Hackworth,2012 Faith Based explores how the Religious Right has supported neoliberalism in the United States bringing a particular focus to welfare an arena where conservative Protestant politics and neoliberal economic ideas come together most clearly Through case studies of gospel rescue missions Habitat for Humanity and religious charities in post Katrina New Orleans Jason Hackworth describes both the theory and practice of faith based welfare revealing fundamental tensions between the religious and economic wings of the conservative movement Hackworth begins by tracing the fusion of evangelical religious conservatism and promarket antigovernment activism which resulted in what he calls religious neoliberalism He argues that neoliberalism the ideological sanctification of private property the individual and antistatist politics has rarely been popular enough on its own to promote wide change Rather neoliberals gain the most traction when they align their efforts with other discourses and ideas The promotion of faith based alternatives to welfare is a classic case of coalition building on the Right Evangelicals get to provide social services in line with Biblical tenets while opponents of big government chip away at the public safety net Though religious neoliberalism is most closely associated with George W Bush s Office of Faith Based and Neighborhood Partnerships the idea predates Bush and continues to hold sway in the Obama administration Despite its success however Hackworth contends that religious neoliberalism remains an uneasy alliance a fusion that has been tested and frayed by recent events **Faith Community Nursing** Janet Susan Hickman,2006 This unique text combines traditional parish nursing content with community health nursing methodology coverage of community and faith community assessment and health education and health promotion disease prevention programming Inspirations of Life in Faith Nomusa Buleni,2017-06-14 This is a Christian motivational book which inspires Christians *And a Time to Die* Sharon Kaufman,2005-04-19 A reassuring and illuminating examination on our conflicting wishes about the end of life how the politics and routines of the American hospital have formed our understanding and experience of death and ultimately why what we consider a good death is so hard to attain In a

penetrating and revelatory study medical anthropologist Dr Sharon Kaufman uses two years of intensive observations and interviews with scores of patients family members physicians nurses social workers and other staff at several community hospitals in California to explore the heart of a science driven yet fractured and often irrational world of health care delivery where empathetic yet frustrated hard working yet constrained professionals both respond to and create the anxieties and often inchoate expectations of patients and families who must make decisions they are ill prepared to make She sought out the critically ill the dying and their friends and relatives She followed patients from admission to death days weeks or sometimes months later through what is often for them and their families a Kafka esque journey She asked hospital staff what they were doing and why and stood beside doctors and nurses observing their work cynicism compassion and frustration And she paid close attention to the most important player of all the hospital bureaucracy and how it impacts the manner and timing of patient death Her investigative research links together the emotional experiences of patients and families the dedicated work of hospital staff and the ramifications of institutional bureaucracy to show the invisible power of the hospital system itself its rules mandates and daily activity in organizing death and individual experience of it The book is the story of real patients and their families an account of what drives the American hospital today and a report on the complex sources and implications of doing something about death Sons of Valor, Parents of Faith James J.

O'Donnell, 2017-11-02 On the morning of September 11 2001 our world changed forever not only in this country but in every other country as well There is undoubtedly no other single event occurring in our nation's history that can compare with the impact felt that day And for the brave men and women who made the ultimate sacrifice that September morning their legacies will be carried by the family and friends who embraced them as sons daughters parents and partners Sons of Valor Parents of Faith shares the touching personal stories and interviews of the parents of New York City firefighters and one police detective killed on 9 11 and it takes us on their subsequent spiritual and emotional journeys Although many of these men were young they had already left a significant imprint on the world and their parents now share their feelings about their grief in the aftermath of the tragedy All the parents were brought together by the FDNY Counseling Services Unit to begin the healing process where they learned how to heal after such a major disaster and loss Parents should never bury their children however for the parents of the 343 lost New York City firefighters September 11 2001 changed the rules in so many different ways Now in their own words the faithful parents of these heroes share their sons bravery and sacrifice so that it will never be forgotten **The Christian Century**, 1918 **Congressional Record** United States.
