Emergency War Plan Sean M. Maloney, 2021-02 2023 AFHF Air Power History Book Prize Winner *Emergency War Plan* examines the theory and practice of American nuclear deterrence and its evolution during the Cold War Previous examinations of nuclear strategy during this time have for the most part categorized American efforts as massive retaliation and mutually assured destruction blunt instruments to be casually dismissed in favor of more flexible approaches or summed up in inflammatory and judgmental

terms like MAD These descriptors evolved into slogans and any nuanced discussion of the efficacy of the actual strategies withered due to a variety of political and social factors Drawing on newly released weapons effects information along with new information about Soviet capabilities as well as risky and covert espionage missions Emergency War Plan provides a completely new examination of American nuclear deterrence strategy during the first fifteen years of the Cold War the first such study since the 1980s Ultimately what emerges is a picture of a gargantuan and potentially devastating enterprise that was understood at the time by the public in only the vaguest terms but that was not as out of control as has been alleged and was more nuanced than previously understood

Walks and Climbs in the Pyrenees Kev Reynolds, 2019-09-15 A guidebook to 170 walks multi day treks and moderate summit attempts in the Pyrenees Covering the Central and High Pyrenees of France Spain and Andorra these walks treks and climbs are suitable for all walkers of all abilities and climbers capable of F to AD Covering the whole mountain range the routes are presented in 21 sections based on valley or massif Routes vary between short 30min walks to 12 day treks and are graded allowing you to select the walks and climbs that suit you Sketch maps are included Detailed information on transport facilities and mountain huts Ascents of 25 summits are included Highlights include Pic du Midi d Ossau and Ordesa National Park
