Emden And The Dutch Revolt:

Emden and the Dutch Revolt Andrew Pettegree,1992 This is a study of the role of the German town of Emden in the European Reformation of the 16th century examining the significant part it played for Dutch Protestants as a training centre and a major source of propaganda It also provides a reconstruction of the output of Emden s printing presses *The Origins and Development of the Dutch Revolt* Mr Graham Darby,Graham Darby,2003-09-02 The Dutch revolt against Spanish rule in the sixteenth century was a formative event in European history The Origins and Development of the Dutch Revolt brings together in one volume the latest scholarship from leading experts in the field to illuminate why the Dutch revolted the way events unfolded and how they gained independence In exploring the desire of the Dutch to control their own affairs it also questions whether Dutch identity came about by accident The book makes the most recent research available in English for the first time focusing on the role of the aristocracy religion the towns and provinces the Spanish perspective finance and ideology *Exile Memories and the Dutch Revolt* Johannes Mueller,2016-04-08 The Dutch Revolt ca 1572 1648 led to the displacement of tens of thousands of people In Exile Memories and the Dutch Revolt Johannes M ller shows how migrants and their descendants in the Dutch Republic England and Germany cultivated their Netherlandish heritage for more than 200 years Memories of war and persecution shaped new religious and political identities that combined images of suffering and heroism and served as foundational narratives of newcomers Exposing the underlying narrative structures of early modern exile memories this volume shows how stories about the Dutch Revolt allowed migrants to participate in their host societies rather than producing a closed and exclusive diaspora While narratives of religious persecution attracted non migrants as well exile networks were able to connect newcomers and established residents *The Battle for the Sabbath in the Dutch Reformation* Kyle J. Dieleman,2019-01-21 Kyle J Dieleman focuses on the doctrinal and practical importance of Sunday observance in the early modern Reformed communities in the Low Countries My project investigates the theological import of the Sabbath and its practical applications The first step is to focus on how Dutch Reformed theologians conceived of the Sabbath The theology of the Sabbath I argue moves over time from an emphasis on spiritual rest to participating in the ministries of the church to a strict rest from all work and recreation The next step is to explore congregants actual Sunday practices By attending to church governance records at the national regional and local levels the importance of proper Sabbath observance quickly becomes clear The provincial synod records classes records and consistory records indicate that church authorities were adamant that church members faithfully attend sermon and catechism services refrain from sinful practices and abstain from recreational activities Equally as telling as the observance demanded of church members is how church authorities responded The church records portray these authorities as fretting over the disordered and unregulated nature of improper Sabbath observance Having established the importance of the Sabbath in Dutch Reformed theology and lived piety I argue the emphasis on Sunday observance is best understood as resulting from two main factors First the

emphasis on proper Sunday observance is a result of the Reformed church authorities attempting to maintain the pious reputation of the Reformed faith and establish the identity of the Reformed Church amid multiple other confessional identities Second proper observance of the Sabbath was important because it ensured order within the church and society more broadly

The European Reformation Euan Cameron, 2012-03-01 Since its first appearance in 1991 The European Reformation has offered a clear integrated and coherent analysis and explanation of how Christianity in Western and Central Europe from Iceland to Hungary from the Baltic to the Pyrenees splintered into separate Protestant and Catholic identities and movements Catholic Christianity at the end of the Middle Ages was not at all a uniformly decadent or corrupt institution it showed clear signs of cultural vigour and inventiveness However it was vulnerable to a particular kind of criticism if ever its claims to mediate the grace of God to believers were challenged Martin Luther proposed a radically new insight into how God forgives human sin In this new theological vision rituals did not purify people priests did not need to be set apart from the ordinary community the church needed no longer to be an international body For a critical Reformation moment this idea caught fire in the spiritual political and community life of much of Europe Lay people seized hold of the instruments of spiritual authority and transformed religion into something simpler more local more rooted in their own community So were born the many cultures liturgies musical traditions and prayer lives of the countries of Protestant Europe This new edition embraces and responds to developments in scholarship over the past twenty years Substantially re-written and updated with both a thorough revision of the text and fully updated references and bibliography it nevertheless preserves the distinctive features of the original including its clearly thought out integration of theological ideas and political cultures helping to bridge the gap between theological and social history and the use of helpful charts and tables that made the original so easy to use

Topographies of Tolerance and Intolerance Marjorie Elizabeth Plummer, Victoria Christman, 2018-08-07 Topographies of Tolerance and Intolerance challenges the narrative of a simple progression of tolerance and the establishment of confessional identity during the early modern period These essays explore the lived experiences of religious plurality providing insights into the developments and drawbacks of religious coexistence in this turbulent period The essays examine three main groups of actors the laity parish clergy and

unacknowledged religious minorities in pre and post Westphalian Europe Throughout this period the laity navigated their own often fluid religious beliefs the expectations of conformity held by their religious and political leaders and the complex realities of life that involved interactions with co religious and non co religious family neighbors and business associates on a daily basis Contributors are James Blakeley Amy Nelson Burnett Victoria Christman Geoffrey Dipple Timothy G Fehler Emily Fisher Gray Benjamin J Kaplan David M Luebke David Mayes Marjorie Elizabeth Plummer William Bradford Smith and Shira Weidenbaum Reformation Europe Ulinka Rublack,2017-09-21 The first survey to utilise the approaches of the new

Graeme Murdock,2017-03-14 An international community of Reformed churches emerged during the sixteenth century Although attempts were made by Calvinists to reach agreement over key beliefs and to establish uniformity in patterns of worship and church government there were continuing divisions over some ideas and differences between local practices of moral discipline and religious life However Reformed intellectuals developed common ideas about rights of resistance against tyrants communities prayed fasted and donated money to aid brethren in distress and many Calvinists across the Continent developed a strong sense of collective identity Beyond Calvin considers the Reformed churches of Europe in an international and comparative context from around 1540 to 1620 Graeme Murdock Discusses how Calvinism operated as an

international movement by looking at links between Reformed churches communities and states Explains what Reformed churches across the Continent stood for Focuses on how Calvinists sought to purify the practice of Christian religion and to renew European politics society and culture Examines both the strengths and limits of the international Reformed community

Dutch Review of Church History, Volume 85: The Formation of Clerical and Confessional Identities in Early Modern Europe Wim Janse, Barbara Pitkin, 2006-01-01 The 24 essays in this volume explore the formation of clerical and confessional identities in early modern Europe from three angles The first part of the book focuses on education and theological training the second on the interpretation of Scripture and preaching and the third on the construction of clerical and communal expectations and self understandings The interdisciplinary discussion intersects with the confessionalization debate and proceeds from comparative perspectives confessionally geographically and dimensionally local and international What is especially innovative is the rich portrait of the complexities of identities and the sources used to determine them An extensive introduction offers a detailed systematic overview and lays the foundation for discussions of the volume's refreshing findings A book review section is annexed Contributors include Raymond A Blacketer Wietse de Boer F G M Broeyer Robert J Christman Kathleen M Comerford Stefan Ehrenpreis Riemer A Faber David Fors Freeman Leendert F Groenendijk Wim Janse Gary W Jenkins Karin Maag Ellen A Macek Emily Michelson Andreas M hling Patrick J O Banion G Sujin Pak Barbara Pitkin Rady Rold n Figueroa Jason Sager Robert E Scully SJ Margo Todd Sven Tode and Gerrit Voogt
