Embodiment And Experience The Existential Ground Of Culture And Self:

Embodiment and Experience Thomas J. Csordas, 1994-11-17 Students of culture have been increasingly concerned with the ways in which cultural values are inscribed on the body. These essays go beyond this passive construal of the body to a position in which embodiment is understood as the existential condition of cultural life. From this standpoint, embodiment is reducible neither to representations of the body, to the body as an objectification of power, to the body as a physical entity or biological organism, nor to the body as an inalienable centre of individual consciousness. This more sensate and dynamic view is applied by the contributors to a variety of topics including the expression of emotion, the experience of pain, ritual healing, dietary customs, and political violence. Their purpose is to contribute to a phenomenological theory of culture and self, an anthropology that is not merely about the body but from the body. **Embodiment and Experience** Thomas J.

Experience Thomas J. Csordas, 1994 *Sufi Women, Embodiment, and the 'Self'* Jamila Rodrigues, 2022-12-30 This book is an ethnographic case study of Sufi ritual practice and embodied experience amongst female members of the Naqshbandi community. Drawing on fieldwork in Cape Town, South Africa, and Lefke, Cyprus, 2013-2014, the author examines women's experiences within a particular performance of Sufi tradition. The focus is on the ritual named hadra, involving the recital of sacred texts, music, and body movement, where the goal is for the individual to reach a state of intimacy with God. The volume considers Sufi practice as a form of embodied cultural behavior, religious identity, and selfhood construction. It explains how Muslim women's participation in hadra ritual life reflects religious and cultural ideas about the body, the body's movement, and embodied selfhood expression within the ritual experience. *Sufi Women: Ritual, Embodiment, and the Self* engages with studies in Sufism, symbolic anthropology, ethnography, dance, and somatic studies. Contributing to discussions of religion, gender, and the body, the book will be of interest to scholars from anthropology, sociology, religious ritual studies, Sufism, and gender studies and performance studies. **The Magical Body** Richard Eves, 2014-01-09 An intriguing exploration of the role and significance of the body in the world of a Pacific Islands people, the Lelet of New Ireland, Papua New Guinea. In vivid ethnographic detail, the monograph captures the fluidity and complexity of Lelet conceptions of corporeality and their significance to identity as they encounter the influences of modernity in the form of colonialism, Christianity, and cash cropping. The author examines the importance of the body to constructions of identity and difference and its role in the constitution of place and space. The book provides a richly detailed ethnographic study of magical belief and the body whilst paying particular attention to the polyvalent meanings of bodily images and metaphors as they are used in numerous contexts of magic. **Perspectives on Embodiment** Gail Weiss, Honi Fern Haber, 2002-05-03 *Perspectives on Embodiment* offers multiple ways of conceptualizing human corporeality. These essays collectively defy arbitrary distinctions between

nature and culture and reveal the complex ways in which nature and culture interact to produce embodied subjects A central premise of this collection is that a variety of perspectives is needed to illuminate the fluid ever changing features of human corporeality This book not only explores what it means to be an embodied subject but also encourages speculation about our future bodily incarnations

Self-Alteration Jean-Paul Baldacchino,Christopher Houston,2023-11-10 Many of us feel a pressing desire to be different to be other than who we are Self conscious we anxiously perceive our shortcomings or insufficiencies wondering why we are

how we are and whether we might be different Often we wish to alter ourselves to change our relationships and to transform the person we are in those relationships Not only a philosophical question about how other people change self alteration is also a practical care can I change and how Self Alteration How People Change Themselves across Cultures explores and analyzes these apparently universal hopes and their related existential dilemmas The essays here come at the subject of the self and its becoming through case studies of modes of transformation of the self They do this with social processes and projects that reveal how the self acquires a non trivial new meaning in and through its very process of alteration By focusing on ways we are allowed to change ourselves including through religious and spiritual traditions and innovations embodied participation in therapeutic programs like psychoanalysis and gendered care services and political activism or relationships with animals the authors in this volume create a model for cross cultural or global analysis of social self change that leads to fresh ways of addressing the self itself
