war and taken to America to work for its fledgling space program. For Sofie this is the chance to exorcise the ghosts that have followed her across the ocean and make a fresh start in her adopted country. But her neighbors aren't as welcoming or as understanding as she had hoped. When scandalous rumors about the Rhodes family's affiliation with Hitler's regime spreads idle gossip turns to bitter rage and the act of violence that results will tear apart Sofie's community and her family before the truth is finally revealed. An unforgettable novel that explores important questions highly relevant to the world today. Christine Wells author of *Sisters of the Resistance*. Don't miss

through collective belief not intrinsic truth This modern edition of Conrad s classic novel includes a fresh Afterword extensive reference materials including a timeline of Conrad s life and works character glossary and group discussion questions on this literary classic The text of the novel has been slightly edited to remove archaic terminology and make it more readable to the modern reader Flora s existence is a palimpsest of male projections her father grafts his shame onto her Marlow reduces her to a case study in feminine vulnerability and Anthony romanticizes her helplessness as a canvas for his chivalry Conrad strips agency from her until the final act where her quiet defiance refusing to perform victimhood unsettles the men who ve narrativized her suffering The novel s seas are not metaphors for existential voids but social currents the Ferndale the ship where Flora and Anthony s strained marriage plays out becomes a floating panopticon where every glance judges distorts or pities Chance here isn t cosmic irony but the residue of structural neglect Flora s life is shaped not by destiny but by who happens to control the narrative Even Marlow that expert in secrets admits his account is a bird s eye view with the bird being half blind The true horror isn t de Barral s financial crimes but the cultural machinery that commodifies his daughter s trauma into gossip then into legend Conrad s prose uncharacteristically digressive mimics the futility of seeking coherence in a world where truth is the first casualty of collective storytelling Flora s final silence isn t defeat it s the only act of ownership left in a society that consumes women s lives as entertainment
