## **Embracing Cyprus The Path To Unity In The New Europe:**

Embracing Cyprus Pauline Green, Ray Collins, 2003-03-28 When Archbishop Makarios was toppled as President of Cyprus in a 1974 coup and Turkish forces invaded the island few saw Cyprus as part of the incipient drive to create a new Europe Yet as Pauline Green reveals here behind the rhetoric of the politicians there is a growing view among Greek and Turkish Cypriots that the solution to Cyprus problems lies within the gift of Europe And yet the problems remain knotty not least because of the highly sensitive and little discussed role of the British military bases on the island whose security and intelligence gathering functions are so crucial to UK and US interests in the region The author's analysis should interest those concerned not only with the future of Cyprus Turkey and the Eastern Mediterranean but also with the fate of the European Union itself *The New Relationship between the United Kingdom and the European Union* Emmanuel Guinchard, Carlo Panara, 2025-03-29 Brexit has reshuffled the cards of the relationship between the United Kingdom and the European Union It is a one in a lifetime event which ended nearly 50 years of EU Membership EU law as such no longer applies in the United Kingdom and British citizens and companies no longer benefit from its advantages Part of the previous regime has however been maintained at times with amendments through the series of treaties negotiated between the UK and the EU in 2019 and 2020 in particular the Trade and Cooperation Agreement of 2020 to which the 2023 Windsor Agreement can be added The end result is a legal regime which is perhaps even more complex than EU law itself This book aims to provide the reader with a clarification of this legal regime as well as provide context to it and suggestions to improve it All key topics are covered such as citizens of the EU in the UK and British citizens in the EU trade in goods and in services criminal justice public procurement Northern Ireland the UK overseas territories the dispute settlement security and defence international trade agreements of the UK post Brexit environmental protection European civil justice financial services education and research and the European offices of the UK local authorities and devolved administrations after Brexit All the chapters follow wherever possible the same triadic structure The first part looks at the regime prior to Brexit the second part analyses the current regime and the third part discusses ongoing and predictable trends The concluding chapter attempts to identify some themes likely to impact on the forthcoming preparation of the 2026 review *EU Accession and UN Peacemaking in Cyprus* J. Ker-Lindsay, 2005-08-10 This work traces the attempts by the United Nations to bring about the reunification of Cyprus prior to the island's accession to the European Union on 1 May 2004 In addition to charting the course of previous efforts to solve the Cyprus issue the book recounts the direct discussions between the two sides from January 2002 through to April 2004 and analyses the reasons why the UN plan was rejected in a referendum Cyprus: a conflict at the crossroads Thomas Diez, Nathalie Tocci, 2024-07-30 This unique collection of essays available for the first time in paperback provides a multi faceted analysis of the Cyprus conflict It sees the conflict both at a historical and at an analytical crossroads and brings together leading scholars from various disciplines to provide fresh perspectives on the long

standing issues surrounding Cyprus The four parts of the book deal first with domestic determinants of the conflict and its resolution then with external influences before comparing Cyprus to other conflict cases and finally including approaches beyond political science The application of different methodological and theoretical approaches from rational choice to gender studies to a single case allows for their comparison and make this a must read not only for those interested in Cyprus but for all students of conflict resolution

Peacemaking Strategies in Cyprus Eleftherios A. Michael, 2015-09-04 This book takes a systematic and holistic approach to examining all 41 peacemaking initiatives used to settle the Cyprus question from 1955 onward under the auspices of the United Nations and or other actors in the international system including the United States Canada the UK Greece and Turkey The analysis of peacemaking strategies dynamics and obstacles fleshes out numerous relationships between i peacemaking processes dynamics and outcomes from signaling to negotiations and to post accord completion and implementation ii concessions constraints and leverage during peacemaking negotiations and third party mediation and iii obstacles to finding an endgame solution and satisfying conditions for lasting peace expectations that all parties can agree on and implement successfully After documenting 62 interviews with top political leaders in Cyprus including top tier elected elites and third party mediators and about 70 more interviews with key informants including academics researchers members of negotiating teams technical committees and working groups this book concludes with a plethora of descriptive as well as prescriptive propositions on how peacemaking processes could lead to more sustainable and implementable peacemaking initiatives in Cyprus and in similar protracted and seemingly intractable cases

**Turkey's Road to European Union Membership** Susannah Verney, Kostas Ifantis, 2013-09-13 Enlargement to Turkey is arguably the greatest challenge facing the European Union today After the narrowly averted train crash over Cyprus in 2006 the second election victory of the Justice and Development Party in July 2007 opened new prospects for Turkish EU relations But in an EU emphasising a collective identity based on shared civilisational values Turkey s European credentials have been increasingly called into question Amending national identity through political change has become the key to the success or failure of the Turkish integration project This volume examines the EU role in strengthening the domestic pro reform coalition within Turkey the paradox and potential limits of Turkey s europeanising Islamists and the impact of

Europeanisation through conditionality including a case study of Turkish policy towards the Cyprus Question Also addressed are the Western stereotypes of Turkish identity influencing the country's EU prospects notably concerning the role of Islam in precipitating acts of political violence and its association with sexual and political violence in the discourse of European opponents of Turkish accession Finally the dynamics of EU accession negotiations are analysed and the potential role of a norm driven rhetorical strategy in promoting Turkish accession as a moral and democratic imperative is discussed
