Truth in Publishing Linda Lawson,1993 The Newspaper Publicity Act passed in 1912 is still in effect and requires commercial newspapers and magazines using the preferential second class mail rate to identify their owners and investors and to label advertisements that resemble news stories or editorials These publications are also required to disclose circulation data along with their ownership statements In part 1 Linda Lawson documents the press s inner workings including its excesses and abuses as it evolved from a collection of small businesses in the mid 1800s to an established

commercial institution of the twentieth century Large urban newspapers challenged small rural papers at the same time burgeoning popular magazines and trade journals competed fiercely with every other type of publication for advertisers and readers The regulatory actions brought about by these divisions within the industry are treated in part 2 Structure of American History: V. IV Emergence of Modern America, 1865-1900 Davis R. B. Ross (comp),1970 **Presidents by Fate** F. Martin Harmon,2019-08-16 Throughout the history of the United States only nine men were elevated to the White House by the death or failure of a sitting president and their legacies are as mixed as their circumstances This book evaluates the similarities and distinct differences of these men their varying degrees of ambition and readiness and how each handled their suddenly enormous duties Some became presidential legends while others are counted among the worst Their shared stories shed light on America's political development during the last two centuries *Veblen And Modern America* Michael Spindler,2002-05-20 Evaluates Veblen not just as an economist or a sociologist but as a seminal critic of modern American culture **Imagined Histories** Anthony Molho,Gordon S. Wood,2018-06-05 This collection of essays by twenty one distinguished American historians reflects on a peculiarly American way of imagining the past At a time when history writing has changed dramatically the authors discuss the birth and evolution of historiography in this country from its origins in the late nineteenth century through its present more cosmopolitan character In the book's first part concerning recent historiography are chapters on exceptionalism gender economic history social theory race and immigration and multiculturalism Authors are Daniel Rodgers Linda Kerber Naomi Lamoreaux Dorothy Ross Thomas Holt and Philip Gleason The three American centuries are discussed in the second part with chapters by Gordon Wood George Fredrickson and James Patterson The third part is a chronological survey of non American histories including that of Western civilization ancient history the middle ages early modern and modern Europe Russia and Asia Contributors are Eugen Weber Richard Saller Gabrielle Spiegel Anthony Molho Philip Benedict Richard Kagan Keith Baker Joseph Zizak Volker Berghahn Charles Maier Martin Malia and Carol Gluck Together these scholars reveal the unique perspective American historians have brought to the past of their own nation as well as that of the world Formerly writing from a conviction that America had a singular destiny American historians have gradually come to share viewpoints of historians in other countries about which they write The result is the virtual disappearance of what was a distinctive American voice That voice is the subject of this book

immigrant workers of dramatic demographic change and of nativism and racism Mink then elucidates the development of trade union political interests ideology and strategy the movement of the AFL into established state and party structures and the consequent separation of the AFL from labor's social base
