

ism," and even "Marxism." While presenting us with a cursory survey of Quebec's political, social, and economic history for the past four decades, the authors raise the possibility that nationalism "or the national sentiment of les Québécois ... gives the workers of Quebec a possible linguistic and cultural basis to the development of a revolutionary class consciousness" (238-9). Other, more puzzling, statements include "it [ethnicity] is a mathematical measure of the direct socio-economic consequences of Quebec's colonial status, the oppression of its people" (63), or "if workers in Marx's time did not have a country, they often do today" (97), or "... this final chapter has added to the description of [American] economic imperialism the dimension of ideology, that is, how the status quo is defended by liberal intellectuals" (100).

Although this book is woefully simplistic (but full of noble sentiments), it does have certain merit. The authors have undertaken substantial research, utilizing various primary sources in French Canada's social history. The second half of the book in particular is a valuable summary of literature not readily available to most English-Canadian readers and, in this sense, the authors have rendered us a service. It is, however, to be regretted that *The Decolonization of Quebec* was not condensed into a more cryptic essay of lesser length but more complex thought.

One of the significant conclusions one can draw from the publication of these two books on Quebec politics is that Canadian political scientists must begin to undertake a further, new type of collective research. It is not sufficient that one proceed to a proliferation of further studies on the politics of various provinces. It is necessary to begin to undertake collaborative comparative research projects which mesh together various provincial political studies. In order to overcome what appears as a developing "provincialism" in Canadian political science, a new comparative "inter-provincialism" must be fostered and generated.

Robert Presthus, *Elite Accommodation in Canadian Politics*. Toronto: Macmillan of Canada, 1973, pp. xii, 372.

This is an ambitious book on an important topic. It presents the results of a large-scale research effort designed to "document a theory of political behaviour which may

help explain the Canadian process of government and the vital role of groups in that process." A broad interpretation of the policy process and the part played by groups are indeed both sorely needed. Unfortunately, however, Presthus fails to meet adequately his goals and the need remains unfulfilled. The book, while presenting much useful and interesting data, suffers from major weaknesses in theory, method, style, and presentation.

Presthus sets out to explore two major theoretical streams. First is the elite accommodation model developed by Arend Lijphart, which asks how harmony may be attained in a society characterized by deep subcultural cleavages. Second is the view that in modern industrial societies, the imperatives of complexity and differentiation require that policy be developed through a process of close interaction between organized groups and government officials. Both purposes are served by what Presthus sees as the dominant pattern of decision-making in Canada. Interest groups play a central — if not the dominant — role in policy-making. Their contribution "is probably as important as that of the elites who direct the formal political apparatus." Government leaders are primarily brokers, and "one would be hardpressed to find any significant policy or programme conceived independently by governmental elites." Policy is thus a product of a "symbiotic interaction" in which interest-group heads, senior officials, and politicians bargain with each other in a generally consensual, cooperative, mutually rewarding way. The three groups share broadly similar social and economic origins, substantive ideologies, and views about the appropriate role of government. Allocation of resources by the three elites goes on essentially free of mass constraints, since he argues it takes place within a mass political culture which is "quasi-participative" and in which attitudes toward authority legitimize the "bureaucratic virtues of order, deference, hierarchy, security and collective limitations of individual autonomy." Corporatist, organicist, and pragmatic elements in the culture, he suggests, also facilitate the group process.

The bulk of the book examines the nature of this process through the eyes of group and government participants. Presthus looks at the structure of groups, their political resources and tactics, their perceptions of the role they play in policy formulation, and their political effectiveness. He also examines the ideological and socio-economic linkages between the various elites, depending here primarily on Ho-

Elite Accommodation in Canadian Politics Robert Presthus, 1973-05-25 A comprehensive account of the structure process and influence of interest groups and their behaviour in the political systems of Canada and the USA

Elite Accommodation in Canadian Politics Robert Presthus, 1973-05-25 Originally published in 1973 the main objectives of this study were to bring together a comprehensive amount of empirical information on the structure and process of interest groups and the nature of their interaction and influence vis vis government a great deal of such information existed regarding the USA but the subject had been somewhat neglected in the case of Canada and also to provide a theoretical explanation of interest groups in the political process by a comparative analysis of their behaviour in the two different political and cultural systems of Canada and the USA The implications of the study are developed within the framework of the theory of elite accommodation which attempts to explain interest group behaviour in the context of the larger socio political system Arguing that Canada should be included in the category of consociational societies i e relatively stable societies characterised by deep cleavages of religion and ethnicity such as Belgium the Netherlands and Switzerland the author shows how accommodation between governmental and private elites encourages democratic stability in Canada in two ways in a nation saving context and also on the operational level of allocating social resources

Gillies, 1981 From the back cover The relationship between business and government which has characterized Canadian economic development for more than a century is changing raising issues for business executives and government officials which they have never had to answer before Why has the tension increased between business and government Why has the government become more interventionist Why are the traditional techniques that business executives have used in dealing with government no longer working How should a corporation now organize its public affairs operations for maximum effectiveness What is the future of the corporation in Canada This study based on the views of leading Canadian business executives trade association officials former federal Cabinet ministers and leading commentators on public policy making in Ottawa answer these and similar questions *Federalism, Bureaucracy, and Public Policy* Richard J. Schultz, 1980-04-01 In this book Richard J Schultz analyses the political process which resulted in a major section of the 1967 National Transportation Act Part III which deals with highway transport regulation never being implemented In effect he presents us with a case study of an act that has not become law In his analysis Professor Schultz employs two models to explain the fate of Part III the first is the unitary actor model common to the study of Canadian intergovernmental relations the second is the far less commonly used bureaucratic politics model He finds the first model leaves unanswered too many critical questions while the second with its emphasis on the forces that give rise to internal conflict and competition and the consequent colouring this can give to negotiations between governments offers a more comprehensive explanation of the stalemate that resulted in the shelving of Part III Using the analysis of the particular case study the book discusses the broader issues of the underlying dynamics of both intergovernmental and intragovernmental relations in Canada The study challenges some of the common assumptions about the nature of the policy process within a parliamentary system and suggests in particular that central agencies may not exercise the degree of control frequently ascribed to them and more significantly that power and influence are much more widely dispersed and diffused within our parliamentary system than is generally acknowledged **The Language of Canadian Politics** John McMenemy, 2006-04-19 With nearly 600 cross referenced entries The Language of Canadian Politics offers brief essays on the many facets of the Canadian political system including institutions events laws concepts and public policies Concisely written it is an important resource for people interested in contemporary politics as well as those interested in the historic context of contemporary political behaviour Readers not familiar with Canadian government and politics will find the book an invaluable introduction others will welcome this updated indispensable reference The fourth edition builds on the strengths of earlier editions Almost every entry has been revised to reflect contemporary Canadian political events and many new ones have been added The results and immediate aftermath of the 2006 federal election are included in various updated entries
